Campus community invited to meet VP candidates

Three candidates for the vice presidency for academic affairs will be on campus during the next two weeks to meet with the University community, the Council of Chairs, deans, vice presidents for planning and budgeting, President Olscamp and members of the search and screening committee.

Dr. Arthur C. Gentile, a botanist whose administrative appointments have included dean of the Graduate College, vice president for academic affairs at the University of Nevada, and executive director of the University of Miami's School of Biological Sciences, will be on campus Tuesday and Wednesday (April 5 and 6). He will meet with the University community in a general session from 9-10 a.m. on Wednesday (April 6) in the Great Ballroom.

Union celebration brings back the past

Twenty-five years ago, on April 11, 1958, Gay Lombardo and his Royal Canadians will perform from 11 a.m. to 1 p.m. in the Falcon's Nest.

On Monday (April 11) with a reenactment of the ribbon-cutting ceremony at 2 p.m. in the Grand Ballroom. A reception for past and present members of the University Activities Organization will be held at noon Saturday (April 16) in the Grand Ballroom.

Kobacker Hall of the Moore Musical Arts Center.

Dr. John B. Gruber, a chemist and physicist who has taught at UCLA, Washington State University and North Dakota State University, as well as in Germany for one year, will be on campus April 11 and 12, and meeting with the University community in a general session from 9-10 a.m. on Tuesday, April 12, in the Grand Ballroom of the University Union.

His administrative appointments include: associate dean of the Graduate School and director of research; executive director of the University of Miami's School of Biological Sciences; and vice president for academic affairs at Portland State University.

Dr. Eloise E. Clark, a biologist who has taught at the Marine Biological Laboratory at Woods Hole, the University of North Carolina at Greensboro and the University of Kansas, and who has held various ranks in the National Science Foundation, will be on campus April 13 and 14. She is scheduled to meet the University community from 11 a.m. to noon on Thursday, April 14, in the Main Auditorium of the University Union.

The entire University community is encouraged to attend the open sessions and to forward comments on the candidates to President Olscamp following those meetings.

Announcement of the appointment of a new vice president for academic affairs is expected to be made at the meeting of the Board of Trustees.

Grant funds ‘clean campus’ campaign

R. It costs the University about $35,000 a day to keep the campus clean, but a $200,000 grant which was received from the Ohio Department of Natural Resources’ Office of Litter Control may help to curb those expenses.

With the $20,000, obtained by the University through a joint proposal with the city of Bowling Green, a show to be presented next month will educate the campus community about the benefits of a litter-free environment and heighten awareness of the costs associated with “picking up everybody’s trash.”

Justine Magsig, environmental studies, is coordinating the education and awareness project on campus, which is also aimed at curbing the dollar drain involved in picking up trash.

“The idea of University involvement is particularly appealing to the city and state, he added, because bringing Ohio’s litter problems into focus is viewed basically as a consumer education process, and the University is an ideal setting for that kind of education.

“We see our efforts to bring litter under control on the campus as part of a step toward educating the University community, particularly the students, to be more conscious of how they dispose of their trash. It’s a kind of life-long education that students should take with them when they graduate,” Magsig said.

The education process will involve a number of projects, most of which will not get underway until the start of the next academic year. Among the activities planned are poster displays, a media campaign which will utilize newspapers, radio and television, and a slide show to be presented next year in the residence halls urging students’ cooperation in achieving a litter-free campus and emphasizing the dollar drain involved in picking up trash.

In addition to funding the education and awareness project, the grant will enable the University to purchase several new trash containers, more durable than those currently scattered around the campus, Parratt said.

Both Magsig and Parratt emphasized the continued need for public input from faculty and staff as the anti-litter campaign gets more fully underway. Anyone with ideas should contact them at 372-0027 or 372-2171.
Family heritage is topic of grant-funded workshop

A $1,000 grant from the Ohio Humanities Council will provide funds to develop a teaching program on how family heritage is maintained and passed down from one generation to the next, according to laat presenters. The project was partially funded by the Ohio Humanities Council and will be used to develop a teaching program in which family heritage will be incorporated into the curriculum. The project will also include lectures, panel discussions, and other activities to help students understand the importance of family heritage.
