The Classified Staff Council created eight standing committees as a special meeting June 30 and immediately assigned one to review the organization's by-laws.

The council adopted temporarily the by-laws of the previous council, but members, who were meeting for the first time as an elected body, said they wanted the by-laws examined and brought up-to-date.

Members of the amendments committee, which will be responsible for reviewing the by-laws, will come from the Classified council advisory board, whose members are classified employees designated by the council.

Members said they wanted to participate in council or University committees to develop an understanding of the various Law of the Sea conferences that changed its policy in favor of accepting extended coastal jurisdiction for others as well.

The classified council will include former CSC chairs. There will also be openings to fill on the University standing committees. Members can be any classified employee.

Tsuneo Akaha, political science, has written a detailed study of Japan's reaction to the demise of the traditional ocean regime based on principle of freedom of the seas and its adjustment to the emergence of a new order characterized by national ocean enclosures.

The book, *Japan in Global Ocean Politics*, was jointly published recently by the University of Hawaii Press and the Law of the Sea Institute at the University of Hawaii. It is Dr. Akaha's first book.

The book is intended for graduate students in international politics, particularly those with interest in global management of resources. Dr. Akaha also said the book can be useful for economists, historians, political scientists and those interested in the behavior of nations.

Up through the early 1970s, Japan's traditional maritime interests, particularly shipping and fishing, defined the country's role in global ocean politics. That changed in 1976-77 when Japan changed its policy in favor of accepting extended coastal jurisdiction for others as itself, according to Dr. Akaha.

In the book, he expounds why Japan made that change and describes the process of policy making that took place amid competing domestic and international pressures. Dr. Akaha also looks at Japan's participation in the various Law of the Sea conferences sponsored by the United Nations and how it responded to the basic principle of freedom of the seas.

The book also provides information from Japanese sources that were previously unavailable in English and offers an important perspective on Japan's role, but thought with respect to the Pacific Ocean.

It analyzes Japan's response to what has become an ongoing international debate about ownership and use of the sea.

Classified council creates committees

The Classified Staff Council created eight standing committees as a special meeting June 30 and immediately assigned one to review the organization's by-laws.

The council adopted temporarily the by-laws of the previous council, but members, who were meeting for the first time as an elected body, said they wanted the by-laws examined and brought up-to-date.

Members of the amendments committee, which will be responsible for reviewing the by-laws, will come from the Classified council advisory board, whose members are classified employees designated by the council.

Members said they wanted to participate in council or University committees to develop an understanding of the various Law of the Sea conferences that changed its policy in favor of accepting extended coastal jurisdiction for others as well.

The classified council will include former CSC chairs. There will also be openings to fill on the University standing committees. Members can be any classified employee.

The book also provides information from Japanese sources that were previously unavailable in English and offers an important perspective on Japan's role, but thought with respect to the Pacific Ocean.

It analyzes Japan's response to what has become an ongoing international debate about ownership and use of the sea.

Contact the CSC at P.O. Box 91, University Hall, stating why they think they are not receiving the Monitor.

Council decided to hire a student during the academic year to assist with compiling and distribution of material. A job description will be developed for council approval.

A list of council goals for the 1986-87 year was developed. The list includes: establishing criteria for the CSC scholarship, hiring a student, making an effective committee structure, obtaining fee waivers for dependents of retirees, creating CSC access to all the vice presidents and president, obtaining representation before the Board of Trustees, continuing to monitor part-time benefits and establishing council by-laws.

Council plans to travel to the Firelands College campus on July 23 for its next meeting.

Akaha examines Japan in global ocean politics

National enclosure of the world's oceans is one of the most important global trends to have emerged during the second half of the 20th century.

Awareness of the real and potential value of the ocean and its resources and recognition of the growing scarcity of natural resources on land have prompted nations to claim and exert control over wide areas of previously unclaimed oceans.

Tsuneo Akaha, political science, has written a detailed study of Japan's reaction to the demise of the traditional ocean regime based on principle of freedom of the seas and its adjustment to the emergence of a new order characterized by national ocean enclosures.

The book, *Japan in Global Ocean Politics*, was jointly published recently by the University of Hawaii Press and the Law of the Sea Institute at the University of Hawaii. It is Dr. Akaha's first book.

The book is intended for graduate students in international politics, particularly those with interest in global management of resources. Dr. Akaha also said the book can be useful for economists, historians, political scientists and those interested in the behavior of nations.

The book also provides information from Japanese sources that were previously unavailable in English and offers an important perspective on Japan's role, but thought with respect to the Pacific Ocean.

It analyzes Japan's response to what has become an ongoing international debate about ownership and use of the sea.

Book provides lessons for teachers

Teaching the severely handicapped domestic living skills requires some special understanding and knowledge. A professor and a former assistant professor of special education at the University have written a book that provides useful information to better conduct training programs of people working with the severely handicapped.

The recently released book is intended to provide information necessary for supervisors and teachers who work with the severely handicapped in a residential environment. The book offers practical guidance for creating the most home-like, least restrictive residential settings.

Among the issues discussed in the book are administrative and programmatic matters affecting residential planners, administrators and direct care personnel in their work with the severely handicapped.

According to Dr. Pancsofar, the book was intended to be used not only as a text or a supplement to other texts, but as a reference and resource for families.

"There are chapter guidelines and check lists that can be used in making decisions," he said.

The book includes discussion about funding for group homes and how to use volunteers. It describes the best way to teach domestic living skills, such as cooking, to the severely handicapped.

Published by the State University of New York Press as part of the SUNY Series in Special Education, the book was two years in the making. Initially, Dr. Blackwell and Dr. Pancsofar were asked to write chapters for another book in the series. However, they collected too much information that the editor of the series asked that the two develop what turned out to be the 11-chapter book.
**Faculty/Staff Presentations**

V. Frederick Rieckie, mathematics and statistics, gave 17 talks to various professional organizations during the last academic year. These included "Modes of Leenstra's Logic" at the University of Neuchatel, in Switzerland; a four-hour lecture-demonstration on "Hilbert's Logic" at the Mathematical Institute, in Washington, D.C.; and "Mathematics at Clark University, 1889-1921" at the International Congress of History of Science, in Berkeley, Calif.

John Hiltzer, geography/geontology, conducted the day-long training program "Community Support Networks for the Elderly" for the Kentucky Chapter of the American College of Health Care Administrators, in Louisville, Ky., March 1986.

Julius T. Keas, art - Firelands, presented a workshop "The Art and Technique of Enameling on Copper" at the 26th Annual National Art Education Association Convention, in New Orleans, April 1986.

Scott Lewis, aquatic director/assistant director, Student Recreation Center, co-presented "Student Professional Growth Workshop: "Aquatics Open Forum."

**Six joint classified staff**

Six people joined the University's classified staff in June, while two others were promoted to new positions.

One other position went to Karen Miller, who went from part-time clerk to full-time office machine operator 1 in office services, and Suzanne Pijor, who went from part-time library assistant to full-time scheduler 2 at the University Bookstore.

New employees include: Joanne Calmes, word processing specialist 2, placement services; Stacy Perkins, clerk 1, College of Education; Sally Van Dyne, secretary 1, College of Health and Human Services; Lynn Knudtson, clerical specialist, English department; Thad Long, recreation facilities manager, Student Recreation Center, and Kathy Rahig, clerk 2, College of Technology.

**Regalia orders are due**

Faculty and staff who intend to participate in the Aug. 16 graduation ceremony should order their commencement regalia at the University Bookstore as soon as possible. Orders may be placed with Marge Houschans at 2-2851. A $5 late charge will be added to orders placed after Aug. 1.

**Exhibit**

**July 13 Through 25**

M.F.A. Thesis Exhibition, by Elizabeth Rodriguez, Fine Arts Gallery, 9 a.m.-4 p.m. Monday through Friday. Free.

**Faculty/Staff Positions**

The following faculty positions are available:

**Art**

Associate professor, graphic design. Contact Ronald Jacomini (2-7763).

**English**

Assistant (associate) professor. Contact Lester Barber (2-2576).

**Health, Physical Education and Recreation**

Visiting assistant professor. Contact Deborah Tell (2-6918).

**Interpersonal and Public Communication**

Visiting assistant professor/instructor. Contact Raymond K. Tucker (2-7168).

**Marketing**

Associate/full professor and chair. Contact James S. West (2-8222).

**Marketing**

Assistant professor. Contact James West (2-8222).

**Marketing**

Assistant professor. Contact James West (2-8222).

**Marketing**

Assistant professor. Contact James West (2-8222).

The following administrative staff positions are available:

**Athletics**

Administrative officer (part-time, nine month position). Contact Daniel Shelley (2-2066).

**Athletics**

Assistant director Contact Susan Caldwell (2-2658).

**Athletics**

Assistant men's and women's swimming coach. Contact Richard Draper (2-2660).

**Athletics**

Assistant track coach. Contact chair of sports committee (2-2401).

**Music Library**

Popular music cataloging assistant. Contact Susan Caldwell (2-2658).

**Placement Services**

Assistant director. Contact Susan Caldwell (2-2558).

**University Union**

Director. Contact Susan Caldwell (2-2558).

**Computer offers still open**

University Computer Services reminds departmental staff and eligible individuals that the special promotional offer regarding purchase of the IBM Personal Computer expires June 30. This offer reflects substantial reductions from the normal discounted prices for these products. To take advantage of this offer, orders must be received by Computer Services for processing no later than July 15. For further information contact Don Schumacher at 372-7724.

---

**Classified Employment Opportunities**

The following classified positions are available.

* Indicates that an internal candidate from the department is bidding and being considered for the position.

**NEW VACANCIES**

Posting Expired Date for Employees to Apply: 11 a.m., Friday, July 11, 1986

**7-11-1**

Medical Lab Technician 1
Pay Range 30
Health Service
Academic year, part-time

**7-11-2**

* Printing Supervisor 1
Pay Range 25
Student Publications

**7-11-3**

* Secretary 1
Pay Range 26
School of Health, Physical Education and Recreation

**7-11-4**

Typist 2
Pay Range 4
Mathematics & Statistics

**7-11-5**

Typist 2
Pay Range 4
School of Mass Communication

**7-11-6**

Electronic Technician 1
Pay Range 27
Telecommunications

**7-11-7**

Electronic Technician 2
Pay Range 28
Telecommunications
