The Man Behind the Boards Might Really Be a Woman

The Egyptian Scarab

Spots Dean's Tie

Everyday we look at them, everyday we read them. Sometimes we never seem to get all the items on the bulletin boards.

In order to solve the mystery your reporter did some sleuthing and found out about the "man behind the boards."

In some cases, you understand, the man is a woman.

The most popular board in the Well—the one covered with news (clippings)—is known as the "chicken" board. It is covered with news (clippings) of all varieties daily a stack of these clip- pings are usually found in the Well. Those of wider general in- terest are passed on to the Well board which he board.

The rest of the clipings are posted on a bulletin board at the end of the corridor by the journalism office. Anyone interested in these clipings may have them.

All three little white cards on the bulletin board are for his friend, Bishop Bruce B. Baxter, the senior classman, who is the King of Egypt and, as such, sits on the throne of Kings. He is also King of the Well Board, and as such, is known as "King Tut." Tut and his assistants, the scarabs of the Well board, are the most popular among the Well board.

Members of the Restricted Fraternity of Scarabs, founded in the Well board, are expected to be well-versed in the art of the clipping transfer. One experiences that when his clipping is transferred to the Chicago World's Fair in 1933 or when he stopped to admit a dispenser of oriental rugs, the Hindu owner of the rugs, questioned him about the search and asked Dean devey if the king was ready to get rid of it, he'd exchange any rug in her store for his tie.

The rugs were priced from $100 to $500.

The Egyptian scarab is an image of the sacred dung beetle, Scarabaeus, reanimated as a type of a bird which, according to the Egyptians, regarded the beetle as a symbol of resurrection and of immortality and figures of the insects were carved out of stones and used as charms. Usually the heart of a deceased person was removed and in its place was put a scarab. Scarabs have also been used as seals, which is proven by the impressions found in ancient documents of the Middle and New Kingdoms.

Youngest son of victory was again close with all the points leading up to the Middle Kingdom.

FALCONS FACE RUGGED FOES IN WEEKEND COMPETITION

Falcons' golf team visited one of their stiffest tests Friday when they engaged powerful University of Detroit in that city. The U. of D. squad beat Bob Whittaker's lads 66-44 and, like the Bowling Green team, was markedly improved for this season's encounter.

Interesting to note will be the performance of Leroy Granett, former record holder in the javelin throw at Detroit, who will oppose our old mate wearing number 85 from the Falcons' pen.

The Tows are exceptionally rugged. The university holds the annual record of 22.30 in the 200-yard dash and ranks among the best teams in the country in the throwing events.

Whittaker's Falcons' defense is a strong point and if the Falcons are to win, they will have to keep a close watch on the outstanding performers of the Wolverines.

Falcons' representative, Bruce Kistler, was chosen as the most valuable player in the U. of D. contest. The highly regarded junior proved Sanborn was a smart choice.
