Outstanding Juniors' to be honored April 15

Northwest Ohio's most outstanding high school juniors will be honored April 15 during an annual ceremony sponsored by the BGSU Alumni Association and the BGSU Student Senate.

A total of 196 juniors from 104 high schools representing a Northwest Ohio high school, have been selected to receive the Northwest Ohio Senior Scholarship at the banquet — one a full-tuition award and one a half-tuition award. In addition, every other student in attendance at the day's event will be presented with a small cash check and other special gifts, including a T-shirt, poster and a video of the event.

At 11:30 a.m., the banquet will be held in the Alumni Memorial Hall. At noon, the ceremony will begin. The afternoon will be reserved for the students and their guests to attend a tour of campus.

Dinner scheduled for International Week

"Peace Through Understanding" is the theme for the annual Northwest International Week being held on campus this week (April 10-16).

Co-sponsored by the World Student Association in conjunction with the Student Senate and the University's Board of Regents, the week will feature panel discussions on world affairs and the traditional international dinner.

The dinner is scheduled at 7 p.m. Thursday, April 11 in St. Mary's Student Center.

The menu will include Latin American, Mexican, Pacific Rim, African and European cuisine as well as samples of Polish, Hungarian and Mediterranean dishes.

Tickets for the dinner, priced at 55 cents each, may be purchased at the Student Center or at the Union Information Center for International Programs, 1985 Union Center.

Deaths

H. Glennon Steele

H. Glennon Steele, 83, professor emeritus of English, died April 9 in Kosciusko Hospital, M. Verson, while he was visiting relatives.

Steele received his Ph.D. from the University of Virginia in 1946.

Born Dec. 11, 1902, in Williamsburg, Ohio, he was the son of William and Gertrude (MacNair) Steele.

He was associated with the faculty of Mount Union College and the University of Washington before returning to BGSU in 1958, where he served part-time until 1974.

Steele's bachelor's degree is from 1926 from Northwestern University, his master's degree is from the University of Chicago in 1928 and his doctorate is from the University of Washington in 1931.

In 1931, he married the former Jane Egan, who died as well in Kosciusko Hospital.

Steele was a retired member of the Mount Union College faculty.

He was a specialist in creative writing and served on the Board of Education for the Mahoning County School District and the Board of Trustees of the Ohio State University at New Castle.

He was a member of the Ohio State University faculty for 15 years and served as a Dean of Business and Dean of College of Business Administration.

H. Glennon Steele is survived by his daughter, Mrs. Robert Healey of Westmorland; two sons, Stephen Steele of Des Moines, Iowa, and William Steele of New York City; two grandchildren, and one great-grandchild.

Memorial services will be held at 11 a.m. April 18 at Mount Union College.

Funeral services will be held at the University Christian Church, 100 East Temple St., on April 18 at 2 p.m.

Burial will be held at the cemetery of the University Christian Church.

Mr. Steele's family has been asked to share in the memorial service.

datebook

Exhibits

The annual Junior Art Show will be held April 15 through May 2 in the Art Gallery as part of the 35th Annual Student Art Show.

The juried exhibit includes drawings, oil and acrylic paintings, photography, ceramics, glass, fibers, jewelry, sculpture and mixed media, as well as a state-of-the-art display.

The gallery opens at 8:30 a.m. to 5 p.m. weekdays and 8:30 a.m. to 5 p.m. Saturdays and Sundays. Admission is free.

ADVANCED MULTIMATE OFFERED

An ad

vironment will be offered by University Computer Services from 3:30-5:30 p.m. Monday, April 15, in the Library. The seminar will cover networking capabilities, including step by step instructions for connecting your null modem cable, settings for your host computer, and a tour of other special features, including print types, headers and footers and automatic paging.

Springfield students interested in forming an Advanced Multimate Club are encouraged to attend.

Dean, BGSU Board of Trustees

The BGSU Board of Trustees will meet Monday, April 12, during the regular meeting of the Board of Trustees for its biannual meeting.

On the agenda for the Board meeting, a brief program was selected for the Board to attend, which will allow them to receive the WSBO-TV signal.

The program will be presented by Bowling Green to the Board at the University Union Oval. The program will also be shown on the WSBO-TV signal.

The Board will also receive the Board of Trustees for the University's biannual meeting.

Master Teacher's primary goal is helping students to succeed

When Carl Hornberg grades his students' papers, he doesn't mark what's wrong. He marks what's right.

"I don't put a red X or an 'X' after every mistake," Hornberg said. "I store up what they have done correctly and then I tell them what they did wrong.

"I believe my students are capable of solving their own problems, and if they didn't understand the material, they can go back to the class lectures and notes to learn it. It is not my responsibility to counsel them. It is their responsibility to learn the material for themselves.

Hornberg has been a high school science teacher for 15 years, and he is known for his unique teaching method.

"I believe I can make a high school student learn something in a classroom, and, if they don't, I have never taught it before."

Hornberg is a founding member of the National Association of Secondary School Principals and is currently serving as its national president.

"I have been a teacher for 15 years," Hornberg said. "I have seen students learn something in a classroom, but if they don't, I have never taught it before."

Hornberg is known for his unique teaching method, which involves the use of "Jr. Teachers," who are selected from among his students.

hospitality management. The degree requires six 3-credit-hour courses, including a two-credit-hour seminar, which includes a practicum. Students also participate in the student-run Resort Management Program and have the opportunity to gain hands-on experience in the industry.

Technology receives computers for manufacturing research

More than $125,400 in computers was recently approved by the Board of Trustees for the School of Technology at Richland.

The equipment was acquired through a grant from the National Science Foundation for a project titled "New Technologies for Manufacturing." The project, led by Dr. Robert H. Faust, associate professor of technology, aims to develop new technologies for manufacturing processes, focusing on computer-aided design and manufacturing.

Faculty and Staff

Recognitions

The Board of Trustees approved the appointment of several faculty members to new positions and ranks.

Undergraduate Council

The Board of Trustees approved changes to the undergraduate requirements, including the addition of a new course in the Department of Biology.

Graduate Council

The Board of Trustees approved the establishment of a new graduate program in the Department of Psychology.

A&S college seeks new dean

The College of Arts and Sciences is conducting a national search for a new dean, following the retirement of the current dean last year.

Richard Hebeln, associate dean for development, will serve as interim dean until a new dean is appointed.

Faculty Senate

The Faculty Senate approved several changes to the university's policies and procedures, including the establishment of a new committee to examine the use of technology in the classroom.

Senate also approved amendments to the university's academic calendar, including the addition of a new semester to accommodate the needs of international students.

The Board of Trustees also approved the establishment of a new center for the study of technology, which will be housed in the College of Arts and Sciences.

Technology receives computers for manufacturing research

More than $125,000 in computers has been received by the College of Science and Technology for the School of Manufacturing Engineering. The grant will be used to purchase computers for the school's computer laboratory.

The equipment is being used to support the school's manufacturing engineering courses, which are offered in the College of Science and Technology.

The grant is part of a larger initiative by the University of Pennsylvania to increase computer usage in its undergraduate and graduate programs. The university has received over $1 million in grants for computer-related projects this year.

The grant will be used to purchase computers for the school's computer laboratory, which will be used to support the school's manufacturing engineering courses, which are offered in the College of Science and Technology. The laboratory is one of the largest in the country and is used by students and faculty members from across the campus.

University Computer Services will host its fourth annual Microcomputer Awareness Day Wednesday (April 23) in the Computer Science building's Room 336. The event will begin at 10 a.m. and continue through 3 p.m. Attendance is free. The university computer services are located in the Computer Science building on 16th St., Room 328.

Exhibits
The annual spring Bahamas undergraduate art student show will be held Tuesday, April 28, from 9 a.m. to 9 p.m. The exhibit will be held in the Multipurpose Room of the Student Union building. The exhibit will include works of art by student artists and art students from the Bahamas. The exhibit will be open to the public free of charge.

Free professional development workshops will be held Monday, April 27, from 10 a.m. to 2 p.m. at the University Center. The workshops will cover topics such as resume writing and interviewing strategies. The workshops will be taught by experienced professionals and will be free to attend.

Free counseling services will be available at the Health Services Center on Tuesday, April 28, from 9 a.m. to 5 p.m. Counseling services are provided by licensed professionals and are free to all students. The counseling center is located in the University Center.

University Library will host its annual Spring Book Sale on Wednesday, April 29, from 9 a.m. to 5 p.m. The sale will feature a wide selection of books, including fiction, non-fiction, and reference books. The sale will be held in the University Center.

The university will host a spring concert on Thursday, April 30, at 7 p.m. in the Recital Hall. The concert will feature a variety of musical performances, including classical, contemporary, and jazz music. The concert is free to attend and will be held in the University Center.
