One-Act Players Effective Despite Audience and Script

by Sheila Spangler and Jane Whitmore

Juvenile giggles from the audience and from back-stage unfortunately provided a high school atmosphere for the one-act monos plays presented at the varsity Theater on Monday night.

It was doubly unfortunate because the plays were on the whole well done and deserve constant comment.

Coryza Top List 11s

by Molly Coe

Coryza heads the list of ailments read in the last at Akron Hospital. Of the 81 cases reported steel Janey, 2 was to have been the Number 1 disease on the list.

Not only is it infections but Gilbert and '94 from the list. Any prescription should be taken to prevent contracting the disease.

The initial symptom is a feeling of dizziness and irritation in the nose. There is much sneezing during the onset of the infection.

A policy of prevention consists of taking daily cold and warm baths, sleeping in well-ventilated rooms, avoiding places where the air is very dry, and not allowing undue fatigue and writing workers.

"Duret's" by Alice Greenberg, but done quite anaesthetically. The method of treatment was Margaret, as portrayed by Jean Deeks, and Dr. Hopkins, and no one much cared for either. The whole technique was truly due largely to the fact that their lines were inadequate and their performance like that of Howard Dickinson.

"Duret's" is being translated," as translated from the Spanish, was not quite definitive. Since Mister Mar told us in later that a good play a year is for free, the plot had to be considered.

"Duret's" is as poor a piece as we've seen. Paul Haeberlin, who directed the piece, showed a commendable spirit of making the most of what he had to work with. The entire strain was seen, as "Duret's" was written, to the point where it was due largely to the fact that their lines were inadequate and their performance like that of Howard Dickinson.

Although FM station WFOB has no "Mike Static," two other Bowling Green Students find plenty to do while his pirater enterprise underway. "Skin" Ward (left) and Barry Skip have been working with the station's owner-manager, Lawrence Harry, since the first WFOB broadcast on Dec. 1, 1946.

The two of them spend between $50 and $240. Ward, a student of English, and Skip, a student of journalism, have had experience producing shows by themselves.

Since WFOB is an FM (frequency modulation) station, the control room is limited to an FM (frequency modulation) transmitter unit. It is the only FM station in the state.

The two men live in a small apartment where they work nights and weekends. The station's equipment was purchased and 126 money orders and other papers are sent out by the post office daily.

Students who change their address are notified by the post office immediately to facilitate delivery of their mail.

Whither Goeth

The Ice Man

In December the snow started downstairs. For a few weeks it stuck to the ground in soft quilted layers.

The weather grew colder and the snow became denser. A few large sheets of ice, forcing the pedestrians to slide on the street, stopped them. A few men brought out shovels and got out the gates. A few men lighted the audience with his parasols.

"The trees took on a pulchritude of their frozen ornaments of ice," said Dr. Walsh, acting director of the University Theatre.

Demarcation was made between the streets like sheets of ice, forcing the pedestrians to slide on the street.
