Vol. X., No. 45

Bowling Green State University

June 1, 1987

Bowling Green's Ohio Eminent Scholar, Michael A.J. Rodgers (right), visited the campus last week to meet faculty and staff and take a tour of the facilities. One of the country's foremost physical scientists and an authority on aspects of phototherapy used in cancer research, Rodgers will start conducting his studies at the Center for Photochemical Sciences in January. Douglas Neckers, director of the center, (left) and Deanne L. Snavely, photochemical sciences, examine some of the projects in progress.

## Telefund raises \$88,000

Most students spent the final weeks of their spring semester preparing for final exams and enjoying the sun. But one group of volunteers was involved in a very different kind of project — helping raise funds for the University by telephoning alumni for monetary pledges.

Those students' efforts on the telephone are vital to helping Bowling Green continue its tradition of excellent education, according to David Wu, associate director of development. And their work paid off in gifts and pledges of more than \$88,000, Wu said.

Spring telefunds at the University benefitted Bowling Green's six undergraduate colleges and the Alumni Chapter Scholarship project which gives alumni chapters from throughout the country an opportunity to sponsor a scholarship for a Bowling Green student.

In total, more than \$21,600 was raised for the colleges, and Ohio alumni chapters pledged \$38,500 to create new Chapter Scholarship accounts. An additional \$28,000 was raised for the University's Annual Fund and miscellaneous projects.

Gifts to the college advancement accounts enable the colleges to provide many "extras" for their students and faculty which cannot be funded from regular academic budgets.

The Chapter Scholarship project was created as a way to meet the needs of alumni chapters to be involved with the University and at the same time provide an important service to the University and its students, said Larry Weiss, assistant vice president for University relations. "The response has been tremendous. Alumni like the idea of supporting a scholarship and it makes students aware of the interest alumni have in them."

Chapter scholarships are created when members of an alumni chapter contribute a minimum of \$2,500 which is then matched by the Alumni Association to attain the \$5,000 minimum needed for an endowed account. The interest from the endowment is awarded as a scholarship.

## Summer hours vary at Firelands

Firelands College will observe the following summer hours through Friday, August 14.

Administrative offices will be open from 7:30 a.m. to noon and 12:30 p.m. to 5 p.m. Monday through Thursday, and from 7:30-11:30 a.m. on Friday.

The Office of Registration will be open from 9 a.m. to noon and 12:30-5:30 p.m. Monday through Thursday. It will be open from 9-11:30 a.m. on Friday. All offices and the library will be closed after 11:30 a.m. on Friday.

All College offices and the library will be closed Friday, July 3.

When summer classes are in session,

June 8 through August 14, the library will be open from 7:30 a.m.-7 p.m. Monday through Thursday and from 7:30-11:30 a.m. on Friday. The library will be closed on weekends through the summer.

Bookstore hours will be from 8 a.m. to noon and 1-4:30 p.m. Monday through Thursday. On Friday, hours will be from 8-11 a.m. However, the Bookstore will observe extended hours from Monday, June 8 through Thursday, June 12. During this period, it will stay open until 6:30 p.m.

The nursing office will be open from 7:30 a.m. to noon and 12:30-5:30 p.m. Monday through Thursday. It will be closed on Friday.

## Trustees grant emeritus status to 5 professors

Five retiring professors were granted emeritus status at the Board of Trustees' May meeting. Receiving the appointments after collectively serving 110 years at Bowling Green were Dr. Charles Boughton, theater; Dr. Joseph Buford, geography; Dr. Robert Hillerich, educational curriculum and instruction; Dr. Paul Parnell, English; and Dr. Warren Wolfe, romance languages.

Boughton joined the University in 1961 as an instructor of speech. Active in the theater, he has directed, and in some cases, designed, lighted and costumed over 42 full length plays and a number of one acts and children's theater productions. He is a former member of the Speech Communication Association and the American Theater Association.

Buford became a member of the University's geography department in 1948. He has served as chairman of that department and has been an active member and officer of the Association of American Geographers, the Ohio Council of Geography Teachers and the Ohio Academy of Science. In 1978, he was selected as one of the Outstanding Teachers at Bowling Green by the University Activities Organization, and has been nominated for the Master Teacher Award several times.

The author of over 100 journal articles and

Charles Boughton

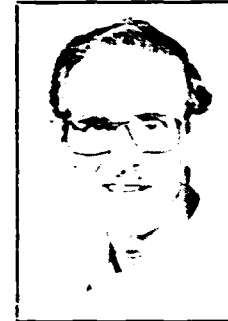

Joseph Buford

Robert Hillerich

Paul Parnell

Warren Wolfe

## Book examines property rights

Why do people think that they own their property and that no one else, including the state, is entitled to take it? Why does the government think that it is entitled to take private property or to regulate its use?

Dr. Ellen Frankel Paul, Social Philosophy and Policy Center, addresses these questions in her book, *Property Rights and Eminent Domain*. The book is the culmination of over four years of research begun

while Paul was a national fellow at the Hoover Institution at Stanford University, and completed at the center in Bowling Green.

The book explains how government appropriation or regulation of private property, and especially land, is generally thought to be justified by the constitutional doctrines of eminent domain and police power. The former allows government to take private property for public use, so long as "just compensation" is made to the owner, and the latter allows government to regulate land use for the public good.

But the widespread exercise of these powers has left many people frustrated and outraged. Owners have been deprived of property against their will. Or, what is often worse, property has been regulated to such an extent that it is virtually unusable. The owner is left with nothing but tax obligations and no way of generating any income from the property.

Paul evaluates these practices in the light of constitutional history and traditional theories of property rights. She concludes that political theorists have not offered convincing arguments for the assumption that governments must possess the power of eminent domain, and their arguments for an

expansive police power are scarcely more persuasive.

Paul advances a theory of property and government that is based on natural rights. This theoretical foundation leads her to the conclusion that eminent domain is no inherent power of government.

Paul believes in no case should eminent domain be used to transfer property from one set of owners to another, as it often is in urban renewal projects or as the city of Detroit did in taking Poletown for a Cadillac plant. And the courts should view zoning and land-use legislation as exceeding the government's limited police powers, which makes it unconstitutional, she said.

## Submit waivers

University employees are reminded by the Office of the Bursar that employee and dependent fee waiver forms for the summer sessions and the fall semester should be completed and forwarded as soon as possible.

There are various summer sessions. Fall semester begins August 26.

## Place regalia orders

Faculty and staff are reminded to place their orders for August commencement regalia at the University Bookstore as soon as possible.

Orders may be phoned to Marge Houchins at 372-2851. A \$5 late charge will be added to orders placed after July 31.

## Equipment displayed

Computer Services has the latest in microcomputer technology on display in the faculty/staff workroom, 102 Hayes Hall. Representing Apple is the Macintosh SE which contains two 800K disk drives and one Mb of RAM (user) memory.

From IBM are the Model 30 and Model 50 microcomputers. The Model 30 is an XT compatible with 640K RAM and 23.5" disk drives. The Model 50 is an AT compatible with 1Mb RAM 13.5" disk drive, and a 20M fixed disk. Price lists for the models also are available in the workroom.

## Deadline approaching

For orders to be encumbered on this year's budget, University departments must have their requests submitted to Computer Services no later than June 12. Any requests received after that date may appear on next year's budget.

## For sale

The chemistry department has for sale to other departments a CPT 8520 with CPT Rotary VIII printer. Also for sale are two 400 K MacIntosh disk drives. For more information on these items, call 372-2031.

## Skaggs' article included among scholarly works

An article by Dr. David Skaggs, history, has been included in a collection of the 300 most important scholarly articles relating to colonial America published in this century.

The collection, an 18-volume set entitled *Early American History*, was published by Garland Publishing of New York this spring. Skaggs' article, entitled "Maryland's Impulse Toward Social Revolution, 1750-1776," was originally published in the *Journal of American History*.

Skaggs' article examines the way in which local issues triggered the independence movement in Maryland. One of the most powerful of these issues was concern for lower social classes and their well-being.

The article later was expanded into a book by Skaggs. Entitled *Roots of Maryland Democracy*, published in 1973.

## New models supported

In order for Computer Services to sell any model IBM or Apple microcomputers to faculty, staff or students, it must agree to provide warranty service for that system. Due to the cost of staff time, training and spare parts, Computer Services must carefully look at each new model announced by IBM and Apple to determine if the prospective sales volume warrants the cost.

Recently, Computer Services decided to support the new IBM PS 2 model 30, model 50 and model 60 and the Apple Macintosh SE. A decision on the IBM PS 2 model 80 and the Apple Macintosh II will be made at a later date.

The service can sell IBM or Apple systems to departments without a commitment to provide warranty service. A listing of current systems and prices is available in 102 Hayes Hall or can be obtained by calling Don Schumacher at 372-7724.

## Emeritus from front

professional books, Hillerich has been active in a number of University areas since he joined the faculty in 1975. He has served as a member of Graduate Faculty, Graduate Council, the Curriculum Committee and Advanced Programs Council, as well as on a number of professional organizations. In 1983 he was inducted into the Illinois Reading Council Hall of Fame, and was honored by the Bowling Green Chapter of Phi Delta Kappa with the Award for Outstanding Research, 1984-85. He is currently a consultant to Pinellas County Schools in Florida, and most recently authored the book, *Houghton Mifflin Picture Dictionary*, for children ages three to five.

A member of the English department since 1960, Parnell has been the frequent author of published articles and book reviews, and has read a variety of papers at conferences across the country. He wrote and edited the *Alumni Newsletter* for the University from 1977-84, and was associate editor of *Seventeenth-Century News*. His major research areas include eighteenth-century sentimentalism, restoration drama and renaissance pastoral influence on sixteenth-century England.

Wolfe joined the University's department of romance languages in 1961. After attending the University of Paris as a Fulbright Scholar, he conducted several summer study programs by taking Bowling Green students to France for language and cultural classes and tours. He is the past director of the Academic Year Abroad program in France, and a member of the Alliance Francaise, the American Association of Teachers of French and the American Society of Eighteenth Century Studies.

## Classified Employment Opportunities

The following classified positions are available.

### NEW VACANCIES

Posting Expiration Date: 4 p.m., Monday, June 8.

6-8-1 University Law Enforcement Officer I  
Pay Range 28  
Public Safety

An examination will be given for the above classification. Candidates will be ranked based on test score, psychological evaluation, background investigation and committee interview, and an "eligible list" will be established. As vacancies occur, names are referred from this list. Employees may apply and take the examination even if currently in a probationary period.

## Faculty/Staff Positions

The following faculty positions are available:

**Business education:** Instructor. Also, assistant/associate professor (anticipated). Contact David J. Hyslop (2-2904). Deadlines: June 1.

**Economics:** Instructor. Contact J. David Reed (2-2647). Deadline: June 2.

**Political Science:** Professor and chair. Contact Roger C. Anderson (2-2924). Deadline: Oct. 31.

**School of Art:** Instructor, graphic design (temporary). Contact Ronald Jacomini (2-7763). Deadline: June 1.

The following administrative staff positions are available:

**Biological Sciences:** Laboratory technician. Contact Mark H. Gromko (2-8206). Deadline: June 3.  
**Development Office:** Associate director of development. Contact Linda Hamilton (2-2558). Deadline: June 15.

**Development and Alumni Affairs:** Director of development. Contact Dwight F. Burlingame (2-2708). Deadline: June 15.

**Intercollegiate Athletics:** Assistant sports information director. Contact Sports Information director (2-2401). Deadline: June 4.

**Residential Services:** Residence hall director; also, residence complex coordinator; also, residence hall manager. Deadlines: June 1. For all positions, contact Fayette M. Paulsen (2-2456).
