Chairman Reams described this as "an important meeting for Bowling Green State University and the Board of Trustees" — representing the end of a long, arduous journey. He said the past eighteen to twenty-four months have been a challenge and that he is very proud of the fact that Dr. Olscamp is here as president of BGSU and is looking forward to a long association with him.
Dr. Olscamp reported as follows:

Activities Since Assuming the Presidency

Prior to assuming the presidency of the University on July 1, I was involved in the interview of the finalists for the Arts and Sciences Search Committees, as well as meetings on the campus with the members of the Arts and Sciences Dean Search Committee and the parallel committees in the College of Musical Arts. After interviewing the finalists for the Arts and Sciences deanship, I offered the position to Dr. Kendall Baker of the University of Wyoming, who has accepted and will take over this position on August 1.

At the end of June I journeyed to Ottawa, Canada, in order to meet several officials concerned with the development of Canadian Studies Programs in the United States. As a result of this trip, we shipped approximately 200 volumes of Canadian documents and 750 long-playing records of Radio Canada International. In addition, a commitment has been made to fund grants-in-aid up to $5,000 this fall for the purpose of bringing together those who would be interested in establishing a Canadian Studies Program on this campus.

From Ottawa I came to the main campus and have been busy ever since. The final candidates for the deanship of the College of Musical Arts, three finalists for the directorship of Intercollegiate Athletics, and five candidates for the Interim Vice Presidency for Academic Affairs have been interviewed. Dr. Karl Vogt, Dean of the College of Business Administration, was hired as Interim Vice President for Academic Affairs. Mr. Jack Gregory, Associate Athletic Director of Yale University, has accepted the directorship of Intercollegiate Athletics.

Two offers were made to final candidates for the deanship of the College of Musical Arts. The candidate of first preference declined the offer, and after protracted negotiations the second candidate and I mutually agreed to terminate our discussions. It will therefore be necessary to reopen the search for a dean of the College of Musical Arts this fall, and Interim Vice President for Academic Affairs Vogt will appoint an acting dean until the second search is brought to a successful conclusion.

Also in July, recommendations for faculty salary increases were prepared, together with the necessary recommendations for increases in tuition and fees. I met with the presidents of the Graduate and Undergraduate student bodies and with the Faculty Senate Executive Committee to explain the reasons behind the administration's recommendations, which are slightly lower than those of the Senate Executive Committee. I believe that a broad understanding of the administration's position was achieved through these discussions.

In what I hope will be a new era of openness in the administration, a complete copy of the University budget, including salaries and all University expenditures and accounts, has been placed on an open shelf in the library for the use of anyone. Furthermore, with the support of Trustee Shanklin, I will recommend to the members of the Board of Trustees Finance and Facilities Committees that the presidents of the Graduate Student Senate and the Undergraduate Student Government as well as the Chair of the Faculty Senate, be invited to sit with those committees at their gathering the night before the regular Board meeting.

A restructuring of the central administration with a concomitant net reduction in administrative positions and what I hope is a streamlined, more efficient reporting and management system has been developed and given to the Trustees.

The State of Ohio has finally released the $3 million for the completion of the Student Recreation Center, and the money was received by Dr. Eakin on July 21.

Finally, Mr. Edwards and I met with Mayor Perkins and his Director of Administrative Services, Wes Hoffman, to assure them of our desire for a continuing close relationship.

Personnel Changes

Mr. Myron Chenault resigned to accept a position with another university, and Dr. Ronald Marso will be returning to the University faculty to teach and do research. It is currently my intention not to fill either of these positions. The responsibility for the administration of Continuing Education has been transferred to Associate Provost Ramona Corner on a temporary basis pending the outcome of a review of Continuing Education by a committee currently at work.

As already mentioned, Dr. Kendall Baker is the new Dean of the College of Arts and Sciences. Dr. Karl Vogt is the Interim Vice President for Academic Affairs, and Mr. Jack Gregory is the new Director of Intercollegiate Athletics.

Enrollment and Housing

Enrollment reports reveal that Summer Quarter enrollment exceeds Summer, 1981, figures by nearly 300 students. Final enrollment for Summer, 1982, totals 6,555 compared to 6,069 in Summer, 1981.

Enrollment for Fall Semester, which opens August 30, is not complete; according to current projections, we should open the Fall Semester at the targeted enrollment ceiling of 15,000 full-time equivalent students.

I am pleased to report that ACT scores of entering fall freshmen again have increased. The average ACT score for Fall, 1982, is 21.7, compared to the ACT average of 21.2 for the Fall, 1981, class.

On-campus housing once again is projected to be at or near full occupancy. We expect to accommodate from 7,950 to 8,050 students in University residence halls for the Fall Semester.

Grant and Contract Activity

The fiscal year end report on grants and contracts is not as favorable as last year. Total grants and contracts of $2,182,575.40 were awarded and $4,461,660 student aid grants were received -- giving a total of $8,647,235. As you know, the Federal cutbacks in research, equipment and program awards has taken its toll on the Bowling Green campus as well as many other universities.

Buckeyes Boys State

I am pleased to report that BGSU was once again the site for Buckeyes Boys State. For eight days in June, over 1,400 "rising" seniors participated in this extraordinary "hands on" program. These young men from throughout the State of Ohio learn about the practicalities of government by holding either elective or appointive positions at the local, county, and state levels. The University not only provided a number
of the support services for the program but in addition offered a mini-course titled "The Governmental Process" for one college credit. The course was coordinated by Professor Michael Marsden and featured members of the BGSU faculty. BGSU and Boys State have enjoyed a five-year association and I have re- spected the office of the Ohio American Legion sponsored program relationship. Aside from recognizing the value of the overall program, I can't dismiss the fact that approximately 152 of the participants go on to enroll in BGSU!

Conference Activity

The number of participants in conferences on campus this summer is down from 6,342 in 1981 to approximately 4,000 this summer probably because of the conversion to the semester calendar, and although income figures are not available for the current summer we anticipate a corresponding decline. We expect to recoup our losses next summer because we can begin scheduling off-campus conferences in mid-May instead of mid-June.

The Future

For the next few weeks I will be involved in the following activities: Dick Edwards and I will visit legislators on a three-day tour through the Northwest Ohio area and in Columbus. Dick Eakin and I will visit with Chancellor Moulton in Columbus to discuss the upcoming fiscal year. I shall prepare a REPORT TO THE UNIVERSITY COMMUNITY for publication on opening day of the fall term which will contain my plans for the University for the next twelve months. I hope that this plan will answer many of the pending questions in the minds of members of the University community concerning possible staff changes, the financial situation of the University, academic goals, and the governance of the University.

In cooperation with the faculty of the College of Musical Arts, an acting dean will be selected and the search process reopened to seek a dean.

I shall personally pursue the development of a Canadian Studies Program on the campus.

The earlier recommendation from the Academic Council, by a vote of 8 to 7 with two abstentions, to terminate fall commencement is now being reviewed at my request by the Council. I would not be surprised if they were to change their minds about this subject, and I expect a new recommendation to come forth toward the end of August.

By the end of September I will have a list of suggested revisions to the Charter to submit to the Faculty Senate and for the study of the Trustees designed to make the role of the Faculty Senate more important in governing the University. Together with the submission of these suggestions, I will propose certain changes in the planning and budgeting processes of the institution which will also enhance the role of the Faculty Senate in these areas.

Prior to my arrival, by arrangement with the Trustees I will be absent from August 15 to approximately September 10. In the past, the opening day of the Fall term has involved a GENERAL SESSION of the University community. This time, and for this year only, we will retain the collegiate level activities which have traditionally been held on opening day but postpone those activities focused on the central administration until my return. It is my intention to hold a General Convocation for the entire University community sometime in the third week of September, at which time I shall present a major address to the community and answer questions.

In conclusion, please let me say that I am happy to be here. And I owe a debt of thanks to the many individuals who have welcomed me and helped me to get settled. I can already see that the reputation of this community for generosity, understanding and friendliness is well-deserved indeed.

Mr. Shanklin reported that members met on Thursday evening, July 22, to consider a number of action items, but there were no action items for the Board as a whole. He said reports were given concerning 1) plans for the Gish Theater improvements and the visit of Actress Lillian Gish in October; 2) opening of bids on September 23 (after ample notice) on University-owned property in the city of Bowling Green, Crestview Lots 4293 and 4294; 3) West Hall redesign and renovations for use by mass communications—both printed and electronic journalism; and 4) status of construction of the Physical Sciences Building and the delay created by a strike in the building trades.

FACILITIES COMMITTEE

Mr. Murray reported that members met on Thursday evening, July 22, to consider several discussion/report items but there were no action items for the Board as a whole. He said reports were given concerning 1) plans for the Gish Theater improvements and the visit of Actress Lillian Gish in October; 2) opening of bids on September 23 (after ample notice) on University-owned property in the city of Bowling Green, Crestview Lots 4293 and 4294; 3) West Hall redesign and renovations for use by mass communications—both printed and electronic journalism; and 4) status of construction of the Physical Sciences Building and the delay created by a strike in the building trades.

FINANCE COMMITTEE

Mr. Shanklin reported that members met on Thursday evening, July 22, to consider a number of action items, including Educational Budgets - Main Campus and Firelands - for 1982-83, and the student fees to be charged beginning with the Fall Semester, 1982. He noted the following with regard to 82-83 budget planning:

1) The administration has prepared a budget and fee increases which will permit the University to continue operations at a very good level and to provide a quality education.

2) Because of the possibility that a total of $800,000 may be withheld in state subsidy in January, it may be necessary to increase fees again in the second semester.

3) The Finance Committee is recommending to the Board student fee increases as follows, beginning with the Fall Semester, 1982: the instructional fee is being increased for the undergraduate student from $577.50 (semester basis) to $647.00 per semester — a 12 percent increase; the instructional fee for the graduate student is increased from $820.50 (semester basis) to $885.00 per semester — approximately a 7.9 percent increase. The nonresident surcharge likewise is increased from $887.50 to $945.00 on a semester basis. The general fee in the Fall, 1982, will be $160.00 — as compared to the $159.00 fee (semester basis) in the spring. The expenditure budget called for a $10.00 increase; however, receipt by the University of the long-awaited $3 million for the Cooper Swimming Pool has enabled the administration to reduce the general fee charged the students by $9.00 a semester.

4) Expenditures are increasing on the campus because of increases in the cost of those items used by the University; an attempt has been made in the budgets to cover these increases as well as wage increases for all personnel and the replacement of some funds in the operating budgets for instructional purposes.

Mr. Shanklin further stated that the Finance Committee believes the recommended budgets can accommodate the declining enrollment that the University has agreed to undergo, that all these items total $6,030,000 over the 1981-82 base budget, or a total budget being recommended for 1982-83 of $67,708,000.
Dr. Olscamp commented that the budgets involve increasing the faculty and contract staff salaries by 7.2 percent, that the University is attempting to achieve economies of operation and if expenditures are reduced and there is no additional emergency during the middle of the year, additional salary increases could be considered. He stated also that it may be possible to use some of the contingency funds to increase the enhancement funds for the Library, in line with his commitment to improve the University's Library facilities. Dr. Olscamp noted that these budgets permit the University to retain a relatively competitive position with sister institutions in the state in salaries, student fees and housing charges — although on the national AAUP (American Association of University Professors) faculty salary scale the University has declined over the past two years.

Dissolution of J. Preston Levis Regional Computer Center

Mr. Shanklin reported that the Finance Committee recommends action by the full Board on the Agreement to dissolve the presently constituted J. Preston Levis Regional Computer Center.

Dr. Eakin reported that Bowling Green State University and the University of Toledo have been involved in this Center since 1972; in 1978 the City of Toledo and the Regional Planning Unit joined the venture for the purpose of sharing the computer facilities. Over a period of time, BGSU and the University of Toledo have reached the decision to dissolve the venture among the four parties with the City of Toledo and the Regional Planning Unit also agreeing to continue the venture and to lease the property from BGSU and UT for a period of one year or until a move can be effected to a new site.

No. 7-83 Mr. Shanklin moved and Mr. Hanna seconded that approval be given to the Agreement entered into by and among Bowling Green State University, The University of Toledo, The City of Toledo, Ohio, and The Criminal Justice Coordinating Council, on June 30, 1982, for the purpose of dissolving the joint venture among the parties known as the J. Preston Levis Regional Computer Center.

Proposal to Bid for Official Depository for Bowling Green State University

No. 8-83 Mr. Shanklin moved and Mr. Ludwig seconded that the Treasurer of Bowling Green State University
1) be authorized to proceed with the development of specifications for the purpose of receiving
bids from financial institutions qualified to serve as the University's official depository for
all active or demand deposits, and 2) based upon the bids received, that the Treasurer be authorized
to then enter into contract with the financial institution fulfilling bid requirements and pro-
viding the rate structure most favorable to the University.

In summary, Dr. Olscamp described the basic reorganization as reduction of officers reporting to the
President, the assignment of line duties to four Vice Presidents and the reduction of total administrative staff
by two positions: Vic Provost for Continuing Education, Regional and Summer Programs due to Vice Provost Ronald March's decision to return to full-
time teaching duties. The position of Vice Provost for Continuing Education, Regional and Summer Programs will
not be filled at present.

REPORTS

President Olscamp stated that at each meeting in the future he would ask for a report on an academic program—a presentation to the Board about the work, research and teaching in the academic area concerned — starting with the fall meeting.
Dr. Stoner reported as follows:

Chairman Reams and Members of the Board:

I would like to begin my maiden report to the Board by congratulating President Olscamp on his first few weeks in office. In those few weeks he has established a reputation among the faculty for hard work, decisive action, and clear communication. He has suggested some agenda items for the Faculty Senate this year that will keep us busy, such as extensive revision of the Academic Charter, preparation of a financial exigency document, and participation in budget planning. I expect to be reporting to you on these items in future meetings of the Board.

I heard this morning for the first time of President Olscamp's suggestion to you that the faculty representative to the Board be invited to your evening working sessions before Board meetings. He is to be congratulated for that suggestion and I want to thank you for accepting it. This is a positive move, and I think you will find that we will more often come to a meeting of minds as a result.

Second, I would like to thank Chairman Reams and Mr. Ludwig for working with the local committee of administrators, faculty, students and staff that suggested the institution of an annual Ferrari award, which would recognize outstanding work by members of the contract staff. Since the mechanical details of making this award have not yet been worked out, I have taken the liberty of contacting representatives of the recently formed organization of contract staff to suggest that they draft some recommendations for you on the implementation of the Ferrari award.

Since you have taken action this morning on the educational budget, I would like to devote the rest of this report on comments on that budget. To some extent this will be an amplification of the President's remarks you have already heard.

President Olscamp met with the Faculty Senate Executive Committee several days ago and explained the rationale for the recommendations he has made on the educational budget. As members of the Faculty Senate, we were pleased to see that his recommendations included most of the recommendations of this year's report of the Faculty Welfare Committee. A copy of that Faculty Welfare Committee report is included in pages 7 through 19 of the budget material in your agenda folders. The Faculty Welfare Committee works very hard every year to produce reports like this, and I think this one is the first to receive such attention by central administration.

The faculty recommendations differed with the President's in only one respect. His recommendation, and the educational budget you have just adopted, includes a 7.2 percent incremental pool for faculty compensation. The Faculty Senate recommended a 9.4 percent increment pool instead.

This past week the news media carried a summary of a national report on the teaching profession in America (The Evening Sun, July 20, 1982.) The report showed that the teaching profession today attracts less than the price of a box of cornflakes or two cokes from the University Union.

Faculty Representative — Ronald E. Stoner

The 9.4 percent faculty salary increase in the educational budget you just passed will, at best, maintain the low AAUP ratings for BGSU in ten years. During the same ten years, average faculty buying power nationally, in constant dollars, has decreased over eighteen percent—three times faster than the average for competing white collar professions.

I am calling your attention to that report this morning just to emphasize that there is an ultimate connection between teacher compensation and the quality of teaching. In the long run, students at Bowling Green will get a good education only if the Bowling Green faculty compensation is competitive.

On page 16 of the educational budget materials prepared for you, you will find a table containing a ten-year history of AAUP ratings of BGSU faculty compensation. This table documents a five-year decline in BGSU faculty compensation, relative to universities of our type across the country. You will notice that the table does not contain AAUP ratings for 1981-82 because they were not yet published when that report was made, so I would like to complete the information in that table this morning.

You may remember that last year there was a 7.5 percent increase in faculty compensation at BGSU. The national average was nine percent (See Chronicle of Higher Education, July 7, 1982). As a result, our ratings by AAUP have fallen from three to four at the assistant professor level. Ratings at the other three academic ranks have remained at three, but the rating for the full professor rank is on the borderline between three and four. These are the lowest AAUP ratings for BGSU in ten years. During the same ten years, average faculty buying power nationally, in constant dollars, has decreased over eighteen percent—three times faster than the average for competing white collar professions (see Academe, August 1981, page 217).

The 7.2 percent faculty salary increase in the educational budget you just passed will, at best, maintain the low AAUP ratings for another year.

At the last meeting of the Board, I was pleased to hear Mr. Shamklin call Bowling Green "the greatest university in Ohio." These were inspiring words, and I also like to think we are a first-rate university. Still, if a university is only third- or fourth-rate in its compensation to faculty, it will soon be a third- or fourth-rate university.

The 9.4 percent increase recommended by the Faculty Senate would move these AAUP ratings of BGSU faculty compensation from the bottom of the three rating (60th percentile) to the bottom of the two rating (60th percentile). The difference of 2.2 percent corresponds to approximately one dollar per week—less than the price of a box of cornflakes or two cokes from the University Union.

Thank you for your attention.

(Both Undergraduate and Graduate Student Representatives were absent from the meeting.)
Flirelands College Board Representative - E. J. (Ned) Gerken

Mr. Gerken welcomed Dr. Olscamp and said he looked forward to having him visit the Flirelands Campus. He described the Flirelands enrollment as "up a little bit" and other activities as "progressing very well." The second phase of the plan to provide instructional television service to the Flirelands Campus is getting under way, Mr. Gerken said, and fund drive plans are developing to assist in the cost of extending the service through the main campus facility, WBGU.

ANNOUNCEMENTS

Chairman Reams stated that a special meeting is planned for August and that the Board Secretary will survey the members for a suitable date, either the day of the Summer Quarter Commencement, Saturday, August 21, or a date fairly close to that time. He called attention to the date for the next regular meeting - Friday, October 8, 1982.

FACILITIES COMMITTEE

At the request of the Facilities Committee, Mr. McGeein reported concerning plans for the improvement of the building known as "West Hall" (formerly occupied by the School of Music). He described the exterior appearance of the building and indicated by the use of charts how the building will look when renovations are completed. Further, he noted 1) that the total project cost is budgeted at $1,825,000 with funds for the renovations authorized under H. B. 552; 2) that the project has been reviewed and the plans have received approval through the regular administrative process and detailed drawings will be submitted for the first time to the State Architect on August 25; and 3) that no delay is anticipated in the approval of plans by the State Architect, the Ohio Board of Regents and the Industrial Relations Board. He said that work on the project is scheduled to begin in early March, 1983, and the tentative completion date presently is January, 1984.

Mr. Murray, Facilities Committee member, called the renovations "badly needed" for the programs in "mass communications" and expressed the hope that in the naming of the building the term "mass communications" would be considered.
