The Board of Trustees approved personnel budget recommendations for 1985-86 totaling approximately $35.6 million during its meeting Friday, Jan. 18.

The recommendations, completed at an early January meeting of the board, are based on budget planning and recruitment of new faculty and staff, authorize expenditure in 1985-86 of $35.6 million for faculty and administrative staff and an additional $11

The University has received state subsidies for the 1984-85 academic year totaling $42,046,212. President Olscamp announced the allocation, which is about $841,000 higher than projected last June. The budget, as approved, is $3,000 below projections because of a decrease in enrollment.

Richard Eakin, vice president for planning and budgeting, said the $841,000 "surplus" will be used to fund a variety of expenditures this year. About $179,000 will pay for the fringe benefits in the coming year. Because of an administrative error, contract staff had not been paying the cost of their individual or family major medical health care coverage for the past several years. This year, when the error was detected, the University opted to assume that benefit for employees at a cost of about $179,000.

Dr. Eakin said approximately $125,000 of the subsidy "surplus" also will be used to fund some of the construction and equipment costs associated with the renovation of West Hall. The state's cap is $15.5 million for that project. Short of the actual costs involved, he said, application may be made to cover the difference. Although salary savings be used to fund a variety of programs this year, when the error was detected, the University opted to assume that benefit for employees at a cost of about $179,000.

Tuition raffle tickets on sale Feb. 4-18

The University Honors Student Association (SHA) is sponsoring its third annual Tuition Raffle this semester. Tickets for the raffle will be sold Feb. 4-18 and will be purchased by any Honors student or in the program office, 231 Administration Bldg. The cost is $1 per ticket, six tickets for $5.

Proceeds from the first raffle in 1983 were used to establish the J. Robert Bashore Scholarship Fund as a tribute to Bob Bashore, emeritus, English, who taught for 35 years and directed the current Honors Program during the first three years of its existence (1978-81). From this fund, SHA awards one scholarship to an incoming student. Money also is set aside each year to build upon the permanent scholarship fund.

The raffle's grand prize is the cash equivalent of one in-state, undergraduate semester's tuition ($3929 this year). All registered Undergraduate students are eligible to win, including graduating seniors, part-time students and graduate students.

Although faculty members are not eligible to win, they can support the raffle by making donations to the scholarship fund or by purchasing tickets in the name of students of their choice. The winning ticket in the 1984 tuition raffle was purchased by a faculty member.

For further information, contact Paul Mauro and Susan Danrow in the Honors Program office, 372-0202.
