REPORTS - CONSTITUENT REPRESENTATIVES

BGSU Firelands, John Britton

Mr. Britton was unable to attend to meeting, but submitted the following written report in advance to Board Secretary, Dr. Patrick Pauken:

Good afternoon. I am happy to offer the BGSU Firelands report on behalf of Advisory Board President John Britton who is unavailable for the regular meeting.

We are pleased to share with the Board several initiatives which enhance opportunities and partnerships in our service area and strengthen the long-standing connection that BGSU Firelands shares with the community we serve.

Last month, BGSU Firelands' Office of Educational Outreach hosted the annual Women in Science, Technology, Engineering, and Math workshop on campus. The event provided the opportunity for 100 junior high school girls from several areas schools to participate in hands-on activities which introduced the young women both to the excitement of science and to exceptional women scientist role models in what have traditionally been male-dominated career paths. The annual event works in close partnership with many area organizations. This year the event featured the Sandusky Area Health Education Center, NASA Glenn Research Center, and the Toledo Zoo.

BGSU Firelands is also in the process of finalizing a license agreement with the City of Sandusky to establish a field research station in downtown Sandusky. This collaboration with the City, faculty members from both the Bowling Green and Firelands campuses, and other partners will provide BGSU with a lakefront laboratory to study many aspects of science including the Lake Erie ecosystem, algal blooms, invasive species and more. BGSU's presence at Sandusky Bay Pavilion will reinvigorate activity at this public park through scientific research involving graduate and undergraduate students from both campuses. It will also expand opportunities for external research funding and offer exciting opportunities on the shoreline of Lake Erie for BGSU faculty and students to provide hands on science education to area K-12 schools.

BGSU Firelands has also been actively involved with Sandusky City Schools in the strategic planning process and development of Blue Streak University, an early college program to increase opportunities for high school students to earn college credit and ultimately earn an associate degree concurrent with a high school diploma. Introduced to the community earlier this year, this program is under development with BGSU Firelands playing a pivotal role. This initiative builds on current collaborations between the two educational institutions, including fellowships where the College's faculty work with middle school students and BGSU Firelands presence at Sandusky High School to offer evening college courses to area residents even closer to home. This new collaboration will help the school district and the college achieve their common goal of improving educational outcomes that strengthen and grow the economy and community.

As we like to say at BGSU Firelands, we are not a community college, but we are the college of our community. With the great support of the senior leadership of BGSU, we are proud to offer so many opportunities of the University to the Firelands region for nearly fifty years.

Thank you.

Administrative Staff Council Representative, Dr. Emily Monago

Dr. Monago informed the Board that the Administrative Staff Council (ASC) sends a series of newsletter throughout the semester to keep administrative staff informed and connected. A monthly social is also held as a way to help staff connect with colleagues across campus. Dr. Monago reported on speakers that have presented at Brown Bag Lunches this fall.

Classified Staff Council Representative, Jan Garber

Ms. Garber provided a report on behalf of Classified Staff Council (CSC) on behalf of Chair Deborah Lowery. Ms. Garber stated that guest speakers at monthly CSC meetings have been well received and provide an opportunity to learn more about the University. CSC is preparing for the Martin Luther King Jr. Day of Service when the organization provides approximately 800 bagged lunches for the volunteers.

Faculty Representative, Joel O’Dorisio

Mr. O’Dorisio reported that Faculty Senate looks forward to welcoming Chair Voll to their January meeting. He noted that several action items before the Board today were action items from Faculty Senate. The Board can expect additional items in the coming months, including the relocation of the Food and Nutrition program to the College of Health and Human Services and other academic program initiatives.

Graduate Student Representative, Michael Smith

Mr. Smith began by thanking the Board and Dr. Mazey as well as Faculty Senate and USG for great partnerships. Mr. Smith updated the Board on several items including programs that have brought internship opportunities to campus, upcoming Shanklin Awards, and a trip to Washington D.C. for networking with BGSU alumni.

Undergraduate Student Representative, Brian Kochheiser

Mr. Kochheiser provided an update to the Board on current USG initiatives including 24/5 library hours for the final two weeks of the semester, working groups for the It’s on Us Campaign, the Office of Campus Sustainability, and the search for a new Undergraduate Trustee.

ANNOUNCEMENTS

Mr. Voll made a few brief announcements before the Board’s adjournment. He announced that the next meeting will be held on February 20, 2015 at BGSU Firelands. He wished the football team the best of luck as they compete for the Mid-American Conference Championship.

Mr. Voll continued the tradition of “passing of the gavel” to give Trustees the opportunity to highlight accomplishments and efforts of programs and individuals at Bowling Green State University.

ADJOURNMENT

At 2:19 p.m. Mr. Primrose moved and Ms. Newlove seconded that the meeting be adjourned.
