In the semester report just released by the bureau, statistics show that 323 interviews were arranged and 221 temporary jobs have been arranged.

Newman Jobs Open

Catholic students interested in working on the various committees of the Newman club are urged to send their names and addresses to Sal Giudice at East hall listing experience and type of work desired.
Delay of the senate and class elections until tomorrow due to inaccurate ballots should result in more valid votes cast. Each voter should familiarize himself with the candidates and with the preferential type of ballot which will be used. Once understood the use of a preferential ballot is hardly more difficult than just marking an "X"—and as an expression of the voter's choice it is far superior. He merely marks figures 1, 2, 3, and so on for his first, second, and third choices for the contest.

If the candidate a voter has chosen first has too few votes to stay in the race, his ballot continues to his second choice and on up until either one candidate has obtained a majority or the ballot lists no further preferences. A major advantage of this system is that no votes are thrown away and yet chance does not determine the continuation of the ballot in the Hare system from which it is adopted.

To assist the committee tellers, the Senate ought to exercise the power to require aid of campus groups. Of course preferential ballots—the only way to avoid coalitions and obtain majority votes in campus contests—are complicated. But such a group as Pi Sigma Alpha, recently installed political science honorary, should be able to assist the committee of elections in the work required.

Edith Stapleton, song leader of Alpha Gamma Delta sorority, accepts the May Sing cup awarded at the Honors day assembly last week by Glenna Smith, president of Gamma Phi Beta.

Star-Gazer Shares Doctorate Awards
The world's foremost amateur astronomer and a member of the Ohio Supreme court will receive honorary degrees at commencement. The degree of doctor of science in astronomy will go to Leslie G. Petter and the degree of doctor of juridical science to Judge Charles B. Zimmerman.

Mr. Petter has discovered 10 comets and two stars. For each comet he has receiver a Denobos medal from Astronomical Society of the Pacific. The Petter comet for May 14, 1936, is known. Mrs. Petter has made 70,000 observations of variable stars and sends the observations regularly to the Harvard university.

Pet Beau Enlivens Foster Home Life
Smaller than any other pet on campus, "Beau," alumnus Ruth Foster's parakeet, is only the size of a sparrow. His sky blue vest and black and white speckled coat add to his colorful personality.

Just nine months old, Beau is already an established member of the household. He is permitted to frequent any part of the apartment and is a constant visitor. He makes his presence known by flying up on your hair, his way of saying Hello.

To assist the committee tellers, the Senate ought to exercise the power to require aid of campus groups. Of course preferential ballots—the only way to avoid coalitions and obtain majority votes in campus contests—are complicated. But such a group as Pi Sigma Alpha, recently installed political science honorary, should be able to assist the committee of elections in the work required.

**Snafu on Elections**

**Traced to Student Body**

By John Foy and Dick Präs

Some mild excitement has been aroused among the student body because student court action invalidated the elections held last Tuesday. The election was so incompetently handled that it seems as if there was just nothing done right. But there are a lot of extenuating circumstances. Dick Harig, chairman of the elections committee, was already overburdened with too much to do as a senior and senate president and did not get the cooperation from the committee members that he should have gotten. The senate apparently ran up against the same thing that a lot of committee members that he should have gotten. The senate apparently ran up against the same thing that a lot of committee members had been trying to do for too long—nobody was willing to do their share of the work to be done.

Toledo Netters Smash Hopes  
For Final Win To Close Season  

Bee Gee's tennis team tried hard to finish the season with a victory last Saturday but couldn't quite swing it into position, 6-0, before a large and enthusiastic crowd at the Toledo Tennis club squad on the Bowling Green courts.  

But Bailey, Toledo university ace and runner up in the Ohio Conference tennis tournament a week ago, and his two brothers, Paul and Dean, had the situation well in hand most of the afternoon.  

Falcon victories came when Olson won over Dean Bailey, Kerig Vipper to top Paul Bailey and the Conness-Thompson duo defeated Paul Bailey and John Schneider in the double match.

Earlier in the week Coach Clyde Parker's men traveled to Kenyon and suffered an even worse defeat at the hands of the men from Gambier.  

Coach Parker offered no excuses for the poor showing of the team this year.

"Inexperience was the deciding factor in many of our matches," he stated, "We should definitely look forward to next year with only Monroe graduating."
