Monitor Newsletter February 14, 1983

Bowling Green State University
Seven faculty members will be interviewed by campus representatives for the positions of assistant professor, assistant professor of interior design, and assistant professor of music. The interviews will be conducted during the week of February 3 and will be announced in the university newspaper. The interviews will be open to the public.

The faculty search committee for the upcoming academic year has been established and is currently in the process of identifying the candidates for the three open positions. The committee is composed of the vice president for academic affairs, the dean of the College of Arts and Sciences, and the dean of the College of Business Administration. The committee will be responsible for conducting the interviews and selecting the candidates for the positions.

Clinical Lab is model for other schools

Many students in the University of Colorado's College of Education are learning the ropes this summer in a variety of workshops.

Dr. Charles F. Dolan, associate professor of educational psychology, is one of the instructors of the workshops.

"This is a great opportunity for students to gain hands-on experience in the field," Dolan said.

The workshops are designed to give students a better understanding of the teaching profession and how it can benefit them in their future careers.

Dr. Dolan, who has been teaching at the university for 15 years, said he enjoys seeing his students grow as educators.

"I am always impressed by the dedication and commitment of our students," he said.

The workshops cover a wide range of topics, including classroom management, lesson planning, and assessment techniques.

"We want to prepare our students to be effective teachers," Dolan said.

This is the third year that the workshops have been offered, and they continue to attract a large number of participants.

Dr. Dolan said he hopes to continue offering the workshops in the future.

"I believe they are very valuable to our students," he said.

The workshops are open to all students, regardless of their major.

"Any student who is interested in teaching should consider taking the workshops," Dolan said.

Dr. Dolan encourages all interested students to sign up for the workshops as soon as possible.

"The workshops fill up quickly, so don't wait," he said.

Dr. Dolan can be reached at (555) 555-1234 or via email at cdolan@colorado.edu.

Lecture series focuses on applied philosophy

Four distinguished philosophers who are either teaching or working in the field of applied philosophy will lecture at the University of Colorado this fall.

The lectures are part of the University of Colorado's annual lecture series on applied philosophy.

The four lecturers are:

- Dr. John Searle, professor of philosophy at the University of California, Berkeley
- Dr. Susan Haack, professor of philosophy at the University of California, San Diego
- Dr. Harry Frankfurt, professor of philosophy at Princeton University
- Dr. Richard Rorty, professor of philosophy at the University of California, Berkeley

The lectures will be held on the University of Colorado's campus in Boulder, Colorado, and are free and open to the public.

The lectures will be held on the following dates:

- Dr. Searle: September 15
- Dr. Haack: October 20
- Dr. Frankfurt: November 3
- Dr. Rorty: December 1

For more information, please contact the University of Colorado's Department of Philosophy at (303) 725-1942 or via email at philosophy@colorado.edu.

Academic Council

A report presented by the Subcommittee on the Role and Functions of the Academic Council at the fall meeting will be discussed.

The report, chaired by Dr. Martha Heimann, presents recommendations for future action.

"I believe the Academic Council is an important body in the university's governance structure," said Dr. Heimann.

She noted that the council has been effective in addressing a wide range of issues, including budget cuts and faculty salaries.

"I hope the report will be widely read and that the recommendations will be carefully considered," she said.

The report is available on the University of Colorado's website at https://www.colorado.edu/academiccouncil.

Education for life

Aerobic dance is heart of Kissell's activity

Kissell, who is a 23-year-old student at the University of Colorado, has devoted her life to aerobic dance.

"I have been teaching aerobic dance for six years," she said.

She has founded a dance studio in Boulder, Colorado, and is the director of the Aerobic Dance Association.

Kissell said that aerobic dance is a great way to be active and keep fit.

"I believe it is a beneficial activity for people of all ages," she said.

Kissell is planning to open a new studio in Denver, Colorado, next year.

"I am excited to be able to reach a wider audience with my dance program," she said.

Kissell can be reached at (303) 555-1234 or via email at kissell@colorado.edu.

Faculty & Staff

Grants

Dr. Peter Grove, professor in the Department of Health and Physical Education, has been awarded a grant from the National Science Foundation to study the effects of aerobic exercise on mood and cognitive function.

"I believe this grant will allow me to continue my research on the benefits of aerobic exercise," said Dr. Grove.

He noted that previous research has shown that aerobic exercise can improve mood and cognitive function.

"I am excited to be able to continue my research in this area," he said.

The grant is available on the University of Colorado's website at https://www.colorado.edu/healthpe.

POEMS FROM THE FIRELANDS

A book of poems written by William Scherer has been published by the Fireland Press.

Presentations

The lecture will be held in the University of Colorado's Sciences Library and is free and open to the public.

Dr. Land can be reached at (303) 725-1942 or via email at elizabeth.land@colorado.edu.

Publications

Dr. Gerald Aronson, professor of philosophy, has published a paper in the "University of Colorado Journal of Ethics" on the topic of ethical theory.

The paper, titled "The Good Life," can be found on the University of Colorado's website at https://www.colorado.edu/journalofethics.

Dr. Aronson can be reached at (303) 725-1942 or via email at gerald.aronson@colorado.edu.

The Journal of Ethics is available on the University of Colorado's website at https://www.colorado.edu/journalofethics.

Future plans

Dr. William Kissell, assistant professor of philosophy, is planning to open a new studio in Denver, Colorado, next year.

"I am excited to be able to reach a wider audience with my dance program," she said.

Kissell can be reached at (303) 555-1234 or via email at kissell@colorado.edu.

For more information, please contact the University of Colorado's Department of Philosophy at (303) 725-1942 or via email at philosophy@colorado.edu.
Clinical Lab is model for other schools

Prospective teachers in the University's College of Education are being offered an unusual opportunity this semester, to observe the academic freedom and creativity associated with the faculty of a professional school. The Clinical Lab is the model for other schools.

The Clinical Lab is an academic laboratory in which students can observe and participate in the teaching and learning process. The Lab is directed by Dr. Charles Field, a professor in the Department of Education.

The Lab is open to all students majoring in education, and it is designed to provide an opportunity for students to learn about the teaching profession firsthand. The Lab is located in the College of Education building.

The Lab is currently open to students majoring in education, and it is designed to provide an opportunity for students to learn about the teaching profession firsthand. The Lab is located in the College of Education building.

Dr. Field said that the Lab is an example of how education can be a dynamic and engaging profession. "Education is a field that requires constant innovation and creativity," he said. "The Lab is an example of how we can use technology and other tools to improve the teaching and learning experience for students."

Field also said that the Lab is an opportunity for students to learn about the teaching profession firsthand. "The Lab is an excellent place for students to learn about the teaching profession firsthand," he said. "It is an excellent opportunity for students to learn about the teaching profession firsthand."

Education for life

Aerobic dance is heart of Kisseleff's act

She says she was influenced by a book called "Aerobic Dance" by Zola Katzner, which she read in college. "I discovered aerobics in college," she said. "It was a great way to stay in shape and have fun at the same time."

Kisseleff said that she began doing aerobics at home and then started teaching classes at a local gym. "I started teaching classes at a local gym," she said. "I found that I really enjoyed teaching and helping others improve their health."

She then went on to become a fitness instructor and eventually opened her own gym, which is now called "Kisseleff's Aerobics." She has since written several books on aerobics and has appeared on television shows and in magazines around the world.

Kisseleff says that her goal is to help others improve their health and fitness. "I want to help people improve their health and fitness," she said. "I want to help others feel good about themselves and be healthy."
Wednesday, Feb. 16

University system will be displayed from 9:30-11 a.m., in the basement, behind the heating plant. Anyone interested is invited to attend for a department or office as well.
