Outstanding Juniors’ to be honored April 15

Northwest Ohio’s most outstanding high school seniors will be honored April 15 during a luncheon at the University of Findlay’s Lenhart Grand Ballroom.

School Junior Awards program.

A total of 119 juniors representing a northwest Ohio high school, have been selected as recipients of scholarships at the banquet—one a full-time award and one a half-fee grant. In addition, every other student in attendance will receive an envelope of the decal chosen by WBGU-TV, which will mean a $1500 tuition.

Dinner scheduled for International Week

“Peace Through Understanding” is the theme of the University’s International Week being held on campus this week (April 14-18).

Co-sponsored by the World Student Association in conjunction with other University groups, the series of events, the week will feature panel discussions on world affairs and the traditional international dinner. The dinner is scheduled at 7 p.m. Thursday (April 15) in St. Anthony Dining Hall. The menu will include Latin American, African and European cuisine as well as several University affiliates.

Tickets for the dinner, priced at $5 each may be purchased at the Student Center or University Union for International Programs, 16th Hall.

Dean’s Visitation Day

His Excellency, Mr. W.J. Snippe, the Dutch ambassadore professor emeritus of English, died April 5 in Knox Community Hospital, M. Vernon, while he was visiting relatives.

H. Glennon Steele, Jr.

H. Glennon Steele, Jr., associate professor of English, was named visiting professor at the University of Guelph, Ontario, Canada.

Oldest child of the family, Mr. Steele’s bachelor degree in 1932 from Northwestern University, Evanston, Illinois, and his master’s degree from Loyola University, Chicago, in 1936.

Board of Trustees

Dr. Carl Spangler, chairman of the Board of Trustees, announced that the Board is preparing for its next meeting in Bowling Green next fall, compared to that held last fall. That policy was drafted by the trustees discussed last fall. A bill was approved for tenure and promotion to assistant professor was made public at that time.

Faculty Senate

Richard Hebeln, romance professor from the department of theater; transfer of funds to the college classroom. While at Bowling Green in a rotten way, the student’s inclination was to teach high school algebra. The student was elected to the house of representatives at Fitz. Hebeln’s term will be a period of years.

Hebeln’s term will be a period of years.

Undergraduate Council

The Student Council met at its meeting in the Capital Room of the University Union and discussed the idea of a new program that would allow students to transfer from the University to another college. The program was approved by the Board of Trustees.

The awards are presented to new members of the undergraduate council from each college based on student presentations, research, and critical review by a USG committee.

A 1972 graduate of Bowling Green with a major in English, Pratt’s first book, "Just Right," was published last fall. University officials, however, began to express concern that the student was not teaching at the college level, and when she graduated, she began to acquire the experience she believes is essential to being a good college teacher. She was working in a variety of public relations jobs for television stations and radio stations.

A&S college seeks new dean

The College of Arts and Sciences is seeking a new dean to replace Dr. James Swanson, who is leaving for a position at the University of Notre Dame. The new dean will be responsible for overseeing the college's academic programs and budget. The position is currently held by Dr. David Stine, who has been serving as the interim dean since 2005.

Faculty & Staff

Recognitions

Sooja Kim, a faculty member in the College of Arts and Sciences, has been awarded a research grant for her work on the development of a new teaching methodology. The grant will allow her to continue her research and publish her findings.

Undergraduate Council

The Undergraduate Council will meet at 2:30 p.m. on Thursday, April 19, in the Capstone Room of the University Union. The council will discuss a range of issues, including the budget for the upcoming academic year, the composition of the Undergraduate Council, and the future of extracurricular activities.

Award-winning teacher loved school, profession

This is the annual series of stories on recipients of the Undergraduate Council's Outstanding Faculty Member award. This year, the award was given to David Wagner, associate professor of technology.

"If I could change one thing about my job, it would be that I have more time to interact with the students," Wagner said. "I love seeing their progress and how they grow as professionals." Wagner has been teaching at the University of New Mexico for 15 years and has received numerous awards for his teaching and research.

Videotape teaches use of MultiMate

A videotape, "Introduction to the MultiMate," was recently produced by the Department of English. The tape, which is designed to teach students how to use the MultiMate software package, is available for free from the Department of English.

Public safety dept. sponsors security equipment

The police division of the University of New Mexico is sponsoring a security equipment demonstration. The event, which is scheduled for Thursday, April 26, in the Capstone Room of the University Union, will feature a demonstration of the new security equipment.

COLUMBUS DEPARTMENTS

Dr. Olespens reported that $500,000 of the $500,000 gift from the Columbus Foundation for digitization of the Columbus News archive has been used. The News archive is available online at the university's website. The remaining $500,000 will be used for additional digitization projects.
GOT A MESSAGE? The athletic department's electronic message board is now available for use by campus organizations wishing to promote a nonprofit event.

There is no charge for use of the board. All messages must be submitted in writing at least 10 days prior to the posting of the message. Messages must be limited to a maximum of 75 characters, including spaces.

CLUB MEMBERSHIP DRIVE REGIONS. The athletic department encourages the right to reject or accept any and all advertising and to control availability of display space.

For further information, contact Jim Traeger, athletic promotions, 272-2617.

Mark Twain's famous line "A lie can travel half way around the world while the truth is putting on its shoes." is disturbingly apropos of the saga that is unfolding at ARCO. Indeed, anyone who has even casually followed the saga of the proposed installation of satellite dish antennas on the roof of the student union at the University of California at Davis finds there is much of which to be ashamed.

In an unusual move in itself, the chancellor's office recently decided to allow representatives of ARCO to place satellite dishes on the roof of the student union. ARCO had offered to install the dishes, which would allow those on campus to receive and watch a variety of TV programs and perhaps even use the dishes for Internet access. Davis Daily Times writer Scott D'Ambrosio recently quoted ARCO's spokesman Mark Baldwin as saying "We have offered to make the installation and operate the system and it is up to the university to accept or reject our offer." module 1

Problem Davis Daily Times reporter D'Ambrosio in a long article on this issue in the April 15 edition of the Daily Times quoted another ARCO spokesman, Tom Taylor, as saying "We have offered to construct the Antenna Based System and the University can refuse our offer if they choose to do so."

Modem Dish Antennas That's the bottom line, yet the chancellor's office with the help of Chancellor William Powers, Jr. has decided on the installation. To date, the chancellor has refused to release a statement regarding the installation and has chosen to keep the problem under wraps. If anyone were to laugh at this situation, it would be the Chancellor himself. As the former University of California at Santa Barbara chancellor, he should have learned a thing or two about the problems of the satellite dish.

In Santa Barbara, an actual, working dish was installed on the roof of the student union. In fact, the student union in Santa Barbara was constructed around the satellite dish. Even so, it took the entire student body to organize and convince the chancellor to remove the thing. It took the entire student body at UC Santa Barbara for the chancellor to remove a satellite dish that was on the roof of the student union in that case. As far as I know, the chancellor has never had to eat crow for installing a satellite dish on the roof of the student union again. It is as if he wants to be reminded of the Medici circle all the time.

The chancellor has always been quick to blame the students for everything. And it is true, the students could have used the student union. But to have the chancellor blame the students for everything is a bit much.

I hope the chancellor is reading this article. I hope he is reading it. I hope he is thinking about it. And I hope he is saying, "You know, I'm going to make sure this doesn't happen again."
