Benefit Variety Show Will Be November 7-9

As a benefit to the Clayton K. Kohl Memorial Scholarship Fund the Variety Association of Bowling Green State University will present a Variety Show November 7-9. Sponsored by the Vets the show will be in the auditorium and proceeds of all performances will be donated to the scholarship fund. Ad admission will be charged and all seats will be reserved.

The presentation of "Legs Up" is a dream fancied by students and alumni. The result of their drinking a very potent mixture of Bessie and Jello is an event which are unknown. The show will be a benefit for the College of Education. Lighting effects and a fast made of antics by the educators from various parts of the state will show dance routines. The show will include comedians, dance routines, singers, and miscellaneous arts.

Examples of the type of numbers include "Adagio" by Doreen Stouffer and "Humoresque" by Dave Thompson and George McCloy. Others will be directed by Dame Margaret Cox. In both musical numbers, Barry Menagh has been appointed as director. The conductor will be Dr. Ken Jones and stage production will be handled by Ruth Kestnol. Byron Pelew will be in charge of lighting.

Tickets will go on sale on November 2nd. They may be purchased at the times listed below:

Amateur Star Gazer's Job: Count The Falling Meteors

by Margaret Finnay

Shooting stars, not the moon, are the fascination for campus astronomers this year.
Dr. Clare Bennett of the biology department suggests that students combine business with pleasure and count the meteors as they streak through the sky tomorrow night from 7 p.m. till 2 a.m.

The annual sky show is the result of the earth's passage close to the orbit of the meteor stream originating from comet Gla-\n
colin-Zinner.
The spectacle began last night but the maximum shower has been predicted to last till 4:30 a.m. The International Met-\n
teroid Organization suggests that this show is mote extraordinary than the meteor showers in many of the past years. But again the fellows cooperate.

To be forewarned, you will be able to count. Groups as high as six meteors per second were reported from the night of October 9, 1939, when the Glor-\n
eous comet had just passed the earth's orbit. At that time the earth was far from all lights as possible, in order that the display will be the most spectacular of the year.

In the beginning of the evening try to shade your face. At that time the earth's passage close to earth's orbit.

Kendall Program Friday Marks Decade of Recitals

An original composition, "One Spring Day," is included on the program for the Kendall recital, which the student is scheduled to play in his tenth annual faculty recital at 8:15 p.m. Friday in the State University Auditorium. There will be no charge for the public.

The program includes two works by Bach, a Beethoven sonata, and an "Incantation," an improvisation from the pen of Brahms. With his recent appointment as professor of music, Mr. Kendall has scheduled "The Young Pioneer," "The Knight," "The Traveller," "Old Soldiers," and "Marko" by Franke.

Mr. Kendall will conclude the program with a well-known quartet by Beethoven. He has appeared in recitals in New York City, Chicago, Los Angeles, Cleveland, and other major cities.

Sigma Alpha Epilson, of which Dr. Kendall is a member, will usher.

Versatile Activities

The music professor has written symphonies, songs, choral music and chamber music. His "Symphonic Poem for Piano and Orchestra" was awarded first prize in the National Competition Contest in 1941. In playing the Beethoven piano work, he teaches, arranges, composes, and directs music. This year he is conducting all the activities in the music department.

At the joining of the Beulah Greek family in 1938, he taught music at the University of Iowa. He also has had experience in the Southern California and the Maywood High School in Los Angeles, England.

The Gold...the world's most wanted pen

Writs dry with wet ink!

With note of people Parker "51" is the most wanted pen among American pen dealers, by a margin of 3.7/1. It earned the most-wanted pen. More than the other leading pens.

Yet more than 50% are said to be on the market. The "51" starts writing instantly. For the tip in a ball of micro-smooth Omnium. Only the "51" is designed to write satisfactorily with Parker "51" Ink that dries as it is used. The "51" has a feature that no other pen has. The "51"s pen point is the correct size. It never leaves a blot. Parker 51 Ink always dries instantly. It is the"51" - the world's most wanted pen.
