To the editor: 

The University Senate has decided to conduct a series of receptions to introduce the following:

1. Faculty Senate
2. Student Senate
3. Staff Senate
4. Alumni Senate

These receptions will be held on April 30, May 1, and May 2, from 3:30 to 5:30 p.m. in the Senate Room.

Faculty Senate

The Faculty Senate is responsible for the governance of the University and for the promotion of the intellectual and academic welfare of the faculty. The Senate meets monthly to discuss matters of policy and to consider the budget, personnel, and other matters affecting the academic community. The Faculty Senate includes representatives from all departments and schools, as well as faculty members who are elected by their respective units.

Student Senate

The Student Senate is the elected body of the University's undergraduate students. The Senate represents the students' interests and concerns to the University administration and to external bodies. The Senate has the power to pass resolutions, recommend policies, and vote on matters that concern the students.

Staff Senate

The Staff Senate is the elected body of the University's non-teaching staff. The Senate represents the staff's interests and concerns to the University administration and to external bodies. The Senate has the power to pass resolutions, recommend policies, and vote on matters that concern the staff.

Alumni Senate

The Alumni Senate is the elected body of the University's graduates. The Senate represents the alumni's interests and concerns to the University administration and to external bodies. The Senate has the power to pass resolutions, recommend policies, and vote on matters that concern the alumni.

Scott Hamilton to receive award

Scott Hamilton, the gold medalist in figure skating, will receive a special award at a dinner on April 10. The “Hockey Alumni Award” is presented annually to a hockey player who has made significant contributions to the sport. Scott Hamilton is a five-time Olympic medalist and has won six world championships. The award ceremony will be held at the Alumni Center on April 10, at 7:00 p.m.

Computer Bits

University Computer Services will offer seminars on graphics and on computer science in the near future. The seminars will be held in the University Computer Center, and the dates will be announced soon.

The editors welcome your comments on the above articles and will print them in the next issue. Please send your comments to the editor, The University Times, 123 University Ave., Athens, OH 45701.
REDS FOR SALE. The annual Charlie Reed Red Auction has been scheduled Wednesday, April 4.

This year, more than 70 tickets, in addition to a multitude of other items, will be placed on the auction block. All items have been collected in the department of public safety's "cash bail." The auction will begin at 3:30 p.m. in the Forum of Simmons Hall. All proceeds are donated to local and national charities.

COMMEMORATION ORDERS DUE. Orders for commemorative medals for the Quad may be made now at the Campus Center. Orders may be placed in the bookstore by May 26.

The medals are free and open to representatives from all University groups. No advance registration is required.

**Tornado Season Arrives**

A new form of alerting the campus community to spring weather emergencies has been implemented by the department of public safety.

When a tornado watch or severe storm watch is issued by the National Weather Service during regular business hours (8 a.m. to 9 p.m.), public safety will initiate calls to all building positions where staff will be asked to begin the chain of telephone calls within their respective buildings. The issuance of a storm “watch” means only that conditions for severe weather exist.

In the event of a tornado warning, which indicates that a tornado has actually been sighted, there will be announced and personnel should respond according to instructions which are posted at all buildings.

Between 5 p.m. and 8 a.m., at the discretion of the director of public safety, including the drivers of the campus emergency vehicles, will be dispatched to all residence halls, Student Recreation Center, for evacuation should a tornado occur.

Bowling Green State University

April 15, 1985

**Students**

**from elementary schools throughout northwest Ohio have been frequent visitors to the planetarium in the Physical Sciences Laboratory Building this spring. The students are treated to a planetarium show and general discussion of astronomy by Dale Smith, planetarium director, who is shown directing students into a model of the solar system.**

---

**Multicultural Education**

Research is breaking down cultural barriers

Social and psychological beliefs that human beings are about 90 percent alike and only 10 percent different are being challenged by research on cultural diversity. Dr. Susan Caldwell, a professor of psychology, maintains that the only difference of higher significance is that people tend to focus on differences rather than similarities in social and cultural contexts. Dr. Caldwell and Dr. Joseph Stone have been researching the multicultural phenomenon for several years.

The second of a series of multicultural education workshops planned by Dr. Smith and Dr. Stone will be held April 18, 1985. Also, reference librarian (humanities) position is available: BGSU Graduate Library Services, 7:30 a.m., Math-Bldg. Admission by donation.

---

**Waltz D. Stone, Graduate College, maintains that the small number of Hispanic students both in the United States and internationally.

The multicultural education workshops will give the opportunity for individuals to experience an awareness of the multicultural phenomenon.**

---

**Dr. Stone notes that he and Dr. Smith's research on multicultural education has focused on counseling, career development interventions and ethnic minority communities.**

---

**Dr. Stone**

is a veteran of the plant operations and maintenance staff, retired from the University of March 30. He is an expert in the area of space travel, and is known for his expertise in the area of space travel. Dr. Stone's research has been funded by the National Aeronautics and Space Administration (NASA) and the National Science Foundation (NSF).
