A Second Glance
Indecent Of Higher Learning
by Larry Kahl and Fred McCand

We (the present writers) are in a position to survey the state of higher education and to discuss some of the situations and problems that arise in this field. It is true that the situation is very complex and filled with many different issues, but it is also true that the overall picture is one of progress and improvement.

Lawrence Kahl, an educational institution writer, has been covering many of these issues and has written extensively on them. He has also been involved in many educational organizations and has made a great contribution to the field.

John Dreyfus's Complaint

That all is not well with the higher learning in America is attested to not only by the current state of affairs, but also by the new law. According to news dispatches during the past week, Southern Illinois University has been included in the list of schools that have indicated an interest in an athletic conference for State Teachers' Colleges of this vicinity.

Seven Teachers' Colleges from Illinois, Indiana, and Ohio have been contacted by Central Michigan, notified Horace Alvis, athletic director of the University, that he was thinking of attending if Bowling Green and Illinois would take part in inter-conference play. According to Alvis, no word has been received from Illinois, but he stated that Bowling Green is expected to express a desire to take part.

Bowling Green wants to become a member of an athletic conference, but it is reported that it has not been able to get on the football field. If Bowling Green won't play, it was reported that the University will not join any conference.

According to Alvis, no word has been received from Bowling Green. If Bowling Green has not expressed a desire to take part, it will be impossible to form a conference. If Bowling Green will, in all probability, it will not be able to get on the football field with the other teams.

The matter will be discussed at a meeting in Toledo before April 1st. If Bowling Green and Illinois won't join, the new group for-merly organized about two weeks ago at a meeting in Toledo before April 1st will be a conference of the State Class A high school bas-keball teams. Each school will have a nucleus of a team, consisting of the best players from the high school in the city.

The Downtown Coaches Association sponsored the third intramural sports tourney opening Monday night in the all-campus tourney Club, attended by members of the Downtown Coaches and the Pennsylvania State College. The tourney was planned to get the students interested in the new intercollegiate sports. The tourney was a success, with over 100 students attending.

The tourney opened with a basketball game between the Delta Chi and Alpha Kappa Alpha teams. The Delta Chi team won, 25-16, in front of a crowd of about 200 students.

The tourney also included a tennis tournament, a track and field meet, and a wrestling tournament.

The Downtown Coaches Association announced the start of a new intercollegiate conference for the State Class A high school basketball teams, with the primary purpose of stimulating intercollegiate sports.
