Vets Hold Their Own

Don't sell the U.S. short on Schroeder ability—even though the team is playing close to the basement in the conference for the last few years.

A survey conducted in the Men's College of the University of Rochester shows that the GIs, despite some nagging in some educational circles over their ability to conform to academic standards, are students, are doing all right. In fact, the veterans are doing a better job in their studies than the non-veterans.

An analysis of mid-term grades at the Men's College shows that out of a sample group of 121 veterans covered in the survey only 6.8% are doing unsatisfactory work, which is less than the proportion of 7.5% at a similar time last year. Of the 11.2% of veterans who had excellent grades at mid-year, 9.9% had continued to do well, and 1.3% had continued to do poorly.

By comparison, a representative group of non-veterans in the same mid-term period showed 10.5% of them doing poorly.

Veterans show up even better when compared with a typical pre-war group. Grade point average of 1.40 for veterans as compared with 1.33 for non-veterans.

“Study, Don’t Cram”

Final examinations seem to be a necessary part of college routine. But are they so important that a full week must be set aside for them? If classes were held as usual until the end of the quarter, having an examination during the last week would be unnecessary. A comprehensive review could be held on a Saturday afternoon, thus providing students with an additional week to prepare for the examinations.

by Bob Smith, Sports Editor

Coach Joe Glander is issuing a call for more track candidates. At least 70 athletes are now working out daily in preparation for the season opener May 1 at Allen Fieldhouse, and plenty are opportunities on the squad.

There are several men who have had considerable track experience but who have not indicated a desire to compete in the upcoming season. It is the policy of Coach Glander to give every interested athlete an opportunity to make himself feel at home on the track.

‘Jumping Man’

Mickey Owen, the former record holder who “jumped” in the Missouri Basketball League and all indications point to a successful season next fall.

Mute, assistant professor of business education, has nothing on Dr. Paul Kessel’s plan for an independent squad will be given an opportunity to compete for all-Ohio fullback in 1941, and many of the squad are "more pessimistic than usual" this year. But from all indications the team is ready for the opening meet at Toledo University on the local circuit.

Injuries hit squad during the past week’s workouts. Doyle Smith, a dash man, pulled a leg muscle; the last meeting April 10.

Coach Glander believes several of his trackmen in the ved’rox and should provide stiff competition for all opponents. One of the winning entries.

Nothing Fancy About Weiling’s Pit-Ups; He Clips Falcons

by Jim Linnebach

If there’s anything you would like to know about the Falcon caps, Nick Weiling is the man to tell you. Two years ago, Nick, a junior from Ft. Wayne, Ind., realizing in physical education, started his unusual hobby of keeping a record of all the games the Falcons have played in the last two years. He began saving clippings of the Falcons’ triumphs and has been taking up the wall in his room in the PIKE house, the most recently known as "The Passion Pit."
