Theater season to open with prize-winning play

The spotlight will be on the 1970 Pulitzer Prize winner for Drama as the curtain rises Oct. 8 at the Main Auditorium on the Third Year University Theatre season.

Dr. Joe E. Brown, who directed the training of a whole generation of top actors at the conservatory school, will direct "The Odd Couple" Oct. 8-10 and Oct. 15-17.

Auditions will be for the junior, sophomore and freshman shows. The first show auditions are scheduled for a 75-minute session of 6-8 p.m. for both cast and crew. The second show auditions will be held on Oct. 21-23. The third show auditions will be on Oct. 26-28.

The University's award-winning Theatre Workshop will feature "Ponciana" and "The Blue Horse" in its annual children's theater production.

Tapes to pick up at the Joe E. Brown Theatre, located on the University Union, will not be available to be rented.

Deadline: Sept. 14

Employment Opportunities

Classified Employment Opportunities

Deadline: Sept. 14

Free Exhibit

"Seven Chances," the new film series, continues last week's "Food Service Worker." Featuring three homemade soups and more than 60 sandwiches, the exhibit will be open every Tuesday, Thursday and Friday.

Deadline: Sept. 7

Computer Science Applications

The computer services APPLE lab at the Administration Building has been upgraded with three new Apple IIe machines, which are available for administrative and faculty use.

Deadline: Sept. 7

Long-Term Care

The Ohio Board of Health has awarded a four-year state grant to the University for the development of an outstanding geriatric health care program.

Deadline: Sept. 8

Improvement leave

Deadline is Dec. 1

Tunred faculty who have taught at least five semesters are eligible for improvement leave. New employees are not eligible for improvement leave. New employees are eligible for leave to be taken during the 1984-85 term. Faculty who have taught at least five semesters are eligible for improvement leave. New employees are not eligible for leave to be taken during the 1984-85 term.

Faculty who wish to consult the guidelines for submitting leave applications should contact the Personnel Office or the faculty member's department chairperson.

Deadline: Sept. 16

University Union

To celebrate the University Union's 20th anniversary, University Union held a contest to select the winning design for a new logo.

Deadline: Sept. 16

Food Service Worker

Deadline: Sept. 16

Deadline: Sept. 16

Maintenance and Repair Staff

Deadline: Sept. 16

Mental Health Services

Deadline: Sept. 16

Paraeducator

Deadline: Sept. 16

Safeguarded Positions

For the Student: "Auditorium" in 1983-84.

Twenty years ago the University purchased its first computer 20 years ago. Only those, only today. The University was one of the earliest to develop a computer system, and those computers have since been linked to the university's online services.

Even with many advancements in computer technology, Dr. Conrad noted that the University is still one of the leading universities in the world.

Dr. Conrad said that the University is one of the few universities in the United States that still uses the IBM 360/40 computer system. The University also uses the IBM 370/158 and the IBM 370/168 computer systems.

The computer was short-lived, replaced by IBM's Model 20 in 1967. The Model 75, which replaced the Model 20, was capable of doing 15 jobs at a time, 15 million bits of memory and occupied the third floor of the Administration Building.

Dr. Conrad also noted that the University is one of the few universities in the United States that still uses the IBM 370/158 computer system.

The IBM 370/158 was installed in 1964 and is capable of doing 15 jobs at a time, 15 million bits of memory and occupied the third floor of the Administration Building.

Jerome for Vogt to strive for improved morale

Vogt to strive for improved morale

Karl Vogt has spent the last 16 months in the postpresidential area, working on an on-campus career services program which aims to achieve standards of excellence in career development. For 14 of those years he was responsible for the College of Business Administration, a division of the University. Vogt received his 1680-standardized test score, he guided the entire campus, helping to improve students in faculty development - planned giving at the Ohio University's development office. The computers have enabled him to enter data into the Ohio University's database and to become familiar with the subject matter.

This year Dr. Vogt has taken his new position and is dedicated to the University. On Aug. 1 he became the new director of the area and is responsible for the area. The computers have also enabled him to enter data into the Ohio University's database and to become familiar with the subject matter.

Vogt leaves academic with a great deal of success, but he also knows that there are still many challenges ahead. "The new postpresidential area will be a difficult era for the University," he said. When asked what kind of position this career area will have in the future of the University, Vogt said that they plan to use the new position for graduate personal growth and professional development. Vogt said that he wants to make sure that students and faculty members are as well-prepared for academic life as possible. The new position will allow them to be more knowledgeable in the area of research and be more active in the area of graduate studies.

"I think the time is right to get faculty more involved in the University," Vogt said. "The new position will allow them to be more knowledgeable in the area of research and be more active in the area of graduate studies. It will also be an opportunity to increase opportunities for graduate students and for others." Vogt said that the new position will also allow them to be more knowledgeable in the area of research and be more active in the area of graduate studies.

Larry J. Vogt, humanities.

Fogel argues development post

John H. Fogel, formerly a director of the University of Michigan, has assumed the postpresidential area of the University. The University is planning to develop a total giving and planned giving program that will include advising and encouraging development.

At Bowling Green he will be responsible for all aspects of planned giving and will provide encyclopedias and gifts to the University through his development work. In addition, Fogel said, he will also be responsible for all aspects of planned giving and will provide encyclopedias and gifts to the University through his development work. In addition, Fogel said, he will also be responsible for all aspects of planned giving and will provide encyclopedias and gifts to the University through his development work.
Jerome for volunteer help for library redemption

Last December the Board of Trustees of the University granted the Library a new challenge, a new opportunity. The challenge requires us to become more efficient and effective as we move into the 1980s. The opportunity is an exciting one that will give us the chance to serve our students and faculty more effectively.

This year, the Library is planning to expand its collection by adding new books and other materials. The number of books that the Library needs to purchase each year is approximately 1,200 titles. To meet this goal, we are asking for your help.

We are asking for volunteer help to assist in the redemption of your old textbooks. Last year, the Library redeemed the textbooks of 250 students, resulting in a savings of $5,000. This year, we hope to redeem the textbooks of 500 students, which will result in a savings of $10,000.

The process of redeeming textbooks is simple. First, you will need to bring your old textbooks to the Library, where they will be appraised. The Library will then issue you a receipt for the books that you have redeemed. This receipt can be used as a credit towards the purchase of new textbooks.

We are also asking for your help in collecting donations of non-textbook materials. The Library is in need of donations of non-textbook materials, such as journals, magazines, and other materials that are not textbooks. These donations will be used to help support the Library's operations.

A full day of activities, all of which will be held in the Library, is planned for Friday, Feb. 22, to celebrate the naming of the building in honor of President Jerrold W. Grossman. The day will include an opening ceremony, a reception, and a tour of the new building.

The highlight of the day will be a 3 p.m. dedication service. The dedication will be held on the Terrace, which is the site of the building.

Library staff and students will be available to answer any questions you may have about the Library or its operations. The Library will be open during regular hours on Friday, and will be closed on Saturday and Sunday.

For more information, please contact the Library at 319-541-6340.
Students come first for award winners

The six faculty chosen by students as recipients of the Undergraduate Student Senate's Faculty Excellence Award for academic excellence and dedication to student education are: Arlene Newell, Bagnoli, psychology; Richard Franke, marketing; Robert Goodwin, philosophy; William Holmes, recreation administration; and Campbell, home economics, and William Blackwell, education administration. Each recipient received a $100 award from the College of Education.

Steve Linn says she strives, she says, to make her students feel comfortable in the classroom because they need to know they are wanted. "I think that's what it means to be a teacher," she said.

"They're hard to handle because they don't make me feel good, and it won't make my students feel very good either," said Torrey Williams, who teaches English at the University of Iowa.

"We need to find ways to maintain that atmosphere that makes them want to learn and take these blank faces," said Torrey. "If we don't find the way to make them feel good, they won't be the best for what they need to do with the rest of their lives," he said.

"We try to make the classroom as comfortable as possible, and they're hard to handle because they don't make me feel good, and it won't make my students feel very good either," said Torrey Williams, who teaches English at the University of Iowa.
