Mr. Gerken welcomed Dr. Olscamp and said he looked forward to having him visit the Firelands Campus. He described the Firelands enrollment as "up a little bit" and other activities as "progressing very well." The second phase of the plan to provide instructional television service to the Firelands Campus is getting under way, Mr. Gerken said, and fund drive plans are developing to assist in the cost of extending the service through the main campus facility, WBGU.

FACILITIES COMMITTEE

At the request of the Facilities Committee, Mr. McGeein reported concerning plans for the improvement of the building known as "West Hall" (formerly occupied by the School of Music). He described the exterior appearance of the building and indicated by the use of charts how the building will look when renovations are completed. Further, he noted 1) that the total project cost is budgeted at \$1,825,000 with funds for the renovations authorized under H. B. 552; 2) that the project has been reviewed and the plans have received approval through the regular administrative process and detailed drawings will be submitted for the first time to the State Architect on August 25; and 3) that no delay is anticipated in the approval of plans by the State Architect, the Ohio Board of Regents and the Industrial Relations Board. He said that work on the project is scheduled to begin in early March, 1983, and the tentative completion date presently is January, 1984.

Mr. Murray, Facilities Committee member, called the renovations "badly needed" for the programs in "mass communications" and expressed the hope that in the naming of the building the term "mass communications" would be considered.

Chairman Reams commended Mr. McGeein for an excellent report.
