Shakespeare Is Streamlined

Streamlined versions of "Twelfth Night" and "Macbeth" will be presented in performance by the Shakespearean Festival Players, Monday, July 19, at 8:15 o'clock in the auditorium, the Speech Department announced.

A technique of production which, from all information available, has never been used before in the production of Shakespeare's plays will be employed.

Features of the production will include a modern adaptation of the Shakespearean chorus and a modern Elizabethan setting.

The method is one that amateur groups can easily utilize. It should result in vitalizing the study and teaching of Shakespeare in the public schools.

Development of the project has resulted from annual Shakespeare Festivals for high school students which have been featured by Ohio Wesleyan University. Students from other Ohio high schools have presented scenes from Shakespeare which are reviewed by a guest artist. Festivals are held in April of each year in honor of Shakespeare's birthday, and at this time the annual Shakespearean play is produced.

The attempt of the present production is to limit the length and difficulty of the presentation of Shakespeare's plays in high schools.

Performances are open to the public. Students may be admitted with their Aec cards and five cents. Regular admission will be 50 cents.

Four Conferences Will Arrive Soon

Four more conventions have been scheduled this summer at Bowling Green.

A convention for the Lutheran Training School will be held between July 18 and July 25; the Federal State Teachers Association will be guests from Aug. 1 to Aug. 7; the Ohio Rho Chapter, Delta Sigma Theta will meet in Columbus July 26. The Ohio Teacher's Football League will meet from Aug. 9 to Aug. 13 and the Ohio Farm Bureau will have its meeting here between Aug. 22 and Aug. 28.

McFall Is Chairman of Book Committee

Dr. K. H. McFall, Dean of the College of Liberal Arts, will preside as chairman of a committee to prepare a new booklet entitled "Locking Toward College."

The Committee of College Representatives and High School Principals will meet in Columbus June 6 to prepare the booklet which is intended to assist high school students in selecting the Ohio college they desire to attend, and it will also be part of the guidance program of the Ohio College Association.

Other members of the committee are: Robert Bliss, principal of Mount Gilead High School; Eugene H. Clamp, principal of Bucyrus High School; John Biles, vice principal of Muskingum University; Dean H. E. Huber, Ohio Northern University; Paul Neider, principal of Columbus High School; William Walker, Flora Stone Mather College of Western Reserve University.

34 Students At Speech School

Summer School of Speech opened Tuesday morning with 34 Ohio high school students participating, according to F. Lee Miesle, director.

The school will consist of classes in interpretation, acting, make-up, stagecraft and construction of a three-act play, "Stardust."

There are 12 boys and 22 girls attending. They include:

Girls: Barbara Jean Baker, Dayton; Lucretia Ann Barrett, Swanton; Virginia Bell, Toledo; Eileen Carper, Bettendorf; Mary Ann Cook, Atica; Elizabeth Ann Fuch, Columbus; Margaret Van Heuk, Willard; Marilyn Harris, Lakeside; Dorothy Hetrick, New London; Ann Hiestand, Old Fort; Norma Ann Lavin, Cleveland Heights; Joanne Lingenfelter; Barbara Liggett, Cincinnati; Sandra Lingrell, Urbana and Carol Littler, Bettendorf.

Blacks System Inaugurated

Dr. Herschel Liederstein, Dean of the College of Education, has arranged a new system for training five Negro high school teachers. It goes into effect beginning with the fall term.

The new set-up will be called the "Block System" and makes necessary an entirely new form of schedule.

Students desiring a degree in elementary education are required to arrange their schedules so the teaching of the Negro high school teachers is completed by the end of the junior year.

This will leave one semester of the typical six year college program to concentrate wholly on education and practice teaching courses.

Dean Liederstein stated that the Negro college students have the same three fold: "It is an ideal way to tie theory in with practice; it provides broader contacts and experience with an actual school situation and it will free the student's time so that he can get to the school to which he is assigned for student teaching."

This system has been in operation in elementary education training for the past five years, but it may be the first time it has been tried on the secondary level.

As yet no "Block System" has been set up for Public School Music, Secretarial Accounting in Business, Public Speaking or Speech and Hearing Therapy.

Typographical Error

In a recent issue of a Community newspaper, two prominent articles, painstakingly denounced American literature and American comic strips. But—in the inside pages of the same pages is a part of a serial, the part-and-so of a serialized novel by Jack London, plus the American comic strip, "Felix The Cat."

3rd Year Teachers Hold Second Session

"Learning to Understand Children" is the topic of the second regular session of the Special Summer Work Conferences for Elementary Teachers in Service extending from July 12 to July 30.

The program will include some features of the first session continuing the Demonstration School with numerous movies according to William S. Wagner, Assistant Professor in the Education Department.

A Demonstration School section will select one child and review his case history as a practical application of the study.

The large use of movies is intended to modernize the course. Prof. Wagner declared. A film entitled "This is Robert" depicting the boy's development from birth through seven will be used. Another film "Meeting Emotional Needs of Children" will be shown. Two additional films will be the first released in connection with an educational text book. The text "Student Teaching" by Schorling is one of the few text books employed in the course. For reference purposes a lending library has been made available to the teachers.

This session will last three weeks and will enable the teachers to three hours of credit on their elementary teaching certification.

Deitiesfeld Will Tour With Cartoons

Donald Deitiesfeld, a Bowling Green University student, owns the world's largest collection of original editorial cartoons.

Deitiesfeld plans to make a coast-to-coast tour with the cartoons next year. There are about 1,800 of the cartoons.

The sketches date from 1865 to ones made during the present war for the French Resistance newspapers.

Dr. Juraj Slavik Slavik Will Be Assembly Speaker

Dr. Juraj Slavik, former Czechoslovakian Ambassador to the United States, will be guest speaker for assembly July 14.

Dr. Slavik is on tour speaking on "The Scourge of Czechoslovakia." His theme tells of his governmental experience in his native state.

From 1929 to 1932 Dr. Slavik held the office of Minister of the Interior becoming Envoy Extraordinary to Poland in 1935. Preceding World War II, while in Poland, he witnessed the advancement of the Soviet influence in his government.

In 1940, while in London, he became a member of the Cabinet of the Czechoslovak government-in-exile. During the war his short broadcast to Czechoslovakia made him influential in underground work.

Returning to Prague in 1945 he accepted the position of Minister of Foreign Affairs. In 1946 he came to the United States and became Ambassador. In protest of the Communist Coup, he resigned this position March 1948.

Review Morley and GeaCarthy Charm Audience

By Helen Mueller

Virginia Morley and Livingston GeaCarthy, duo-pianists, presented a concert of excellent and varied music to students and educators in the Main Auditorium Thursday, July 1.

Mr. GeaCarthy's whimsical comments before each selection aided the audience in obtaining a better understanding and interpretation of the music. Miss Morley made no remarks during the concert; nevertheless she was not overlooked by the audience. Not only did she make a very pleasing appearance, but her skill at the piano also drew attention.

The first number was a "Chorale Prelude" by Bach which, Mr. GeaCarthy explained, was an improvisation on a hymn tune, "In Thee is Joy." Each played these improvisations while the people entered and left church, Mr. GeaCarthy stated.

The next number was "Nine Variations on a Theme of Haydn" by Brahms. It was the longest and heaviest of the selections.

"An American in Paris" by Gershwin, Mr. GeaCarthy told the audience, was written as a memento of the composer's impressions of the American city. It was largely mood music portraying homesickness, excitement and joy.

In parts, the horn of a taxi in heavy traffic could be heard. Following the Gershwin selection was a "Rondo for Two Pianos" written originally for two pianos by Chopin when he was nineteen.

"Tears," an "awfully bad" number, as Mr. GeaCarthy expressed it, and the very gay "Rosenkavalier Waltzes" by Richard Strauss and arranged by GeaCarthy concluded the program.

The appreciative audience called the pianists back for four encores. A Morley and GeaCarthy arrangement of "All the Things You Are," an original composition, "Baby Boogie;" "Flight of the Bumble Bee" and "The March from the Love of Three Oranges."
Student Goes Fishing Without Hook And Line

By John Fay

There are fish stories and then again there are fish stories, but the most interesting one I have run across recently comes from student Bill Bickel. It's different, so lend an ear.

Out at the PIKA house where Bill lives, he has a 25 gallon tank full of seven different specimens of fish. A run down the list of names sounds like several shady characters got loose on the campus literary magazine could stand a good deal Aouduuj, Qleen.

The tall education major's interest in fish collecting began when as a youngster he helped his father take care of a similar collection. When his dad died about eight years ago, Bill became chief caretaker of the Rickei aquarium and ever since then with the exception of the time spent in the service, he has had a fish collection.

Rickei thinks that the most interesting specimen he now has is the Siamese Fighting Fish. It is interesting not only for its lovely blue color but because the male of the species takes upon himself a "harem" of females and will attack any other male which tries to invade his territory.

The story goes that in Siam two males of this species put together while at the same time betas are placed on the out- come just as if it was a Mexican cock fight.

The care and feeding of these fish is no simple matter. The water must be kept within a temperature of 70 to 76 degrees. Bill has a thermostat attached to a heater which he can place under water. The thermostat turns the heat on at 70 degrees and shuts it off at 76.

In giving them their food our fish fancier keeps his charges "on the ball." They either clean their plates in five minutes or goodbye food. This is because the water will begin to sour if the "chow is left on top of the water any longer than a five minute period.

Another interesting fact that Bill pointed out was that in his collection there are three different types of breeders. For example the Zebra female will lay her eggs on the sand and gravel at the bottom of the tank then the male will pass over them expelling the sperm.

However the Siamese Fighting Fish first builds a nest of air bubbles, then when the female lays the egg the male picks it up and places it in one of the air bubbles, proving that fish can be clever at times. (I certainly would never have thought of anything like that.)

The Guppies, Black Molies, Crescent Moons, Wag Tails and Red Shiner are a little more orthodox in their breeding. Their young are born alive.

However clever they may be Bill points out that his fish can be fickle also, since each of these types of underwater prima donnas will eat its young. Sometimes even the spawn will be eaten. The Siamese Fighting Fish does allow its young to learn how to swim under its own power before devouring them. Bill gets around this by being on hand as often as possible at the piscatorial maternity ward for a separation of parents and children.
Announcements

Unless otherwise specified, all shows are in room 203, Ad Bldg., July 15, at 2 p.m.

CLASSIFIED ADS

FOR SALE: '56 Chevrolet 2-door sedan. Excellent shape. Call after 3 p.m., at 455 S. Prospect—spoken. W. E. Smith.

BRADY-PRINTY

A Bowling Green graduate, Miss Mabel Brady, was united in marriage to Fred A. Prinfty at the Methodist Church here. Mr. Prinfty, a Kappa Sigma, is now employed by the Black Swamp Production Credit Association in Bowling Green.

CARLSON-WELLS

Two Otterbein College students were married at the First Congregational Church in Elkhart, Ind. They were Miss Mary Catherine Carlson and John F. Wells. The bridegroom's father, Rev. Dr. S. A. Wells, performed the ceremony. The couple will both graduate this fall at Bowling Green.

DAZELL-TRUMAN

Miss Marian Dazell of Bowling Green and Robert L. Truman of Sandusky were united in marriage at the First Baptist Church in Bowling Green. Mr. Truman is a sociology professor and Mrs. Dazell is employed by the Black Swamp Production Credit Association in Bowling Green.

EHLERT-NOBLE

Miss Shirley Anne Ehlert of Amherst and Robert V. Noble of Gainseville, Fla., were married in St. Peter's Evangelical and Reformed Church. Mr. Noble was graduated from Bowling Green in 1947 and has been teaching physical education at Sandusky Junior High School. The bridegroom was graduated from Cornell in 1944.

HARROLD-DOERING

Howard O. Doering, a university student from North Baltimore, took as his bride Miss Ann M. Harrold of Fostoria. The wedding was performed in Newport, Ky. Mrs. Doering will enter Bowling Green in the fall as a freshman.

HIRS-MIESLE

The wedding of F. Lee Miele, instructor in speech and Patricia Hirs, June graduate, was held in the Bradner Methodist Church. Best man was Robert Whitman and usher was Lawrence Kuhl, both graduates of Bowling Green. Mr. Miele is a member of Pi Kappa Alpha and Mrs. Miele, a Sigma Kappa Tau.

LENHART-RUSSELL

Bowling Green's First Christian Church was the scene of the wedding of Miss Grace Lenhart of Leipsic and William L. Russell of Perrysburg. Both graduates of Bowling Green, Mr. Russell will be graduated from Bowling Green in January of 1949.

EXCELLENT SERVICE! EXCELLENT FOOD!

PLEASANT CLEAN SURROUNDINGS!

Make your Luncheon headquarters at the THE UNIVERSITY CLUB RESTAURANT

Our back room will be open for dancing Wednesday and Friday evenings.
Golf Matches Now Underway

The Bowling Green University golf course should be slightly crowded today with the first round of the summer intramural best-ball golf tournament being completed. Two matches played before vacation resulted in close 1 up victories for the teams of Al Raynor and Bob Shetzer, and Dick Mercer and Earl Siwakander.

Seven remaining matches must be completed today.

Ernie Cucelilo defeated Bob Horvath 1 up in an individual match play tournament last week which was all tied up going into the 18th hole. Martin Hallabrin carded the lowest medal score, a 68, as he won over John Payak.

The first round of the individual match play should be complete Monday.

In two tennis matches reported to date, Atkins defeated Whitacre, 6-2, 6-9, and Hal Whitehouse beat Rot-ter, 6-1, 6-0.

Jim Whittaker Heads City Recreation Play

Jim Whittaker and Miss Dorothy Forns are supervising the Bowling Green city recreation program this summer, assisted by P.E. students from the university.

Heavy Hitting Dominates Intramural Softball Games

High scores which resembled B.G.'s basketball season prevailed as intramural softball moved into its second week of activity last Thursday night.

The Wimpys Kids gained first place by trouncing Murphy's Irishmen 16-7.

Darrell Houston's three run homer in the first inning gave the Irishmen an early lead but the Wimpys Kids tied it up in the fourth and then showed eight runs across the plate in the extra inning.

Wimp and Platt hit home runs while Rose connected for three out of four to help the Wimpys cause.

The Fogs dropped a 12-11 decision to the Salty Dogs putting both teams in the .500 bracket.

Alex Reed provided the winning margin for the Salty Dogs with a three run homer in the last inning. Bernie Biers also hit at round tripper for the Salty Dogs.

Ten runs in the second inning gave the Orioles a 17-6 decision over the Spoilers.

Barker hit two home runs and Nuss added another for the Orioles while Cool duplicated Barker's feat and Neal matched Haas for the Spoilers.

In the fourth scheduled game the Rogers-Rogers won by a forfeit from the Pearsons.

Long Drivers' Tournament Planned

A long distance driving contest for golfers is the newest addition to the all-campus summer intramural program. All those interested may register immediately in the athletic office.

Each driver will hit three balls and the distance each travels will be recorded. These yardages will be averaged and the contestant with the best mark declared the winner.

A prize is to be offered the man with the best average and another given to the challenger with the longest individual poke.

String will be run on each side of the area picked for the contest, thereby facilitating measurement and allowing the event to be run off with a minimum of delay.
