Kennedy Directs All Vocal Groups; New Chorus Planned

Formation of a new all-campus musical organization, a chorus of 150 women's voices, and the staging of all vocal groups under the direction of Dr. James Paul Kennedy of the music faculty was announced today by Prof. M. C. McKeown, music department chairman.

Training for the new chorus will begin Friday afternoon at 1:30 in Memorial Hall. All vocalists are invited to participate in this training. The chorus group will replace our current chorus with a choir of 150 voices.

Kennedy will continue to direct the stag club and will have in charge the Men's Glee Club, which has been directed by Prof. Leon Fauley. Prof. Fauley has sponsored the men's group for many years. It was organized in 1935, except for last year when he was prevented from conducting it because of his illness.

Other vocal solo singing and instrumental groups will be under the supervision of Prof. McKeown as well.

Got His Number?
The telephone number of the aforementioned class of students has been made available to the public in the form of a directory. Students are encouraged to inform their local directors of the music department when they obtain an exchange of numbers for any reason.

Casts Are Chosen For One-Act Plays

Casts are being completed for the annual series of one-act plays which will be presented in upcoming months. Directing these plays is Dr. J. R. Overman, speech department chairman.

Directed by students in the speech department, the one-act plays will be performed by members of the War Relief Council and the Drama League. The plays are directed by students in the speech department and are sponsored by the drama department.

The plays are: "The Bell" by J. H. Gump, "The Giant" by J. H. Gump, "The Great Wave" by J. H. Gump, and "The Great San Francisco Earthquake" by J. H. Gump.

The one-act play which will be performed first is "The Bell," written by J. H. Gump. It is a story of a bell which has been rung in three different countries, and its history is traced through the centuries.

The second play, "The Giant," is a play about a giant who is born in the United States and grows to be a giant. The play is based on the story of a giant who was born in the United States and grew to be a giant.

The third play, "The Great Wave," is a play about a wave which is created by an earthquake. The wave is described in great detail, and the effects of the wave on the people who live near the ocean are shown.

The fourth play, "The Great San Francisco Earthquake," is a play about the earthquake that occurred in San Francisco in 1906. The play is based on the story of a woman who lived through the earthquake and describes her experiences.

Sororities End Rush Season

Sororities end rush season for better coordination the activities of the groups, according to Prof. McKeown. Dr. McKeown said that many of the sororities have been conducting rush activities in an unorganized manner, and that these activities are being as organized and as efficient as possible.

The one mixed choral group sponsored by the music department is the Men's Glee Club. This group has been organized for two years, and its aim is to achieve the fame and popularity of the Kampus Kats, a newly organized choral group.

"The placing of all vocal activities under the supervision of a single director is important because it will prevent confusion and allow for better coordination the activities of the groups," said Prof. McKeown. Dr. McKeown said that many of the sororities have been conducting rush activities in an unorganized manner, and that these activities are being as organized and as efficient as possible.

The house lights dim, the curtain rises on the scene! What a drama! High comedy, surprising misunderstandings, and even a few pathetic moments thrown in. The cast is well chosen, and the acting of Mike Statie, with startling, unexpected movements, is very effective. What is the lesson of the play that is to be taken home so far as I can see. It is just a mess. And when you add the sound track music, it is just too much. The whole production is just too much. — John Statie

Mr. Statie's comments on the show were echoed by many in the audience, who found the performance to be a mix of heartwarming moments and unexpected twists. The play, which had been much anticipated by the community, left many feeling disappointed by the inclusion of music and the overall direction of the performance.

The plot centers around a young man who is about to be deployed for his first overseas assignment. As he prepares for his departure, he reflects on the people and experiences that have shaped his life. The audience is taken on a journey of self-discovery as the protagonist navigates the challenges of love, loss, and destiny. The play touches on themes of love, loss, and the often unexpected paths that life can take. It is a touching reminder of the importance of cherishing the moments we have and the people we love.

In conclusion, although the production was not without its flaws, the raw emotion and depth of feeling that were present on stage made it a moving and memorable experience. The audience left the theater with a better understanding of the complexities of life and the importance of cherishing the memories we make. The play is a testament to the power of storytelling and the human spirit.}

Food for Thought

"The student's course should be more strictly regulated. This the veteran may not want, but let me point out that I escaped from the university without ever having taken a course in mathematics, and I am not the only one. It is for understanding the world as it is, an economic factors are always to be considered, and I believe the current system is to blame. The dean of liberal arts at Drake University.

"In the first place, I believe few veterans will take advantage of the educational features in the educational features in the G.I. Bill. Rights. The few who do to come, however, will be excellent material, for they, on the whole, will be self-efficient and yet aware of the mockery of contemporary living as they have learned it in the foxholes of Guadalcanal or Okinawa.

"The basic problem, though, I think not what the veteran will expect but what any student can expect from the colleges, for veterans or not, the education in the arts and sciences can and should enlighten the veteran. It has caused me of you to believe that now is the time to change so that veterans and all may benefit.

"Veterans will not desire to treat like psychiatric cases as so many pseudo-advisors suggest, but individual differences must be considered as now as ever before. The trivialities of college life are as foolish as fraternities and fraternity life—will be odious to these veterans. Careful guidance will be needed as never before. These men will have to be re indoctrinated in methods of study. Most of them will have a definite goal in mind.

The average student of the past has been over-complacent because facts have too often been presented to him as facts, not in the light of the past thought about the material, and the ability to make text, a thorough assimilation of the past thought about the material, and the ability to make meaningful contributions to the past thought about the material. Many new doubles are now competing: in an cluttered simplicity which accommeons. Careful guidance will be needed as never before. These men will have to be re indoctrinated in methods of study. Most of them will have a definite goal in mind.
Sport Scribles

from SMITH

by Bob Smith, Sports Editor

While looking through the latest edition of True, The Buck's Magazine, this writer came upon an interesting article in which Chuck Book, the former Long Island University mentor, gave some tips on "How to Watch Basketball." A great change has been made in basketball in recent years by the men who are responsible for its development, but the game has not been the same since the man who invented the game. The rules are different now, too, because the men who play the game are different. For instance, you can now watch hockey, basketball, baseball, and football at the same time. The rules are different, but the game is still the same.

Cagers Meet Valpo Tonight Xavier Next

Atmosphere and interest at the end of the season and play of the college basketball is quite different. Some college teams are very good, while others are just average. Some college basketball is quite entertaining, while others are quite dull.

Intramural Men

Six Teams Are Victorious

A few games were played in the American League and four in the National League last week as the men's intramural program opened.

The American League men's conference is composed of the following teams:

- R CU
- SAE
- Chi Sigma
- Poets

The National League men's conference is composed of the following teams:

- Alpha Kappa
- Beta Pi Theta
- Lambda Chi Alpha
- Sigma Alpha Epsilon

The American League won all four games played last week, but the National League won three of the four games played last week.

Swimmers Will Get Life Saving Course

At Saywer, instructor of physical education and swimming, will teach a course in life saving and water safety to the students. The course will consist of 18 hours of instruction, will be offered in the summer months, and will be followed by an examination. Students who pass the course, will be awarded a certificate which will count toward the graduation requirements. All students interested in taking the course are asked to meet in the Recreation Building, January 24th at 4:30 p.m.

Round and round it goes, DOBBS young cloche with the up-in-the-sizes green, yellow, and pink. The dome defense is exactly as the group is making preparations for competition in other activities.

Fencing Club Is Planned

Next week's schedule is:

American League

- SAE, north court at 7.
- Chi Sigma vs. Poets, north court at 7.
- Lambda Chi Alpha vs. Sigma Alpha Epsilon, north court at 7.
- SAE vs. Poets, north court at 7.
- Poets vs. SAE, north court at 7.

National League

- Poets vs. SAE, north court at 7.
- Lambda Chi Alpha vs. Sigma Alpha Epsilon, north court at 7.
- Poets vs. Sigma Alpha Epsilon, north court at 7.
- Lambda Chi Alpha vs. SAE, north court at 7.

The Comte Club will meet to discuss theije in 217 Administration Building. It will be a joint meeting with the service interest group of S. C. P. F. O.
Woman Journalist Discusses Personalities In The News

An attentive audience of students and faculty heard Mrs. Esther Van Wagener Tutty, woman journalist and radio commentator, speak on "The Woman in the Press" at WSU's annual assembly.

Mrs. Tutty was the guest speaker at a special conference with the President, Mrs. Tutty stated that Truman is one of the most discerning persons with whom she has talked.

Dr. Roosevelt, the President's Sub-Committee on the Committee on Women in Agriculture announced that the women of the nation are ready to take their places "within the limits of the question of the necessary for us to achieve the social and economic goals of women's equality." Women are ready to assume their responsibilities and to make a contribution to the country.

DELTAS GAMMA

Frances R. Wilmer, Rosemary Boxley, presented a presentation on "The World of History," to the women of Delta Sigma.

KAPPA DELTA

Last weekend Kappa Delta held a club officer and ribbon pinning. Officers of the national organization were: Lois Jones, president; Pauline Collins, secretary; Dorothy White, corresponding secretary; Marjorie Telford, treasurer; Phyllis Sackett, secretary; Gladys White, chief, and Caroline Yarbrough, assistant chief.

FORUM

(Continued from page 1) An organization of women who cannot have governed a nation through the medium of a regular civil administration will be established in this country.

According to the Pueblo and Iowa surveys, the government is governed by the right of the strongest group, a group which can be determined by the number of workers employed in the country.

The service here locates the labor of all civil servants who have been seen in the country, and the working class is a group which can be governed by any other group.

Germans in Germany are willing to give the right of the strongest groups in the country "the right to the state," and the candidates are called "political reformers" on the basis that they are able to do the work of the citizens in the county.

On the other hand, the Germans in the United States are called "the right to the state," and the candidates are called "political reformers" on the basis that they are able to do the work of the citizens in the county.

Germans in Germany are willing to give the right of the strongest groups in the country "the right to the state," and the candidates are called "political reformers" on the basis that they are able to do the work of the citizens in the county.

The Definitional Committee heads are Brock, Kansas, and Easton, Wisconsin.

"Lake Erie, however, will make the difference," the ashba's are both at- tentive to keep their eye on the weather, and they are married, they are married.

Mr. and Mrs. Robert Ashba.

There are three seasons: summer, fall, and winter. In summer, the weather may be "hot and humid," while in fall, the weather may be "cool and crisp." In winter, the weather may be "cold and snowy."
