Campus May Become Site For German Prison Camp

"There is a definite possibility that the Bowling Green campus may become a temporary camp for German war prisoners," Dr. Prout announced today.

If so, they would be housed near the pond on the east end of the campus. According to a news release from Camp Perry, Bowling Green will be a site for one of the side camps. The camp will accommodate about 500 prisoners, but facilities for only 300 have been completed. The war department is considering the construction of a barracks to house 600 prisoners.

German Future

Topi For Aug. Speech Events

The Extension-Discussion Conferences for this year will begin in August with competition on the topic "What Should Be Done with Germany after the War?" All students holding active membership for this term are eligible to participate.

These contests, of a type introduced last year by Dr. Wayne N. Thompson of the speech department, consist of pan- demic reading, impromptu speeches and a definition information on the topic and some foundation for their ideas. Each preliminary panel will be thirty minutes in length.

The final contest, which will be open to the public, is scheduled for August 10. The contestants on this occasion are those who participate most successfully in the preliminaries.

The winner of first place in the final contest will receive $50.50 in war savings stamps plus points toward the sweepstakes award to be given later in the year. The August contest is the first in a series of four.

The extemporaneous discussion series last year proved to be popular with students, faculty, and townpeople. Clinics have been en- gaged in seventy-five-fifty participants. Clinics over four hundred people attended the clinic series. Seaman Dick Gin, head of the clinic, was taking first in all four. Mertit Collins, a sophomore, finished in the second. All three men are now on the varsity.

Students wishing to enter should see Dr. Thompson, Director of Forensics, in the speech office, 104A, at once. Entries close at noon, Monday, July 31.

Thompson Writes Book Section

Dr. Wayne N. Thompson, associate professor of English, will be the author of the section of the Debate Handbook that deals with the proposition for debate which is to be used in high schools throughout the nation next year. The announcement was made by Frank J. Prout, Dean of the College of Liberal Arts, and 23 in the College of Business Administration. There are 14 graduate students.

There is a large number of campus residents attending this summer. Of these, 32 are in the College of Education (12 in elementary education), 24 in the College of Business Administration. He also spoke highly of the co- op program which was started this year, according to Mr. Aly. He said the idea was well received by the faculty.

CIVILIAN SUMMER ENROLLMENT 407

The final count of civilian sum- mer enrollment in the summer session at Bowling Green State University reached 510 enrolled in the College of Educa- tion (209 in education education), 81 in the College of Business Administration, and 32 in the College of Liberal Arts. There are 14 graduate students.

No New Cases Of Polio Reported

No new cases of infantile paralysis have occurred on the campus this week and no one is under observation, it was announced today. Illnesses of two V-12 students have been diagnosed last week as infantile paralysis.

Richard C. Miller, marine, is in critical condition in St. Joseph's Hospital. The condition was found to be infantile paralysis. He was taken following diagnosis here. His condition was slightly improved yesterday.

A. F. Thomas McDonald is reported as doing well at the University hospital, 116 South Main Street. He was last reported doing well at the hospital. He was taken following diagnosis here. His condition was slightly improved yesterday.

B. G. To Get New Science Building; Also Heating And Electric Plant

On July 11, it was announced that Bowling Green State University will be a part in the plans made by the State Postwar Planning Commission of Ohio. The plans call for $24,792,000 to be spent for additional educational facilities in the six state institutions, and to be allotted as follows: $23,381,000 to Bowling Green; $491,000 to Kent State; $1,178,000 to Miami University; $12,664,000 to Ohio State; $2,835,000 to Ohio Uni- versity and $298,000 to Wilberforce.

The major improvements included in this plan for Bowling Green State University are a $1,000,000 heating and electric plant and a new $750,000 science building.

Also on the building program of the University there is a plan for new cottage type dormitories. In 1941 the enrollment was 1600 and the existing housing facilities on both the campus and the limit, to it has been expanded to 2000. The number of extra will be between 200 and 300, in addition to the existing 320. The new living quarters will be constructed in the coming months.

To meet this problem, five cottages, each housing 42 men, are to be built in a group east of Kohl Hall, one of them assigned to each fraternity. The plans are done and are ready to be adver- tised. The work on the building will be done and will be completed as the WPF releases the necessary con- struction materials.

When construction is permitted, the University also plans to build four new dormitories on the campus, for the men of the "V-5" program. The plans for one of these dormitories, called the "Kohl Row" will be used, except that the rooms will be a dormitory rather than a single or double room. These cottages will face north on Ridge St. near the pres- ent cottages and will house about 250 men.
Good Luck Dr. Kaiz

This week we have to say farewell to one of the almost indispensable officers here in the unit, but we hope the Navy has a good and long-lasting place in store for an indispensable man elsewhere. Dr. Seymour Kaiz is the man, the one who protected what we all take for granted, our health.

Lt. Kaiz arrived with the start of the unit here a year ago. In one year he has become a popular figure on the campus. A Navy doctor must be something of a psychologist to spot the gold bricks from the duds. In one year he has become a popular fix-all around the campus. A Navy doctor must be some-thing of a psychologist to spot the gold bricks from the duds.

Dr. Kaiz incorporated all these qualifications as a doctor, an officer, and a gentleman. His assignment here was all too short, and we wish him good luck on his new duty. We salute Lt. Kaiz of the Medical Corps.

RETURNS TO JOIN WAC'S

After serving 15 months with the Canadian Woman's Army Corp, Pvt. Ruth Bactrumeer, 24, was granted a release from that organization, to join the WAC's in her own country. She is now in training with several hundred other students. Around the field she is known by his real name, Pfc. Sarah Dast-tager.

MISSING IN ACTION

2nd Lieut. John C. Baker, 24, of the Army Air Corps, is missing in action in the Mediterranean area.

WOUNDED IN ACTION

Pvt. Louis E. Wood, 24, was seriously wounded in action in Italy and is expected to return to this country. His wife, the former Mary Crabill, 20, is in the Hospital and is going out to school in the fall. They have two children.

Lt. Arne Klingmas, 24, was stationed in England when he was wounded and is now back in this country at the Veterans Administration Hospital at Battle Creek, Mich.

PRISONER OF WAR

Pvt. John P. Crandell, 24, reported as missing in last week's column has now been reported as a prisoner in Germany.
University Opens Doors To Wounded Veterans

By January M. Kohler

"Bowling Green State University is recognized as the first conventional educational institution in Ohio to admit war veterans under the Vocational Rehabilitation Program," stated Dean K. E. McFall, vertical rehabilitation director. Under the Vocational Rehabilitation Division of the Veterans Administration, a program has been established which places qualified war veterans in training schools or colleges. In order to be entitled to this vocational rehabilitation the veteran must meet the following requirements:

1. He must have been in the active military or naval service after December 6, 1941 and prior to the termination of the present war.
2. He must have been honorably discharged from such service.
3. He must have a disability incurred in or aggravated by such service (after December 6, 1941) for which pension is payable under laws administered by the Veterans Administration or would be but for the receipt of retirement pay.
4. He must be in need of vocational rehabilitation to overcome the handicap of such disability.

The service available in this work includes guidance as to type of training to be given, placement and supervision during training, and placement after training. The cost of tuition and use of necessary books, supplies and equipment is paid for the trainee by the government. According to McFall, the following procedure is followed in placing an injured war veteran in civilian life again:

1. The veteran must be rehabilitated, a vocational test must be taken before any attempt to re-establish him begins.
2. He is given a vocational test upon entrance to determine eligibility for this work.
3. He is advised as to the proper choice of work for him.
4. Entrance is made in a college of his choice which has a contract with the government in training these personnel.

Since this plan has been put into effect, an estimated three-fourths of colleges have veterans enrolled. Bee Gee has two on campus at the present time, and three more veterans will soon arrive here. Three courses have been set up for this plan.

The first man to enter Bee Gee from World War II was Burk Sickmiller, of Napoleon, Ohio. Drafted into the Army on January 29, 1941, he was sent to Camp Shelby in the 51st Infantry. Transferred to Indian Town Gap, Pa., he was stationed there several months when he twisted his knee while running over rough ground. May 10 they sent him to San Francisco, where he was hospitalized for two months. Sickmiller was honorably discharged from the service in March after a half month later.

While Bee Gee, Ohio, one of the centers of veteran administration, a suggestion was made to Sickmiller that he be interviewed for college work. Taking advantage of the offer, Sickmiller qualified for Business Accounting at Bee Gee.

When asked how he liked the idea of rehabilitation, Sickmiller answered, "I'm happy. The plan is very good. This school has cooperated wholeheartedly."

The other veteran at Bee Gee under the government program is Jack Anastasio, of Toledo. He enlisted into the Navy the day after Pearl Harbor, and took his boot training at Great Lakes. He was shipped from there to North, Va., where he was sent aboard the U.S.S. Laosen, which was an ammunition supply ship. During his time aboard he visited the ports of Panama, Seattle, Australia, New Zealand, New Caledonia, Fiji Islands, Samoa, Honolulu, Tonga Islands, and Midway. At the last port his ship was bombarded. During the bombarding he was injured in the leg by bomb fragments.

When asked about the bombarding, Bloom said, "You're too busy while the bombs are falling to worry, but when it's over—then it's worry, but when it's over—then it's worry, but when it's over—then it's worry, but when it's over—then it's...

NEW NAVINE BAND PLAYS FOR DANCE FRIDAY NIGHT

A new Navine band has been organized here at the University and will make its public debut at the Semi-formal dance Friday night. A/N Bill Story is the leader of the new band.

The new organization will fill a much needed place at the University, according to general opinion, for after the disbanding of the old Navines there has been a dearth of dances with orchestras.

The new Navines have 13 members, five of whom are holdovers from the old band. Nine of the bandmen are Navy and the other four Marines.

The lead man of the sax section is Bob Bolh, new Navy man from Toledo, who doubles on the alto sax and clarinet. Next in line is Jack DeJure, Cleveland Marine and veteran of the old band, the tenor sax and clarinet. Bob Bull, from Morrison, Ill., a new Navy man on the alto sax and clarinet. Bob Schmidt, sailor from Dayton plays the other tenor sax.

The trumpet section has Bernie Hokestra, Marine from Grand Rapids, Mich., veteran of the old Navines. Two newcomers, John Main, Navy man from Casey, Ill., became a special attraction, and he enlisted as a private. Since that time he has been stationed at Quantico, Va., New River, N.C., San Diego, Calif., Boston Navy Yard, in the Pacific, and now in Bowling Green where he has been since June 1943.

Intramural Sports Slated in Classes

There are no intramural sports for women scheduled for the summer term. All participation will be in the various recreational classes in which anyone is welcome.

Miss Gertrude Eggler and Miss Emilie Hartman, of the women's physical education department, are keeping busy instructing in swimming, tennis, badminton, softball, and all forms of the dance.

There are badminton classes at 10 a.m. and 2 p.m. each day, and tennis instruction is given each Monday and Wednesday at the same time.

Swimming facilities are available for women only on Tuesday and Thursday at 10 a.m. and 2 p.m., but recreational swimming is offered each night during the week from 7 to 8.

There is one archery class each day through Thursday at 3 p.m. equipment may be checked out daily from 10 to 12 a.m. and 2 to 5 p.m.

Semi-Formal “Moonlight Walk” Sponsored by PiKA Friday at 8:30

Hilda Yen, former delegate from China to the League of Nations, in an assembly speech Monday morning, characterized modern warfare as “mass murder.” She emphasized that “although the people did not want war, it is a people’s war, and it will have to be a people’s peace.” “We must stay united in the peace,” she stressed.

“A Chinese Proposal for World Government,” by her theme, was based upon her experience as a delegate to the League of Nations. The plan she proposes is not a loose confederation such as we had under the “Articles of Confederation” but a federal system as was established by the ratification of the Constitution.

“As a world community, we have anarchy instead of government; and anarchy leads to war,” she asserted. “The continued occurrence of war proves that the anarchy instead of government, makes our action to enforce super-national law, to be abandoned. It is merely lip service to collective security.”

A world police force is needed to enforce super-national law, which the plan provides, Miss Yen b e l i e v e s . L i n c o l n insisted he was punishing individuals, not challenging States. The increasing industrialization of Soviet Russia makes our action imperative.

The increasing industrialization of Soviet Russia makes our action imperative.

In South Pacific

Tony Frances

Lt. Anthony A. (Tony) Frances, ‘41, former editor of The Bee Gee News, has gone through some of the hardest campaigns of the South Pacific, and recently acquired a prized war relic—a Samurai sword.

Frances has been awarded the decoration of the Order of the Rising Sun Mini. The new honor was bestowed upon the former pledge of Delta Phi Epsilon; Eta Xi Chapter by the Chamorro of the Philippine Islands.

Frances was a member of the Delta Phi Epsilon chapter at Pacific University, and is the son of Mr. and Mrs. W. W. E. Frances, Jr., of San Francisco.

Sorority Row

Several of our sororities are devoting their summer business to summer rush activities.

Alpha Chi Omega has decided to have its summer rush party August 28, with the theme of “Pirates of the Caribbean.” Alpha Delta Phi’s summer rush party will be August 15 and Delta Gamma Gamma will have its rush party July 28. Alpha Xi Delta has set its date for August 5.

After three years of wear and tear, the house ladies are redecorating Alpha Phi. Alpha Phi has having their furniture reupholstered while Alpha Xi Delta and Delta Gamma feel that their rooms are in pretty bad shape and need the decorator’s touch.

A small group held last Wednesday evening for the prospective pledges. These are the brothers and pledges. Elmer Parquette, who was known Dave Kroft’s pin, was given the traditional fraternity collection and were sung by the brothers and pledges. Elmer Parquette, who was known Dave Kroft’s pin, was given the traditional fraternity collection.

Inter-fraternity Meeting

Tomorrow evening an Inter-fraternity council meeting will be held in Dean Conklin’s office. Last Thursday evening, Richard Morrell, president of Beta Gamma, was elected president of the group. The president will be rotated among the presidents of the fraternities with Pi Kappa Alpha, ATO and ATO following Beta Gamma in that order.

“Dear Jim . . .”

Treat him to an attractive letter!

13 Year Old Violinist To Appear Sunday

In Campus Musical

Miss Mary Kato, well-known 13-

year-old violinist from Tokio, highlights the musical calendar this weekend. She will play Sunday at an eight o’clock musical sponsored by Fred. M. C. McEwen and his music appreciation class.

Weather permitting, the audience is invited to watch the Ad Building steps as they hear Miss Kato, and as they join in group singing.

The young violinist, a pupil of Gerald McLaughlin, was recently invited to play before a meeting of the Ohio Music Teachers Association.
