"The Bowling Green Red Cross needs the help of University students," Chairman of the campus Red Cross, announced today. "We need students to attend meetings, to work at the Red Cross office, to help distribute supplies, and to work on committees."

"We need to work for at least two hours each week during the meetings," Secretary of the club, said. "We will have meetings every Tuesday and Thursday evenings."

"We need people to work at the Red Cross office every day, from 8:00 a.m. to 5:00 p.m.," Secretary of the club, said. "We need people to work on committees and to help distribute supplies."
Indepedently Speaking

Organization of independent women is underway, according to two reports held last week by local newspapers. It is well for the group of women—and of men—competing with social fraternities to organize. Although fraternities have a strangle hold over many students at Bowling Green almost since its beginning, independent organizations have never been an organization of independents.

It will be a step forward for the University if students are encouraged to think along the right lines. The fundamental reasons for organizations of independents should be similar to the principles behind the development of the fraternity system.

Independents should group together in order to have a voice. They should learn to be more than friends. They should have the will, the faith, and the mind and should consider what they could do to help it.

They should not organize primarily to get full recognition from the University for their points of prominence on the campus.

Granted, closely-knit sororities and fraternities, whenever an election is in the offing, prepare a slate which the members compose with in their voting. True, the majority of office-holders on the campus are fraternity members. But the b-strings of very few other brothers (but obvious and published) results of their existence.

Independents should organize. As an outcome of this organization will inevitably come, if the group of female independents are armed and backed by campus ever election. Independents should not take this development merely because they want to get independent into campus offices. This should be done for the right reasons, forgetting the objectives for the group.

Appreciation

Biggest news of the week in Bowling Green is the donation of $10,000 by Dr. W. U. Livingood, an old alumni who is a hospital corporation of a hospital for Wood County. At the present time, the majority of students and faculty of the people of Bowling Green is a home removed to Community Hospital.

Under the leadership of Dr. Livingood, are fortunate to have modern, up-to-date Johnston Hospital. This hospital and another hospital for Wood County is currently equipped to meet the needs of all students. Competent doctors and nurses are on duty to care for any from a tiny scratch or a headache to heart surgery. The service of this hospital is extended to the student who is a patient in one of the new inpatient units.

The excellence of this service is even more noted by the treatment of sick students three years ago, before the completion of Johnston Hospital. In 1943, it is merely one of the many facilities for care of students, but not quite in another second-floor wing of Student Union. Although this wing, is from their rooms, were taken to the aforementioned Community Hospital.

The report of the first day of Independent's is on the campus is one of the things which the University may be proud.
