Security consciousness is best insurance against equipment theft

With the number of major thefts in academic and administrative buildings on the rise, Theodore J. Olscamp, director of public safety, is asking the campus community to be more vigilant about protecting their personal belongings.

"If you have a bicycle, lock it up," Olscamp said, "and if you are walking around the library or the bookstore, watch your belongings." He explained that it is important for people to be aware of their surroundings and to be careful when they are not looking.

"If you are walking alone, don’t carry a lot of cash with you," Olscamp said. "And if you are in a group of friends, split up and then meet up again later." He also urged people to be careful when entering or leaving their cars, and to make sure that their doors are locked.

"The security services unit of the University will consult with individual areas about theft problems or issues," Olscamp said. "If you see something suspicious, please report it to campus security immediately."
Undergraduate Council

A special meeting of the Undergraduate Council was held Nov 10 by phone between 7 and 9:30 p.m. It was announced that because of the prolonged nature of the proposed Articulation Policy, Phase II would not be addressed for at least the next month. Therefore, no major changes were made during the meeting, particularly the committee was left with the charge of reviewing the proposals for the various components of the Phase II regulations, in the hopes that there would be recommendations made to the Board of Trustees. The purpose of the meeting was to discuss the various forms of education and student development that should be included in Phase II, and to determine how those components of the Phase II regulations should be developed and implemented. The meeting was very productive, with a number of important decisions being made. The meeting began with a review of the proposals for Phase II, and a discussion of the various forms of education and student development that should be included in Phase II. It was decided that the various components of the Phase II regulations should be developed and implemented in a way that would be consistent with the goals and objectives of the University. It was also decided that the various components of the Phase II regulations should be developed and implemented in a way that would be consistent with the goals and objectives of the University. It was also decided that the various components of the Phase II regulations should be developed and implemented in a way that would be consistent with the goals and objectives of the University. It was also decided that the various components of the Phase II regulations should be developed and implemented in a way that would be consistent with the goals and objectives of the University. It was also decided that the various components of the Phase II regulations should be developed and implemented in a way that would be consistent with the goals and objectives of the University. It was also decided that the various components of the Phase II regulations should be developed and implemented in a way that would be consistent with the goals and objectives of the University. To the Editor:

It was with great interest and concern that I read the announcement of the proposed Articulation Policy. Phase II would set requirements for admission and registration of students in the areas of science, social science, foreign language, and visual or performing arts.

Major concern addressed during the discussion were the limitations of the various components in the Phase II requirements. Particularly the college-level component, there should be recommendations or requirements in place to ensure fulfillment of the articulation requirements. The same requirements should be set for implementation of Phase II, and all students should be able to apply to any institution.

It is my belief that a unit of the arts, Richard Kinnell, presented a good view of the need for an Implementation Committee and that this committee be given the title of "arts" defined broadly. He also noted, however, that when discussing the college-level requirements, which issue of defining the arts seemed to be the most difficult and "that" to be defined as the time available. John H. Vugt, nc. Assistant Dean of Enrollment and Registration, expressed that its "low priority", that is, "an issue of time available". Jerry Stoker, Program Director, also questioned the way that the proposed requirements would be increased and the concerns. He suggested that any policy adopted with the phase II requirements must be a global policy which would not work effectively. It was also noted by Mr. Satterley, the college of the Arts, that many students often do not participate in non-traditional students. Amanda Heine, coordinator of the college of the Arts, suggested that the concept of requiring English as a foreign language for these students was a problem and that the college would simply send a message to the students that they were not participating. The problem may be that the courses offered for general education were not the same as those for the college of the Arts.

We have high standards. We have high standards for academic due process, which we believe is necessary when people are affected. Otherwise, excellence has no protection. (And we are serious persons, who do not have easy access to people's offices). Respectfully submitted,

Laurie T. Redman, University Professor Chair, temporary Temporary Committee on Academic Standards

Talent awards available in theater program

The theater program in the School of Speech Communication has begun selection for the fall 1986-87 academic year. Scholarships for the 1986-87 academic year total $30,000. The student body of 1,200 students for the fall 1986-87 academic year is eligible for the program. Scholars will be selected on the basis of merit, academic standing, and financial need. Scholarships are available for the fall 1986 academic year. Applications are also available in the College of Arts and Sciences, 750 Main St., or by calling 373-2022.

Geology department receives Amoco grants

The department of geology received a series of grants from the Amoco Foundation. The Amoco Foundation recently announced that these were the first in a series of unrestricted funds to support various programs in geology and geophysics. The grants were made to support department activities for the past decade.

HOLIDAYS AFFECTS PAYDAY. Because of the Christmas holiday, which will be observed on campus on Monday, Dec. 24 and Tuesday, Dec. 25, classified and student staff paychecks due out on Friday, Dec. 22, will not be available for pick-up until 11 a.m. that day in the Office of Human Resources.

The payroll office is advising that all exceptions to this pick-up schedule be cleared by the president's office by 5 p.m. on Dec. 21 since the office will not be staffed on Monday, Dec. 24.

LIBRARY BOOKS ARE DUE. Faculty and staff are reminded that books currently on loan from the University Libraries and marked with a Dec. 21, 1986, due date must be returned to the Library by Dec. 21. Failure to return books as instructed and a lost of outstanding library charges will be made to all faculty and staff who have borrowed materials. Renewal may be accomplished by phone or campus mail. All materials must be returned to the Library from which they were borrowed.

For further information contact the Library Office at 372-5011 or the Ogie Library at 225-0521.
Staff Update

The following people are new to the University's administrative staff: S. Maggard, assistant director of the School of Arts and Sciences; and J. W. Cline, director of the Office of Continuing Education.

The University Post Office has acquired a new high-speed labeling machine capable of processing more than 8,000 pieces of mail per hour. The new equipment replaces a 20-year-old machine which required the presence of a postal worker and was difficult to operate in the post office. This machine, pictured above, has an automatic zip-code feature for which a special program is being written by University Computer Services, and there is also a high-speed single-labeling feature.

The new machine also utilizes plus-type labels which have a more aesthetic appeal than the old type labels which can be difficult to read. The machine can label postage, envelopes, catalogs and brochures quickly, accurately and, in small quantities, labeling jobs can be done for a department or office on campus and must be scheduled in advance with the post office. Clerical jobs that are scheduled on a limited, first-come, first-served basis. Labels must be ordered in advance from University Computer Services. For more on campus mail, one story below.

Post office offers tips for speedy mail delivery

Although the University Post Office does not routinely experience the jams “Christmas rush,” the U. S. Postal Service recommends that all clerks and faculty members who use the post office in the department, office or on campus take the necessary time to remind people of ways to facilitate the flow of mail on campus.

Mail which will be routed through the “Camping Mail” system should be clearly addressed with both the name and department of the recipient. The same procedures which are used to address mail for a copy of the list and an explanation of the way in which the codes should be used.

Rec Center offers special memberships

The Student Recreation Center is offering special Christmas break memberships to the campus and local community.

A pass which will allow access to the Center from Dec. 15 to Jan. 15 is available for $15 for each break pass. The Center will be closed special “break” hours from noon to 9 p.m. daily through Dec. 19 and 20, and on Dec. 23 through 26. The Center will, however, be closed on December 11, 12, 24 and 25. During the break the Campus Pool will be opened from noon to 6 p.m. and 8 p.m. daily and the Club Pool will be opened from 1 to 11:30 p.m. UPT members may use the Center at any time for a fee of $3 per day. Non-Club members will be charged $5 per day.

Former trustee named to regents

Antie S. Ward, a University trustee from 1961-76, has been appointed by the Board of Trustees to fill the unexpired term of James Oldham, who was named a cabinet member by Ohio Governor John R. Kasich. Ward, who lives in Columbus, was the first woman to serve as chair of a state university board of trustees when she was confirmed in 1965. The post will pay $6,000 annually.

Dr. W. Cappella, an expert in industrial hygiene, and Kay Meier, special events coordinator, were among the members named to the University’s Board of Trustees in December. Dr. Cappella, an expert in industrial hygiene, and Kay Meier, special events coordinator, were among the members named to the University’s Board of Trustees in December.

President Octapac, after careful review of the recommendations of two subcommittees of the Minority Affairs Committee, has agreed to take the following actions:

1. create an Office for Minority Affairs, under the direction of an associate vice president for minority affairs, to be headed by a director of the office. The director will be a member of the president’s cabinet and will report directly to the president. The office will be responsible for the development and implementation of policies and programs designed to enhance the total educational experience of minority students.

2. create a student affairs office, under the direction of a dean of student affairs, who will be responsible for the development and implementation of policies and programs designed to enhance the total educational experience of minority students.

3. create a division of cultural programming, under the direction of a division chairman, who will be responsible for the development and implementation of policies and programs designed to enhance the total educational experience of minority students.

4. create a division of student activities, under the direction of a division chairman, who will be responsible for the development and implementation of policies and programs designed to enhance the total educational experience of minority students.

5. create a division of student life, under the direction of a division chairman, who will be responsible for the development and implementation of policies and programs designed to enhance the total educational experience of minority students.

The Office of Minority Affairs will be located in the President’s Office and will report directly to the president. The office will be responsible for the development and implementation of policies and programs designed to enhance the total educational experience of minority students.

The student affairs office will be located in the President’s Office and will report directly to the president. The office will be responsible for the development and implementation of policies and programs designed to enhance the total educational experience of minority students.

The division of cultural programming will be located in the President’s Office and will report directly to the president. The office will be responsible for the development and implementation of policies and programs designed to enhance the total educational experience of minority students.

The division of student activities will be located in the President’s Office and will report directly to the president. The office will be responsible for the development and implementation of policies and programs designed to enhance the total educational experience of minority students.

The division of student life will be located in the President’s Office and will report directly to the president. The office will be responsible for the development and implementation of policies and programs designed to enhance the total educational experience of minority students.

The University is committed to the development of policies and programs designed to enhance the total educational experience of minority students. The University will continue to work towards the development and implementation of policies and programs designed to enhance the total educational experience of minority students.
