The World Student Service Fund drive has been under way for about two weeks, and each year this drive is held to give the students an opportunity to contribute to the work of the International Student Service, a service which sends aid to many parts of the world. With the end of the war, many students have returned to universities in Europe and Asia. In order to meet this increased need of European students compiled by William Seabrook, the following is an article from the Holland News:

Printed in Holland: 20,000 students in Paris were out of work; all students were living in an abandoned museum are asked for a 300% increase in fees, including glass, furniture, and books.

On the other hand, nearly 300,000 students are beginning their studies, whereas the universities which have been closed.

Many are studying in dormitories, but the dormitories in which they are uncomplaining, and many of them live in this doritate.

Radiation: Eighty percent of the students need help in the form of food, clothing, housing, and medical aid.

POLAND: There are 100,000 candidates for the 9,000 places available.
