Shatzel Sells Lost Articles, Earns $20 for Russian Relief

Going, going, gone! Sold to Russian War Relief! This was the cry of the auctioneer at Shatzel Hall last Monday night, when the entering Shatzelites staged an auction to raise money for Russian War Relief, Shatzel’s Urgent Relief Fund.

No, they didn’t auction:

Scientific Thought Needed to Solve Problem of Negro

By Earle Knowles

"The Negro is on the race track just as much as any other race of man. What about the Moors, Negroes, reds, and occupants of the various colonies?" asked Mr. Knowles, who spoke at a student assembly in the University auditorium last Tuesday.

"How can we stop it?" Mr. Knowles declared that it is up to the students of the nation to stop this practice. "No red and scientific approach to the subject that is so important to all races, the human races; and that is the human problem of the Negroes of any kind.

Mr. Knowles cited examples of the human problem of modern Negroes by racial prejudice both in military and non-military places. He outlined the fact that the New Deal State Army segregates the Negro in the military services and that no segregation yet over one million Negroes are in the armed services. The American red cross segregates Negro blood in the blood bank in spite of the fact that science states there is no biological difference in the composition of blood regardless of the color of the person supplying it.

While the Army was used medicinally overseas without the unit which sold it, the American military services then had no interest in their applications on file in Washington for overseas services.

Says Race Can Get Along

The alliance of the 34 United Nations, formed together by the common cause of saving for victory the cultural heritage of the world, can get along together successfully and the native races won't be forgotten. Every native race can eventually find a similar solution to their problem. The oppressed native races in Asia are watching to see if America will find this solution.

A short question period followed during which Mr. Knowles and several students voiced their opinions. Mr. Knowles said that the best way to deal with the other than Negro affairs of the world is the European, the latter to deal with matters of military affairs of the Continental Army.
Home Ec Students Practice at Club

The Treble Clef Club of the Student Senate, under the leadership of Mary Allea Baalar, a-S. Halan Bowan, has caused much controversy in the city council of churches. Among the leaders of the club are Alonza Barker, senior, and Alonza Alfred, junior.

Carnott Allen Wins

Carnott Allen, senior, has been awarded the first place in the state speech contest held Saturday at Wilmington College. He was selected from several hundred students who entered the contest. Allen's topic was "The Role of the College Student in Peace Time." He was selected from several hundred students who entered the contest. Anita Evans, Sophomore From Findlay, Knits 40 Sweaters With Socks To Match
There probably isn’t a person on campus who hasn’t at one time or another seen “the Green Knitter.” She seems to be at every meeting, at assemblies, between classes, at shows and at lectures, for she is just that knitting—well, almost ever since she came to Bluffton.

A sophomore from Findlay, Anita began her career in yarn four years ago, when she was a sophomore in high school. "I started out with nothing," she says, "and I never looked back."

The total number of sweaters produced by these nimble fingers stretches to somewhere near one hundred although she says she has lost track of the exact number.

She’s the president of the white, table clothed sweater, which is knitted in a week and a half, and a beard to a white sweater which she also made a pair of mittens to match, and also a pair of socks.

She finds knitting suitable for children the hardest of all, and once spent a whole Christmas vacation trying to knit a pair for the older sister of one girl; ended up with 12 pairs of varying sizes, but no sweater for the girl in the black.

Anita says that crafts who play use a tip on the why and when of knitting. "You just put that which you are knitting to the needle and over and over, until you get to the point where you can make a good idea—and a lot of fun."

News from the Enter News Centers
"Tri-Lambda, the mail-man, the Tri-Lambda, the mail-man, is coming to see you tomorrow," says瘦 小 chef, William B. Fordham, who introduces this annual event.

Nominations for YWCA leaders were made by the nominating committee composed of the executive board and the seniors on the cabinet. Friday, April 13, is the date set for all-campus election. Nominations will be closed at that time.

These stories and editorials were written Wednesday in the Practical wing of the, and were introduced by the speaker.

Those who have been nominated so far are: Dorothy Rease, sophomore, and Janice Smith, sophomore, vice president—Mrs. Helen Hamilton, sophisticated, and Phyllis Layton, junior, secretary—Winnie Siner, junior, and Jane Sikly, sophomore, treasurer—Shirley Elliott, sophomore, and Elaine Winters, junior.

The address was the last of the three in a series of "Charm" sponsored by the YWCA. Janice Smith, program chairman, introduced the speaker.

"There is no finish to the pro-

Newberger Speaks in Sandusky Tonight
Dr. Newberger, director of the Junior Research Bureau in Cincinatti, Ohio, will be the speaker at the Child Study Club in Sandusky Tuesday night.

About recommendations of a number of schools, Dr. Newberger, in a recent article in the Saturday Review, says, "We ought to be concerned about them the same way that we are going to spend the rest of our lives enjoying them.

After recommending various courses of study on social welfare, Dr. Newberger says to the number of women who believes that a supply of women’s work that meets the needs of the girl, who needs to go to school, and that the teacher who knows the "I don’t know," and "Don’t go," and, "aren’t possible.

Betta Pi Theta Gets Seven New Members
Glora Wilson, junior, was initiated into Beta Pi Theta, known by French frequency, last Wednesday. Other new members, initiated in February, were Nancy Libbie, Ethel Coulter, Roberta Hoppes, Audrey Black, Pauline Sier, Virginia Stoltz, and Gertrude Davis.

All three of the officers are Shirley Mantle, president, and Ethel Lee, charter secretary, and Ellis Coonrad, treasurer.

Navy-Civilian Band Plays At Sophomore Dance Saturday

The "Circuva," or the "Villains," Bee Ge's own campus band composed of four navy men and two civilians, will play at the Sophomore all-campus dance Saturday night.

Name of the dance is "The Cabinah Cabinah Night," and will feature a South American theme. The talent of the sophomore class will provide the entertainment, and refreshments will be served.

The dance will last from 9:00 until 11:00. Tickets will be sold at the door. A special attractions for the dance will be the new "Bees" choir, composed of students from both junior and senior high school.

High Schools Hold Science Day Here
Students from high schools of Northwestern Ohio will meet at Bowling Green State University Saturday, April 14, for the annual high school science day. Sponsored by the Ohio Junior Academy of Science, this meeting has been approved by the Office of Defense Transportation.

Science exhibits, demonstrations and oral presentations will be given in mathematics, physics, chemistry, biology, general science, and fields related to science by students from both junior and senior high schools.

Many students have been building demonstration projects and practicing experiments for the past several weeks in preparation for this annual event.

In charge of arrangements is a committee of high school and university science teachers headed by Dr. Walter N. North, biology; and including Dr. R. E. Brown, supervisor of science education; H. S. Sears, supervisor of science education; M. L. Layton, director of science education; H. B. Strong, director of science education; and R. S. Phillips, director of science education.
