Women's Physical Education Department

Largest in University History

Outside of the Agriculture College, the Women's Physical Education Department is the largest in University history. As students in the newest department on campus continue to flock to the facilities, the department is growing at a rapid pace. This growth has been attributed to the increased enrollment of women in higher education departments in the state. There are over one hundred majors in the Physical Education Department. As freshmen, they are taught by Harriet Sun while seniors are under the guidance of Miss Shaw and Miss Shoemaker. "The department is planning to keep increasing enrollment of women students," maintains Miss Shaw.
