**Monday, March 22**

- "Current Trends in Women’s Rights," a symposium by Dr. George P. Bressler and Dr. Linda L. McAlister, 4 p.m., Fine Arts Gallery. Free.
- "A Celebration of Women’s Rights," a presentation by Dr. Linda L. McAlister, 4 p.m., Fine Arts Gallery. Free.

**Deadline (extended):** April 15, 1985

**Contact:** Susan Caldwell, the university’s assistant to the dean, (2014), one-year appointment.

**Monday, April 1**

- "A Celebration of Women’s Rights," a presentation by Dr. Linda L. McAlister, 4 p.m., Fine Arts Gallery. Free.

**Admission by donation.**

**Monday, April 8**

- "A Celebration of Women’s Rights," a presentation by Dr. Linda L. McAlister, 4 p.m., Fine Arts Gallery. Free.

**Admission by donation.**

**Monday, April 29**

- "A Celebration of Women’s Rights," a presentation by Dr. Linda L. McAlister, 4 p.m., Fine Arts Gallery. Free.

**Admission by donation.**

**Facilitators sought for freshman program**

The Office of Student Activities and Orientation is seeking staff from the student affairs area and faculty who are interested in serving as orientation representatives during the spring semester of 1985.

Those interested will be paired with students to assist them with their spring orientation and will receive a $90 parking permit as well.

Interested faculty and staff should contact the Office of Student Activities and Orientation, 272-2843.

**Faculty/Staff Positions**

The following faculty positions are available:

- The Chair of the Department of Behavioral Science, $19,000.
- A faculty position in the Department of History, $19,000.
- A faculty position in the Department of History, $19,000.
- A faculty position in the Department of History, $19,000.
- A faculty position in the Department of History, $19,000.
- A faculty position in the Department of History, $19,000.
- A faculty position in the Department of History, $19,000.
- A faculty position in the Department of History, $19,000.

**Publication**

"The Science of Food," a lecture by Professor John K. Smith, Tuesday, April 3, 7:30 p.m., Recreation Center.

**Newsworthy**

- Those interested in serving as orientation representatives during the spring semester of 1985.

- Interested faculty and staff should contact the Office of Student Activities and Orientation, 272-2843.

**Thank you!**

- To those who have contributed to the success of our fundraising efforts.

**Telefunds seeks $40,000 from previous non-donors**

The Office of Development and Alumni Relations recently launched a fund-raising effort to raise an additional $40,000 in contributions from past non-donors. The campaign's goal is to raise $40,000 in private contributions.

Current students will be signing cards urging their fellow students to make a donation of $25, while alumni will receive letters soliciting donations of $50, $100, or $500.

The campaign, which was also launched in March, is expected to bring in $25,000 in contributions from past non-donors.

The campaign is expected to continue until May 15, 1985.
Advisory Council

The University of Maryland, College Park, has received a $65,000 grant from the Rockefeller Foundation to conduct a feasibility study on the creation of a new School of Environment and Sustainability. The study will examine the potential for creating a new school that would bring together faculty from the University’s College of Environmental Science and Technology, College of Liberal Arts and Sciences, and School of Public Policy. The goal is to create a new school that would focus on sustainability and environmental issues at the intersection of science, technology, and policy. The grant will fund a team of researchers who will conduct a comprehensive analysis of the feasibility of creating the new school, including an assessment of the institutional and financial resources needed, as well as an evaluation of the potential partnerships and collaborations. The results of the study will be presented to the University’s Board of Regents in late 2023.
15 years at Bowling Green

Ethics studies and survives, and expands

One of the most important steps in the development of Bowling Green's history has been the establishment of the Michael R. Ferrari Award. The purpose of this award is to recognize a student who has demonstrated excellence in the field of ethics and to provide financial support for their future studies. The selection of the recipient is based on a comprehensive evaluation of their academic achievements and contributions to the community. The award is administered by the United University Staff and is granted annually to a full-time student who is currently enrolled at Bowling Green.

Friend to coordinate new training program

An active program of training and development for Bowling Green staff and faculty was established in 1985. The emphasis on professional development was particularly strong in the late 1980s as the university sought to enhance the quality of instruction and research. The program was designed to help faculty and staff members improve their skills and knowledge, and to foster a culture of continuous improvement. The program was successful in attracting a significant number of participants, who benefited from the wide range of courses and workshops offered. The success of the program reflects the university's commitment to fostering a culture of excellence and innovation.

Undergraduate Council

A proposal to change the name of the College of Technology effective July 1, 1985, was presented at the March 26 meeting of the College's governing body. The proposal was introduced by Dr. Steven B. Kupper, vice president of the College, and was supported by President James E. Schirmer, who noted that the change in name would help to reflect the College's expanding role in the university's academic programs. The proposal was approved by a vote of 10-0, with one abstention, and the new name, College of Technology, was officially adopted.

Lunch, lecture set on liberal arts

Alan Peterson, a speechwriter for the Governor's Office of Communications, will speak to students about the role of the arts in American society. He will present his views on the importance of the arts and the challenges facing the arts community today.

Facility/Staff Positions

The following faculty positions are available:

Appraiser and GIS (Junior/Postgraduate, 30/20, 30/20)

Biology, Bennington College (30/20, 30/20)

Chemistry, Denison University (30/20, 30/20)

Economics, University of Rochester (30/20, 30/20)

Geology, Brown University (30/20, 30/20)

History, University of Chicago (30/20, 30/20)

Law, Stanford University (30/20, 30/20)

Library, Stanford University (30/20, 30/20)

Mathematics, University of California, Berkeley (30/20, 30/20)

Physics, Harvard University (30/20, 30/20)

Psychology, University of California, Los Angeles (30/20, 30/20)

The following administrative staff positions are available:

Director of Admissions, University of Illinois (30/20, 30/20)

**Equi备tment purchases top $1 million in 3 years**

The department of chemistry has been chosen by the American Chemical Society to be the center storage and processing facility for its newly established Project Bodkers. The project is designed to provide a means for individuals and organizations in the United States to donate books and back issues of periodicals in the field of chemistry to colleges in the U.S. and in developing countries where such need exist. The University is interested in exploring opportunities for increasing financial support as well as in finding other sources of support.

The College of Health and Sciences is to receive $51,000 for items ranging from high-quality, newly purchased scientific weights and balances to equipment such as printers, computers, microscopes and other expensive items.

The School of Technology is to receive more than $6,000 for equipment, much of it associated with computer science.

The College and University Libraries and the Office of University Information Services have been awarded $1,000 for equipment, including software.

The College of Engineering and Technology has received a grant of $1,000,000,000 for the purchase of new equipment. The grant is for the purchase of equipment and software for the development of new courses in computer science.

---

**DEC awards grant for research computer**

W. W. Datta, has awarded a grant to the University of Rochester, for a project that will develop a new computer architecture.

The grant is part of a research and education program.

According to Richard此事, computer services, the equipment includes a $2,750,000 computer system that will be used in improving its computer capabilities and in strengthening coursework in that subject.

The equipment includes a VAX 11/785 computer, a 40,000,000,000 microcomputer, and software for the school of computer science. The equipment will be purchased by the College and University Libraries and the Office of University Information Services for the development of new courses in computer science.

The equipment will be used in the school of computer science, the library and the Office of University Information Services for the development of courses in computer science.
