Bowling Green State University

March 12, 1984

Five programs finalists in award competition

Five of the seven proposals submitted by the University for funding under the state's Program Excellence awards have survived initial review and are among the finalists in the program competition.

Those proposals now being reviewed include accounting, chemistry, creative writing, elementary teacher education and psychology.

Program Excellence was established by the state legislature in its 1983-85 budget bill to recognize and reward high quality undergraduate academic programs at state-assisted educational institutions. Grant recipients will be announced by the Ohio Board of Regents sometime around May 14.

President Olscamp updated the Board of Trustees on Program Excellence and on the Ohio Eminent Scholar Program at the board's March 2 meeting. He told the trustees that the biological sciences department was visited March 1 by a team of reviewers for the Eminent Scholar Program. The University has requested funds from that program, also funded by the legislature, to bring a plant biotechnologist to campus next year.

Dr. Olscamp also reported to the trustees on undergraduate admissions, noting that the University expects a fall freshman class of 3,200 and that applications are no longer being accepted, as of March 1. He said minimum standards for admission were raised for next fall's freshman class by increasing the minimum grade point average from 2.5 to 2.7 and the minimum ACT composite score from 20 to 21.

Official spring semester enrollments also were announced. Dr. Olscamp reported that for the spring semester there are 15,834 students on the main campus, 1,140 at Firelands and 491 in extension and study abroad programs. The total University headcount enrollment is 17,465, 293 more than last spring semester. The full-time equivalent count is 15,484, 206 more than spring semester 1983.

Faculty Senate action on a proposed retirement incentive program also was noted by Dr. Olscamp, who said a thorough study of the costs and benefits of the proposal has been undertaken and should be completed by the end of this month. A report and recommendations on the proposal will be shared with the trustees at their April meeting, he said.

Dr. Olscamp also highlighted for the trustees a part of his address on

Maya Angelou on campus March 12

"An Evening with Maya Angelou" has been scheduled on campus at 8 p.m. Monday (March 12) in Kobacker Hall of the Moore Musical Arts Center.

Angelou, who has made more than 100 television appearances on local and network talk shows, including "The Tonight Show," "Merv Griffin" and "The Today Show," is among the nation's most popular lecturers because of her ability to speak with authority—and in six languages—on countless subjects.

the role of research and graduate education in the University's mission. "The purpose of the address was to outline my proposed steps for increasing the number of graduate students and graduate faculty, enhancing the research activities at the University and increasing the number of grants and contracts," he said. Copies of the address will be mailed to all faculty and also will be available in the president's office.

It was announced that the Alumni Association has committed \$25,000 in matching grants to encourage alumni chapters throughout the country to initiate endowed scholarships in the local chapter's name and that the senior class has set a goal of \$48,000 for its annual Senior Challenge program.

Dr. Olscamp also announced his plans to visit the University's academic programs in Europe during March and reported that Richard Eakin, vice president for planning and budgeting, would be acting president in his absence.

The University's computing capabilities have been greatly increased thanks to the donation of a \$37,000 PDT 1124 minicomputer from the Digital Equipment Corporation. Above, Tim Rafferty (right), a representative from DEC, demonstrates for Richard Conrad, computer services, and Richard Eakin (left), vice president for planning and budgeting, the operation of a companion computer, the VAX 780, which the University purchased from DEC last summer at a \$124,000 savings. Computer services and DEC recently held an open house to show faculty, staff and students the University's newest computing equipment.

Board of Trustees

The Board of Trustees approved action that will have the net effect of increasing classified employees' take-home pay when it met March 2.

Approved was a plan similar to that initiated for faculty and administrative staff last year whereby the University will "pick-up" the employee's 8.5 percent contribution to the Public Employees Retirement System for all classified staff PERS members.

Taxable wages of all classified employees will therefore be reduced by the amount of the employer "pick up" and taxes on the amount will be deferred until the employee retires or leaves the University. Currently, classified staff contributions to PERS are taxed as part of each employee's gross income. The effect of the new policy, which begins immediately, will be to increase each employee's take-home pay by the amount of tax previously paid on the 8.5 percent retirement contribution.

The trustees also approved revisions to the Administrative Staff Handbook which change the role of the vice presidents and the president in the grievance procedure.

Funds were authorized for external lighting improvements to enhance the safety of the campus. New lights are to be installed at Lots N and 14, between Memorial Hall and the Student Services Building; in the Commons causeway; near the Fine Arts Building; in Lot E on the east side of the Heating Plant; around the Technology Building; in the Union Oval near Eppler Complex; north and west of the greenhouse; at Lot K near the pond; in the Channel 57/Home Management House area; north and west of the Administration Building; in the mall between the Library and Education Building, and at Offenbauer Towers.

In addition, President Olscamp reported to the trustees that the public safety department is working to install additional emergency

telephones similar to those currently in place in remote areas of the campus.

TELECOMMUNICATIONS UPDATE

During reports to the trustees, Jim Corbitt, food operations, reported on steps being taken to enhance the University's telecommunications system and replace outdated equipment.

Noting that because of federal deregulation of the communication industry the University is expecting the cost of maintaining its current system to drastically increase, Corbitt said that system is 15 years old and increasingly difficult to maintain and service. "We have problems transmitting data with our present equipment," he said, adding that with increased use of computers in the telecommunication industry "we have a need for a central, sophisticated telephone switching apparatus."

Dr. Olscamp noted that no decisions have been made to purchasing or lease new equipment but that "we are raising the issue now to educate the campus community about the needs we have and the expense involved. We want it known that we are serious about updating our telecommunications system."

PAT GANGWER REFLECTS

Also invited to report to the board was Patricia Gangwer who retired Dec. 31 after serving in administrative capacities with six University presidents.

Speaking on the importance of the quality of the "human encounter" in life, she shared with the trustees some of the things she has learned through encounters with the presidents she served:

"Pretending to know what you don't know can be dangerous. . . People in higher education seem to be especially reluctant to admit that they

don't have an answer for every question. I have immense respect for the person who can say, without embarrassment, 'I don't know,' provided he or she follows with, 'But I will try to find out.'"

"There are almost no limits to what you can accomplish as long as you don't care who gets the credit."

"Every star must have a supporting cast. When the morale of the supporting cast is low, the star no longer receives applause."

"The University needs its loving critics. . . Much criticism is invalid because it is based on false or incomplete information. Yet even this kind of criticism serves a valuable purpose because it enables us to correct misperceptions as well as to improve our performance."

"People must have room in which to make mistakes: that is how we learn best. For some of us, it is the only way we learn."

"Unless one can find some intrinsic value in one's work, no monetary rewards or public acclaim will be fully satisfying."

She also challenged the Board of Trustees and the University community as a whole to make Bowling Green a place where "the student is truly at the center of, and the reason for, all our activity. I would like to see this University recognized as a place where service to students is our primary task, a place where every policy is evaluated in terms of its effect upon students, and, frankly, a place where faculty prerogative and administrative convenience take a back seat to student needs. . ."

"I do not wish to imply that we at Bowling Green, when measured against comparable universities, are more indifferent to students. I merely see an opportunity to do a much better job of helping students find their way through the bureaucratic maze and of re-examining our policies and practices regularly to ensure that they meet student needs."

SPRING BREAK IN THE BOOKSTORE. The University Bookstore will be closed on Saturdays, March 17 and 24 because of the University's spring break.

The bookstore will be open Monday through Friday, March 19-23, from 8 a.m. to 5 p.m.

OPPORTUNITIES ABROAD. A representative from the Washington office of the Council for International Exchange of Scholars will be on campus Wednesday (March 14) to conduct a faculty workshop on opportunities for lecturing and research abroad through the Fulbright Scholars program.

Jennifer Keefe will lead the workshop, scheduled from 2-4 p.m. in the Ohio Suite of the University Union.

Keefe will discuss application procedures and review process and evaluation criteria used by CIES in awarding fellowships. She also will describe openings abroad for the next academic year.

All faculty interested in applying to the Fulbright Scholars program are encouraged to attend. Contact the Research Services Office (372-2481) for advance reservations.

Faculty Senate

The academic calendar for 1985-86 through 1990-91 was discussed at the March 6 meeting of Faculty Senate.

Senate reviewed proposals for calendars submitted to the Senate Committee on Academic Affairs by two ad hoc Senate committees on the University Calendar and Summer Session. Both of those ad hoc groups, and the Academic Affairs Committee, have concurred on a procedure for determining the calendar.

Under that procedure the fall semester would always begin on the last Wednesday in August unless the date was either the 30th or 31st, in which case it would begin seven days earlier. The spring semester would begin the second Monday of January with spring break to follow the 10th consecutive week of classes. The summer session, which was the main topic of discussion at the Senate meeting, would begin on a Monday four weeks after the spring semester ends and include two five-week terms and one eight-week term.

Proponents of an earlier summer term which would begin immediately following spring quarter commencement noted that continuing students who leave the campus for a month before the summer term begins might choose not to return for summer classes or might enroll at a college or university closer to home. Several faculty pointed out that no data will be available until late this summer or early next fall that will substantiate a comparison between the early term scheduled for summer 1984 and the late term which was scheduled in summer 1983.

Deliberation on the calendar issue will continue at the next Senate meeting on April 3. The responsibility for determining the academic calendar, which previously rested with the Academic Council, has been delegated to the Faculty Senate under the revised Academic Charter.

In other business, senators voted to direct the Faculty Welfare Committee and the vice presidents for planning and budgeting and academic affairs to establish guidelines and procedures to implement the Early Retirement Buy-Out Program approved by the Senate in February. That program is currently being reviewed by the administration for cost-effectiveness and feasibility and will be presented to the Board of Trustees April 16 at a meeting to be held on the Firelands campus.

Senate also approved amendments to the Academic Charter which increase the number of faculty members on Undergraduate Council.

As amended, the charter provides that fifteen faculty representatives will be elected from undergraduate colleges and autonomous schools apportioned by the number of FTE students generated within each

college or autonomous school, with fractions of .5 or higher rounded to the next highest whole number. It is guaranteed that each undergraduate college and autonomous school will have at least one elected faculty representative.

The amendments also stipulate that the council will be reapportioned annually and that not more than one representative to the council can be elected from any one academic department.

The council currently has 27 members. With the new rules for apportionment, that number could increase by two or three in certain years.

In reports to the Senate, Chair Betty van der Smissen, health, physical education and recreation, noted that the Senate officers are preparing recommendations on responsibilities of the officers for inclusion in the Academic Charter. Also being discussed are means of calling the Senate and/or Senate Executive Committee into action during the summer when some major decisions are traditionally made.

Vice-chair Arthur Neal, sociology, reported on the work of the Committee on the Role and Mission of the University. Members are now in the final stages of preparing a report which will be distributed to senators before the end of March and placed on the Senate agenda in April.

Dr. Neal said the committee's statement will be a "change-oriented document" based on the premise that "the quality of the University is shaped by the quality of its students, academic programs and faculty and the quality of the learning environment it provides."

It will suggest that Bowling Green should change the composition of its student constituencies, increasing the number of graduate students, international students and minority students and also improving the quality of in-state students who are admitted. It also will suggest ways of developing and enhancing academic programs; enhancing the qualifications of the faculty and initiating improvements in the learning environment, Dr. Neal said.

Paul Mueller, finance and insurance, chair of the Faculty Welfare Committee and a member of the University Insurance Committee, reported on the Insurance Committee's current consideration of the term life insurance purchased by the University as part of all faculty and administrative staff contracts. The insurance committee is proposing limiting the amount of term insurance coverage which the University purchases for each contract employee to \$50,000, the maximum allowed tax-free by the Internal Revenue Service. Currently employees receive two and a-half times their contract salary in term insurance benefits and are taxed by the federal government on the amount of that coverage which exceeds \$50,000.

Dr. Mueller said the insurance committee is also considering a recommendation that the University would purchase the \$50,000 term insurance rather than deducting the premium for that insurance (which not every employee wants) from each employee's contract amount.

Questions or comments about the insurance proposal can be directed to any insurance committee member.

Emeritus professor endows public affairs scholarship

"The University has been very good to me during my teaching career and I wanted to give something in return."

That is the way Charles Barrell, emeritus, political science, explained his \$5,000 gift to the University. The money will be used to establish the Charles Alden Barrell Endowed Scholarship.

Dr. Barrell taught at the University from 1940 until his retirement in 1974. From 1946-1965 he served as chair of the political science department.

The scholarship, currently set at \$300, will be given annually to a rising senior who is majoring or minoring in political science, pre-law or demonstrated studies and who has demonstrated outstanding scholarship and leadership while at the University.

In addition, the student must have a 3.3 grade point average and an active interest in the area of public affairs.

The first award will be presented later this spring. The recipient will be determined by a panel including three political science faculty and Dr. Barrell.

Before joining the Bowling Green faculty, Dr. Barrell taught political science at Washington and Lee and

Ohio State universities and Oberlin College. A graduate of Hampden-Sydney College, he earned his master's degree from the University of Virginia in 1932 and his doctoral degree from Ohio State in 1938.

In 1965 Dr. Barrell, whose academic interests were political parties and state and local government, won a seat on the Bowling Green City Council, a post he held the next 16 years. As a councilman he was involved in the acquisition of land for the development of Carter Park. He also chaired the city's Traffic Commission and the Housing and Zoning Committee. This past year, Dr. Barrell returned to council to fill a vacant seat.

In the fall of 1982 Dr. Barrell was honored by the Alumni Association when he was presented an Honorary Alumnus Award. He was the 16th recipient of the award, which recognizes significant contributions to Bowling Green by persons who are not graduates of the University.

Contributions to the endowed fund, which will increase the amount of the annual award, can be made through the University Foundation, Inc., Mileti Alumni Center.

'Artistry in Teaching' topic of education colloquium

Harry S. Broudy of the University of Illinois at Urbana-Champaign will discuss "Artistry in Teaching" in the fifth program offered in the College of Education's 1984 Colloquium Series Monday (March 12).

Dr. Broudy will speak at 1 p.m. in the Town Room of the University Union. His visit is sponsored by the departments of educational foundations and inquiry and educational curriculum and instruction.

A professor emeritus of philosophy of education and a nationally known scholar, teacher and author, Dr.

Broudy has written several texts, among them *Building a Philosophy of Education* which has been published in three languages.

A graduate of Boston and Harvard universities, he has participated in numerous distinguished lecture programs and in 1974 was the first visiting distinguished professor at Memorial University in St. John's, Newfoundland. The following year he was awarded a Fulbright lectureship in Australia.

Dr. Broudy's Monday lecture is open to the campus community.

STRS offers summer seminars for faculty planning to retire

Retirement is not as simple as accepting a gold watch and spending the rest of your life fishing and playing golf.

It takes careful planning to retire successfully, and that is why the State Teachers Retirement System offers retirement planning seminars designed especially for persons who plan to retire within five-10 years.

Three two-day Retirement Planning Seminars are scheduled this summer in Columbus for Ohio teachers planning retirement. The seminars are designed to provide a detailed analysis of benefits from STRS and also include in-depth information on total financial planning, housing, health and health care insurance, legal affairs, taxes and adjusting to retirement.

The seminars are scheduled on June 29-30 (for singles only); July 27-28 and Aug. 17-18. Friday sessions are held from 7-9:30 p.m. and the

Saturday sessions from 8:30 a.m. to 4 p.m.

The fee for the seminars is \$10 for a single participant and \$15 per couple. The fee covers the cost of a Retirement Planning Workbook and Saturday luncheon. Because enrollment in each seminar is limited to 40 participants, including spouses, early enrollment is recommended. It is imperative that participants attend the entire seminar.

For further information about the STRS Retirement Planning Seminars contact Norma Stickler in the Office of the Vice President for Academic Affairs (372-2915) or STRS, 275 E. Broad St., Columbus, Ohio 43215, phone (614) 227-4090. The STRS Retirement Planning Workbook is also available for \$6 by writing Coordinator of Retirement Planning Services, State Teachers Retirement System of Ohio, at the Columbus address.

Monitor is published weekly for faculty and staff of Bowling Green State University. The deadline to submit material for the next issue, Monday, March 19, is 5 p.m. Tuesday, Mar. 13.
Editor: Linda Swaisgood
Editorial Assistant: Deborah Schmook
Change of address, "Commentaries" and other notices should be sent to: Monitor
Office of Public Relations
806 Administration Bldg.
Bowling Green, OH 43403

IT'S TRIATHLON TIME. The Student Recreation Center is looking for faculty/staff teams for its fifth annual Triathlon, scheduled on Saturday, April 28 (rain date, April 29).

Departments and offices are encouraged to organize a three-member team for this University-wide event which includes a one-mile swim, 12-mile cycling event and nine-mile run. It's a perfect chance to get staff in shape and boost office spirit.

A heat will be reserved strictly for departmental team competition. Engraved trophies will be awarded to the fastest team and to the team that finishes closest to its predicted time. The trophies will be passed to the winning departments each year.

Applications are available at the Rec Center. There is an entry fee of \$3 per person (\$4 for an optional t-shirt).

IN AN EMERGENCY. The Office of Environmental Services has phone stickers listing emergency telephone numbers. To request the stickers, which include the numbers for University police, local fire and ambulance service, call 372-2171.

Faculty & Staff

Recognitions

Mel Brodt, health, physical education and recreation and athletics, has been elected for induction into the Ohio Track and Field Hall of Fame. He is only the third coach in Ohio to receive that honor, being preceded by Larry Snyder, Ohio State, and George Rider, Miami. Induction ceremonies will be held in Columbus on May 5 when Brodt will receive a plaque to be permanently housed in French Field House on the campus of Ohio State University.

Richard A. Frye, Upward Bound/Talent Search, has been appointed chair of the New Professionals Committee of the Mid-American Association of Educational Opportunity Program Personnel. In that position he will be responsible for providing training for all TRIO program directors in Region V who have fewer than two years of administrative management and supervisory experience in TRIO programs.

Ruth Inglefield, music composition/history, was invited to serve as a judge for the Ruth Lorraine Close Competition March 9-10 in Eugene, Ore. The national competition is open to composers and performers on all instruments. On March 11 Dr. Inglefield also presented a master class for student harpists from Oregon and Washington.

Barbara Lockard, music performance studies, has been elected to the Board of Opera for Youth, a national opera organization dedicated to promoting opera for and with children.

Virginia Marks, music performance studies, has been elected to the executive board of the Music Teachers National Association.

Ernest Pancsofar, special education, has been named to the governing board of Ohio's Association for Persons with Severe Handicaps.

Three paintings by **Paul D. Running**, art, will be exhibited nationally during March. Curators of the Chicago Art Institute and Washington's Corcoran Gallery of Art accepted his oil painting entitled "Street in Autumn, Torino," for "Exhibition 280 — Works on Walls," which opened March 4 at the Huntington (W. Va.) Art Gallery.

Band and quintet 'off to Chicago'

The Symphonic Band will present an "Off to Chicago" concert at 8 p.m. Wednesday (March 14) in Kobacker Hall of the Musical Arts Center.

The concert will be the band's final campus performance before leaving for guest appearances at East High School in Aurora, Ill., and at the Music Educators National Conference in Chicago. MENC is an organization of teachers from all levels of music education coast-to-coast.

The band will perform under the direction of Mark S. Kelly at 4 p.m. March 22 in the International Ballroom of the Conrad Hilton Hotel. This is the third time it has performed at a regional or national program at the invitation of MENC.

Also appearing at the conference will be the University's Brass Quintet. Members of the quintet, making its third appearance at a national MENC program, are faculty Edwin Betts, George Novak, David Rogers, Paul Hunt and Ivan Hammond.

Jazz Lab Band among nation's best

The University Jazz Lab Band, directed by David Melle, performance studies, was ranked among the top six bands competing at the Elmhurst Jazz Festival Feb. 24-26 at Elmhurst College in Illinois.

Approximately 30 college jazz ensembles participated in the festival.

Bowling Green's Lab Band has entered the Elmhurst competition 13 times since 1970, achieving an outstanding rating nine times.

Opening the same day was a show by the Pennsylvania Watercolor Society in Harrisburg, Pa., which includes two of Dr. Running's watercolors — "Market Place in Mainz" and "Church in Bavaria."

Martha Tack, educational administration and supervision, has been elected liaison to the Business and Professional Women's Club-USA Training Tools Project, designed to provide a list of leadership training aids for women.

Adrian Tio, art, has been elected to a two-year term as national president of F.A.T.E. (Foundations in Art, Theory and Education), an affiliate of the College Art Association. He also will edit the organization's newsletter.

Tio is also currently displaying paintings, drawings and prints in a one-man show at ARTREACH Gallery in Columbus. The show will remain on exhibit through April 1.

Grants

Susan S. Arpad, women's studies, and **Joseph Arpad**, English, funds totaling \$40,385 for production and promotion of an hour-long television documentary on the conflicts in cultural beliefs, values and attitudes precipitated and nurtured by the Ohio gas and oil boom, 1884-1910. Grants for the project were awarded by the Ohio Humanities Council (\$17,885); the Marathon Oil Co. (\$15,000) and the National Endowment for the Humanities (\$7,500).

Joao Ferrelirinho, English, \$3,000 from the Institute of Portuguese Culture to support his doctoral dissertation on "The Influence of the Portuguese Poet, Camoes, on Melville."

Rosalind Hammond, educational curriculum and instruction, \$4,640 from the Ohio Arts Council/Ohio Humanities Council for a program to educate area public and private school teachers in the appreciation of the folk art and culture of northwest Ohio.

William B. Jackson, environmental research and services, \$1,300 from the Danida Mission, Royal Danish Embassy, Tanzania, supplemental support for a graduate student's studies in vertebrate pest management for the 1983-84 academic year.

Louis I. Katzner, philosophy, \$31,647 from the Exxon Foundation to study the feasibility of offering an applied Ph.D. program in philosophy at the University.

F. Scott Regan, speech communication, a grant from the Children's Theatre Foundation to support his research of youth theaters in America.

Ellen Williams, special education, \$7,550, a sub-contract from the Blanchard Valley Center in Findlay, to continue the development of model programs designed to increase the participation of parents of children who have been identified as developmentally disabled in the children's education process. The target population is parents of children age 4 and younger.

Publications

Leslie Chamberlin, educational administration and supervision, "Teacher Loves Me," in *Private School Quarterly*, winter 1983.

Ernest A. Champion, ethnic studies, a critique of "Women, Religion, and Peace in an American Indian Ritual" in *Explorations in Ethnic Studies*, the journal of the National Association for Interdisciplinary Ethnic Studies, January 1984.

Leigh Chiarelott, education graduate studies, "The Role of Experience in Curriculum: An Analysis of Dewey's Theory of Experience," in the summer 1983 issue of *Journal of Curriculum and Theorizing*.

Stefania E. Frank, language laboratory, "Dziennik z Powstania" (A Diary from the Warsaw Uprising), included in the book entitled *Dwa Wrzesnie (The Two Septembers)* by Halina Kraheiska and published in Warsaw in 1983.

Andrew M.W. Glass, mathematics and statistics, "Countable lattice-ordered groups," in *Math. Proc. Cambridge Philosophical Society*, vol. 94, 1983. Also, "The word problem for lattice-ordered groups," co-authored with Y. Gurevich, in *Trans. American Math. Soc.*, vol. 280, 1983.

Dennis Hale, journalism, "Detroit Dailies Neck and Neck in Circulation," in the Jan. 30 *Publishers' Auxiliary*. Also, "Sunday Newspaper Circulation Related to Characteristics of the Fifty States" in the fall 1983 *Newspaper Research Journal*.

Kenneth Hibbeln, political science, "Methods for Structuring Administrative Discretion," in the latest issue of *State and Local Government*

Review. The article is co-authored with Douglas H. Shumavon of Miami University.

Charles H. McCaghy, sociology, and Tina M. Beranbaum, McGill University, "A Sociological Perspective on the Movement Against Child Pornography," in *Child Pornography and Sex Rings*, edited by Ann Wolbert Burgess and published by Lexington Books, 1984.

Ernest Pancsofar, special education, "Project EARN (Employment and Rehabilitation = Normalization): A competitive training program for severely disabled youths in the public schools," an article in the December 1983 issue of the *British Journal of Mental Subnormality*.

Michael Rastatter, speech communication, and **Glenda DeJarnette**, doctoral student, "EMG Activity with the Jaw Fixed of Orbicularis Oris Superior, Orbicularis Inferior and Masseter Muscles of Articulatory Disordered Children," in *Perceptual and Motor Skills*, vol. 58, 1984.

Bill Reynolds, educational administration and supervision, and **JoAnne Martin-Reynolds**, educational curriculum and instruction, co-authored "The Principals' Career Considerations," in the most recent issue of the *American Secondary Education* journal. Dr. Reynolds, who edits the journal, also wrote an editorial describing the role of the principal as one of the most important in rededicating

schools in the United States to a new level of excellence.

Eldon E. Snyder and **Elmer Spreitzer**, sociology, "Identity and Commitment to the Teacher Role," in *Teaching Sociology*, January 1984.

Dr. Snyder also is the author of "Identity, Commitment and Type of Sport Roles" in *Quest*, vol. 35, 2, 1983, and "Sport Involvement for the Handicapped: Some Analytic and Sensitizing Concepts" in *Arena Review*, March 1984.

William C. Spragens, political science, "Kennedy Era Speechwriting and Public Opinion," an article in the winter 1984 edition of *Presidential Studies Quarterly*. The *Quarterly* is published by the Center for the Study of the Presidency in New York.

Richard Wilson, special education, "The Effects of Group Size and Instructional Method on the Acquisition of Mathematical Concepts by Fourth Grade Students," in the *Journal of Educational Research*, January-February 1984.

Robert Yonker, educational foundations and inquiry, "Maintenance of Treatment Effects Biofeedback-Assisted Relaxation on Patients with Essential Hypertension," in *American Journal of Clinical Biofeedback*, spring 1984.

WBGU-TV seeks new members in FESTIVAL '84 campaign

WBGU-TV's annual membership campaign, FESTIVAL 84, will continue this week in an effort to enroll 1,500 new members.

The FESTIVAL, which began March 2, is part of a nationwide awareness and fund-raising campaign for public television stations across the country. Special programming is being aired throughout the campaign.

During FESTIVAL 84, WBGU-TV staff and volunteers are describing the station's functions and its need for financial support from viewers.

Telephone volunteers are accepting calls from viewers who wish to become contributing members, renew existing memberships or contribute additional pledge amounts. Pledges may be phoned to 352-1561 during the campaign.

Approximately 8,000 residents of northwest Ohio and northeast Indiana are current members of the station, which airs regular weekly programs including "Washington Week in Review," "Wall Street Week," "Nova" and "Sesame Street."

Women's studies offers prizes in manuscript competition

The women's studies program is offering \$100 cash prizes for the best undergraduate and best graduate entries in its annual manuscript competition.

The "Women's Studies Alumni Prize" will be awarded for the best scholarly manuscripts illuminating the lives, roles, achievements and status of women — past or present.

Faculty and staff are encouraged to invite students to enter the competition. Manuscripts submitted for the contest may be original material written for the prize competition or works prepared for a

class. Only previously unpublished entries will be accepted.

The deadline to submit an entry, including an original and one copy, is 5 p.m. Monday, March 26. Manuscripts may range in length from 1,200-8,700 words and may be in the form of an essay, research paper, critique or philosophical argument. Entries will be judged by a jury of University faculty with student representation.

For additional information call the Women's Studies Program Office, 372-2620.

Greek units raise \$12,700 through fall charity events

Fraternities and sororities at the University raised nearly \$12,700 for various charities during fall semester, according to a report released by the Office of Residence Life.

The Greek units sponsored more than 50 events to raise the money, which exceeds by nearly \$7,000 the amount contributed to charities during fall 1982.

The largest fund-raising activity among the fraternities was Sigma Phi Psi's annual mud tug, which netted \$1,400 for the Heart Fund. This was the 25th year for that event.

Delta Zeta's volleyball tournament, which earned \$950 for Gallaudet College for the Deaf, was the sororities' top fund-raising activity.

In addition to their money-raising events, the Greek organizations contributed numerous volunteer hours, food and clothing to several northwest Ohio organizations during fall semester.

More events are planned for spring semester, including the annual BETA 500 on April 28 which will help send Wood County youths to the Special Olympics.

DIRECT DEPOSIT UPDATE. The Classified Staff Advisory Committee has received a memorandum from Karl Vogt, vice president for operations, regarding the proposed mandatory direct deposit of classified staff paychecks.

Because of the objections expressed by classified employees to a mandatory system, direct deposit will remain voluntary for all classified employees.

Paychecks will continue to be distributed on alternating Fridays. Classified staff who wish to take advantage of direct deposit may do so by contacting the payroll office, 372-2201.

STAFF TO STUDY WORK INCENTIVES. A committee has been established through the Classified Staff Advisory Committee to study work incentives for classified staff.

A survey requesting input and ideas will be sent to all classified employees. From the survey and additional study, recommendations will be made to the University.

The Incentives Committee is chaired by Betty Firsdon, plant operations and maintenance. Any classified staff may volunteer to serve as a member of her group. For further information call 372-2251, ext. 118.

Author/historian to speak at library Friends' banquet

Historian Robert Ferrell, an author/editor whose books include such notables as *Dear Bess: Letters of Harry S. Truman to his Wife* and the three-volume *History of American Diplomacy* series, will be the featured speaker at the Friends of the University Libraries and Center for Archival Collections annual banquet.

All faculty and staff are invited to attend the dinner, to be held at 7 p.m. Friday (March 16) in the Mileti Alumni Center.

A native of Cleveland, Ferrell received a bachelor's degree in education from Bowling Green in 1946 and a year later earned a bachelor of arts degree from the University. He holds master's and doctoral degrees from Yale University and currently is

a professor of history at Indiana University, Bloomington. In 1971 he received an honorary doctor of laws degree from Bowling Green.

Ferrell's writings include *Peace in Their Time; American Diplomacy in the Great Depression; American Diplomacy: A History; America: A History of the People, and The Ordeal of World Power: American Diplomacy since 1909.*

Reservations for the Friends' annual banquet are due Monday (March 12) and may be made by calling the dean's office in the Jerome Library (372-2856). The cost is \$12.50 per person for members of the Friends' organization and \$15 per person for non-members.

District Science Day on campus 42nd time

For the 42nd year the University will be the site for the annual Northwest Ohio District Science Day set for Saturday (March 17).

More than 450 student projects will be judged and displayed from 9 a.m. to 3 p.m. in the Life Sciences Building and Overman Hall. Students in grades seven through 12 from Fulton, Hancock, Lucas, Putnam and Wood counties will compete.

Approximately 70 students will be awarded superior ratings, which

enable students to enter their projects in state competition to be held April 14 at Ohio Wesleyan University.

Nineteen special awards also will be presented during the day's concluding ceremonies which will begin at 1:30 p.m. in the Grand Ballroom of the University Union.

N. William Easterly, biological sciences, is chairing the Science Day activities.
