Tobin Talks on Turkey
Friday A. M.

"Turkey Talks Turkey", is the title of a timely lecture to be given by Chester M. Tobin at the assembly on Friday, August 11, at 11 a.m. Morning classes will be on a shortened schedule.

Tobin, though still a young man, has had long experience with Turkish affairs. He has spent over 12 years in the Near and Far East. He coached the first Turkish athletes ever to compete in the Olympic games, taking them to Paris to participate in the 1924 Olympics.

He persevered in the study of the Turkish language until he was able to read, write, and speak it when it was still written in Arabic letters. He has translated the English texts for translation into Turkish of the first books on American sports.

Mr. Tobin has just completed a book on Turkey, entitled "Turk—Key To The East", which has been published by Putnam's Sons of New York.

Dr. and Mrs. Hissong To Attend Annual School for Executives

Clyde Hissong, Dean of the College of Education, and his wife will attend the second annual School for Executives of the American Association of Teachers Colleges, Dr. Prout announced today.

The school will be held at Jackson Mills, West Va., and will meet from August 25 to 26 inclusive.

"We are glad that we can have a representative at this national school whose members include some high executives and educators in the country," Dr. Prout said. There are only eight other colleges in Ohio who have accredited membership in the association.

The registration for the school now includes 137 college presidents, 215 deans and other state department officials.

The program includes various classes during the day dealing with administrative and organization plans. In addition there are classes with problems in enlarging curricula and concerning community relations.

There are also meetings scheduled for the evenings in which problems of war and post war education will be discussed. Of special interest here is the discussion of the credit that the military personnel will be able to transfer to other colleges after the war. Other problems involving the post war expansion of buildings and social support will be dealt with.

Let's Get Up

There has been a lot of criticism voiced recently about the use of the barracks and the more students about the uncalled for noise in the classrooms.

This is a University not a high school, a fact too often overlooked by the students. The students are now somewhat handicapped because of the lack of orientation which is usually given freshmen by the upperclassmen in the traditions and atmosphere of college life. But with a little sensible control we can give our classrooms the atmosphere that a college classroom deserves.

SELECTIVE SERVICE FACTS

Selective Service Director, Maj. Gen. Lewis B. Hershey, in a recent address pointed out that we have rejected more men in this war than we accepted in the last war. He made a point of the importance of conditioning and training youth for the future good of the country and for the defense of it in any future conflict.

In citing figures for the draft he said that almost 16 million men have been invalidated in the last 39 months—an average of more than 396,000 each month. About 1,000 men per hour, 10 hours per day, 30 days per month, since Pearl Harbor. And this does not include the millions whom the local boards have registered and classified and have been rejected for service.

"We thought World War I a fair-sized struggle," said a Bee Gee coed. "We thought World War II a good sized struggle," said Senior Ethel Dyer, 1941 May Queen. "And this is a University not a high school, a fact we are all aware of it yesterday.

Falcons Keep In Stride
Bringing Fourth Victory

With excellent pitching by right-hander Al DiMarco and left-hander Bill Hoffeld, the Falcon baseball team chalked up its third win of the season, this time a 9-3 victory over the Red Hawks. Al DiMarco was called on to pitch against Zedlitz, but he held the visitors to a single hit, the only run of the game. The final score was 9-3. Leo Kubiak led the Falcons with three hits, including a home run, and four runs batted in. The Red Hawks scored two runs in the first inning, but DiMarco struck out nine men, both his rival Snyder, and added another in the seventh. The Falcons scored one lone tally in the sixth. Two lusty triples by Bloomfield and Jeremiah were the runnings of the Red Hawks.

The Bee Gee Boys beat out nine hits for nine runs and won their fourth game of the season by virtue of a 9-3 win over the Red Hawks. The game was called at the end of the eighth because of darkness.

Miss Will's Visits Here

Before Going To Chicago

Miss Grace B. Will's, former head of the art department, is staying at her former home in Bowling Green prior to her departure for Chicago. Her resignation was announced last week.

Miss Will came to Bowling Green in September, 1930, from Muncie, Ind., where she taught at the Ball State Teacher's College. She holds a Bachelor of Arts degree from the Art Institute of Chicago, and a M. degree from the University of Chicago. While here Miss Will's was responsible for expansion of the art department and originated courses which gained the approval of the State Board for students to minor in art. She also helped to organize a four-year course in elementary education.

She was a member of the University advisory council, the American Association of University Women, the American Association of University Professors, the Faculty Women's Club, and was active on the University social committee for a number of years.

Miss Will's joined the Las Amigas sorority as a faculty adviser a year after her organization in 1929. When the sorority became affiliated with the Alpha Chi Omega sorority this spring she was initiated at the time of the installation.

Because of recent deaths in her family, Miss Will's wishes to return to her home in Chicago, where she will reside with a cousin. Her plans for the future are not definite, although she may enter business.
