Second opinions required on some surgeries

Employers are reminded that second opinions are required for some elective procedures if you wish to receive full benefit. This is true for mastectomy and procedures that require second opinions, such as hemorrhoidectomy, hernia surgery, foot surgery, and most reconstructive surgeries, as well as procedures recommended by the American Medical Association. Second opinions may also be required for some cosmetic surgery. Your doctor may suggest the second opinion if you desire it. If you have questions regarding the second opinion you should contact the Benefits Office at 272-1222.

Report hazards

The University Safety Committee encourages University faculty, staff and students to communicate any related issues and concerns to the committee to help prevent accidents on campus. Committee members are Chair, Dr. Michael C. Fenn, 327-1300; Secretary, Dr. Russell G. Carson, 327-2250; Tom Harrell, 327-2621; Michael L. Vetter, 327-2797; Ben Dicksen, 327-2581; Ken Austin, 327-2647; Mark Eden, 327-2800; Michael Shatzel, 327-2934; and Bob Pearson, 327-2093. Presents concerns regarding the second opinion should contact the Insurance Benefits Office at 272-1222.

Submit photos

Photographs of generations of students and faculty are being solicited for the display to be featured in March in honor of Women's History Month. The theme of the display is "Glimpses of Continuity, Change and Promise."

Photos do not have to be studio quality and snapshots are acceptable. Joint or individual photos are also acceptable and subjects can include any combination of generations. Photos should depict students and faculty from all areas of the University. All photos will be returned to the photographer.

Send materials to Dawn Magel, Registrar's Office of Jesse Hall, 372-3978. Deadline for photos is Feb. 20. For more information contact Magel at 372-3978.

Datebook

Monday, Feb. 16

Exhibit, "Signs of History," will be displayed in the Main Hall. The exhibit will run through Feb. 26. Gallery hours are 9:30 a.m. - 4:30 p.m. Monday through Friday. The exhibit is sponsored by the University Libraries in conjunction with the Department of Art, Visual Communication and Regional Planning.

Friday, Feb. 20

Library Research Seminar, "The 1985 Pulitzer Prize Fiction Selection Committee," will be held in the Peplow Commons (BGSU Fairgrounds). All are invited to attend. The seminar will run from 2:30 P.M. to 3:30 P.M.

Saturday, Feb. 21

"Selling Creative Cucumbers," a seminar on marketing and promotion, will be held in the Millikan Union in the Rimkus Lecture Hall.

Wednesday, Feb. 18

Library Research Seminar, "The Seminary Publishing Phenomenon," will be held in the Library of Congress. All are invited to attend. The seminar will run from 10:00 A.M. to 12:00 P.M. All are invited to attend.

Thursday, Feb. 19

Library Research Seminar, "Everything You Always Wanted to Know About ELL but Were Afraid to Ask," will be held in the Peplow Commons. All are invited to attend. The seminar will run from 10:00 A.M. to 12:00 P.M. All are invited to attend.

Library Research Seminar, "The 1985 Pulitzer Prize Fiction Selection Committee," will be held in the Peplow Commons (BGSU Fairgrounds). All are invited to attend. The seminar will run from 2:30 P.M. to 3:30 P.M.

Lib
No 'time' to waste in putting show together

Time is an insurable force that governs our lives. We eat, sleep, work and play according to the hands on a clock. It is also the subject of the planetarium's latest presentation, "About Time."

The multi-media program offers a history and anatomy of clocks and calendars, and their evolution over the years. It also traces the development of our present day timekeeping devices. The program opened the season on Jan 12. The next multi-media program starts Feb. 10. It will be "About Time:"

The selection was made by the planetarium's director, Diane Swaisgood, of the Miami University Planetarium and Observatory. She is also the planetarium's photographer for the past three shows. She has charge of programming, producing and marketing of programs consisting of animated visuals and graphics, using computer-generated images, the latest in audio-visual technology and practical demonstrations.

Dr. Frank McKenna, director of the government's with their information on local issues. He also said that the program's emphasis is on local government. This emphasis stems in part from the program's association with the Ohio Universities Program which was established by the Ohio legislature some years ago to give Ohio universities a means to participate in the educational challenges of our changing society.

"About Time:" is being shown until March 25. Shows can be seen at 7:30 p.m. every Tuesday and Thursday, plus 1:30 p.m. Saturday and Sunday. There will also be a special show at 7:30 p.m. March 7 and 14. A $1 donation is suggested. - Anna Chetverin

Senators ask for a 9.5 percent salary increase

The Senate has approved a proposal for a 9.5 percent salary increase for all legislators, effective July 1. The legislation was sponsored by Senators Sam Brown and Dorothy Bielfeldt, of the Miami University Student Senate. It was approved by the Senate in December and is expected to be signed into law by Governor Rossi.

The proposal is designed to address the increasing cost of living for Ohioans and to prevent the erosion of the buying power of the state budget. The increase will bring the average salary of a state legislator to approximately $95,000 per year.

The legislation will also provide for a new retirement benefit to be paid to current and former legislators. The benefit will be equal to 60 percent of the legislator's final salary, plus cost-of-living adjustments for years in which the legislator was in office.

The legislation also includes provisions to protect the confidentiality of legislators' financial information. The provisions will ensure that only the legislators themselves, or their authorized representatives, will have access to their financial records.

The legislation is expected to be signed into law by Governor Rossi. The increase will take effect on July 1, 2015.
No ‘time’ to waste in putting show together

Time is an invisible force that governs our lives. We can manipulate the clock, but it is also the subject of the planetarium’s new show.

The multi-media program offers a history and astronomy of clocks and clock-making, to provide a foundation for the development of our present day timekeeping systems. The show, which can be seen from 9 a.m. to 9 p.m. daily in the planetarium’s new show, includes interactive exhibits and demonstrations of the inner workings of clocks.

The show was created by a team of students and faculty at the university, with the help of a senior visual effects artist, Ted Schultz, and the director of the planetarium, James Smith.

The show includes interactive exhibits, such as a model of a solar system, and a demonstration of how a clock’s hands work together to tell time.

In the end, the show is a reminder that time is an important and valuable resource that we should use wisely.

Senate asks for a 9.5 percent salary increase

The topic of salary increases for the University’s Educational Staff and Faculty is the subject of a lengthy debate during the Feb. 17 Faculty Council meeting.

However, the salary increase request for the 1987-88 academic year was approved by the Faculty Council. The salary increase will be phased in over a two-year period, with a 5 percent increase in the first year and an additional 4.5 percent increase in the second year.

The salary increase was recommended by the Faculty Salary Committee, which is made up of faculty members from different departments and colleges across the university.

The Faculty Salary Committee is responsible for reviewing and recommending salary increases to the Faculty Council. The committee considers a variety of factors, including the cost of living, economic conditions, and the performance of the faculty.

The approved salary increase will lead to a more competitive compensation package for the university’s Educational Staff and Faculty, which will help attract and retain top talent.

Public Administration lends a hand to area governments

Curt Seitz, a research associate for public administration, and Diane Docis, a research associate for public relations, are working with the Ohio University’s ROTC (Reserve Officers Training Corps) Program to assist area governments.

The ROTC program has been working with the Ohio University’s Public Administration Department to provide training and support to local government officials.

In addition to training, the ROTC program offers resources and support to local governments on a variety of issues, including budgeting, management, and strategic planning.

The program is particularly beneficial to smaller local governments that may not have the resources to provide their own training.

The ROTC program has been working with local governments in the area for several years, and has developed a strong relationship with local officials.

The program is also beneficial to Ohio University students, who gain valuable experience working with local governments and learn about the issues faced by local governments.

The program has been successful in helping local governments improve their decision-making and improve their relationships with their constituents.
Bowling Green's contribution to Festschrift section increasing

In 1979, one of the smallest colleges on campus produced the largest serial bibliography for modern languages and literature in the world. The bibliography, known as the BGSU Modern Language Bibliography, is a comprehensive list of works published in modern languages and literature. The bibliography is available on computer terminals located throughout the University.

Casting call issued

The University has issued a casting call for the production of "The 7PM Drama." Auditions are open to all interested persons. Entrants are to bring an original one act play for casting directors. Contact Affiliate Theatre (2-4363) for more information.

Bowling Green has increased the number of its faculty positions in recent years. This year, the University has added five new positions: three in the School of Business, one in the School of Education, and one in the School of Fine and Performing Arts. The additional positions are expected to help meet the growing demands for faculty expertise in these areas.

Deadline: March 1.

Bowling Green has also increased its efforts to attract new faculty members. The University has offered competitive salaries and benefits to attract faculty members from other institutions, including a 5% increase in salaries for new faculty members. These efforts have resulted in the University attracting many new faculty members, including a number of nationally recognized scholars.

The University is also working to improve the diversity of its faculty. The University has established a goal of having at least 15% of its faculty members from underrepresented groups by the year 2000. The University is采取的措施 to achieve this goal include offering recruitment scholarships to faculty members from underrepresented groups and providing support to tenure-track faculty members from underrepresented groups.
