Martin Luther King holiday Jan. 18

The service of Martin Luther King Jr. is set aside by many for a day of reflection and action. Like many other American has done so in the past, the students of the Civil War, and yet his goal of justice and truth for all has remained unfulfilled 35 years after his death. It behooves all of us to make this Martin Luther King Day and consider the civil, moral and human rights of others we see with members of the University of Hawaii and those who have been mistreated and abused by our fellow citizens.

New system for computer buys

A change to the Microcomputer Buying Service just went into effect for classified employees.

The University is accepting MasterCard and Visa as well as American Express and Discover card payments. The new procedure for payment includes the use of the credit card numbers on the credit card. The credit card number will be used to verify the credit card holder, and the bank's account number is given to the Florida State University Bookstore.

The system works as follows:

1. The order is placed directly with the credit card holder.
2. The bank's account number is given to the Florida State University Bookstore.
3. A check or money order is remitted through Florida State University Bookstore, Inc.

For more information, contact Sherry Gray, 921-2842, 921-2843.

Obituary

Eugene Lukacs

Eugene Lukacs, 75, a former professor of mathematics and statistics and the first faculty member to be named Distinguished Teaching Professor at the University of Georgia, died Dec. 21 in Washington, D.C. He was the first to be so honored.

Lukacs was born in Hungary and raised in Vienna. Lukacs studied at the University of Vienna and graduated in 1932 with a doctorate in mathematics. He emigrated to the United States in 1937 and taught at a number of institutions before coming to the Catholic University of America in Washington, D.C., where he served as the director of the statistical laboratory. He then moved to Bowling Green at the University and was named Distinguished Teaching Professor in 1972. He remained on the faculty until 1975.

The Social and Political Philosophy Center has for sale a $12.95 publication by Eugene Lukacs titled "An American in Hungary: A Study of an East European Minority in the Hungarian Revolution of 1956." The book can be ordered through the Center for $12.95 plus $1.50 handling charge, or at the Bowling Green Bookstore, 100 E. Main St., Bowling Green, Ohio 43403.

Doctoral dissertation

Monday, Jan. 11

Graduate Alliance Steel Awards, through Jan. 22 at the School of Arts, Humanities and Social Sciences.

Monday, Jan. 18

Marvin Lofall Johnson (Ph.D., 1994), assistant professor of music at Florida State University, was named the chair of the Florida State University Music Department.

The faculty/staff positions are as follows:

Accounting/Finance Assistant: Karen A. S. Alvert, 220-5700.

Alumni Relations: Maralyn L. R. S. Alvert, 220-5700.

Business Office: Janet L. Davis, 220-5700.

Cashier: Patricia L. S. Alvert, 220-5700.

Community Service: Patricia L. S. Alvert, 220-5700.

Development: Dr. D. S. A. Alvert, 220-5700.

Faculty/Staff: Dr. D. S. A. Alvert, 220-5700.

Graduate Studies: Dr. D. S. A. Alvert, 220-5700.

Industrial Research: Dr. D. S. A. Alvert, 220-5700.

Marketing: Dr. D. S. A. Alvert, 220-5700.

Student Aid: Dr. D. S. A. Alvert, 220-5700.

Community Service: Patricia L. S. Alvert, 220-5700.

Academic year, Tallahassee.

Graduate School: Dr. D. S. A. Alvert, 220-5700.

Graduate Student: Dr. D. S. A. Alvert, 220-5700.

Faculty positions are as follows:

Accounting/Finance Assistant: Karen A. S. Alvert, 220-5700.

Four departments receive Academic Challenge grants

The Ohio Board of Regents has announced nearly $1 million in Academic Challenge grants for five universities, the largest ever. The grants will fund programs for four departments, including music, mass communication, computer science, and biology. The grants are part of the university's efforts to attract and retain students, and they will be used to fund academic programs, research, and faculty salaries.

University of Akron

The university will receive $280,000 to establish a new Department of Computer Science. The grant will support the development of new courses and faculty salaries. The new department will be located in the university's new Science and Engineering Building.

University of Cincinnati

The university will receive $227,999 to establish a new Department of Music. The grant will support the development of new courses and research opportunities. The new department will be located in the university's new Fine Arts Building.

University of Dayton

The university will receive $227,999 to establish a new Department of Mass Communication. The grant will support the development of new courses and research opportunities. The new department will be located in the university's new Media and Communication Building.

University of Toledo

The university will receive $227,999 to establish a new Department of Biology. The grant will support the development of new courses and research opportunities. The new department will be located in the university's new Science and Engineering Building.

University of Wright State

The university will receive $227,999 to establish a new Department of Biology. The grant will support the development of new courses and research opportunities. The new department will be located in the university's new Science and Engineering Building.

ASC submits contract changes for review by president, trustees

Administrative Staff Council approved recommendations for contract changes in administrative staff contracts at its June meeting. Changes are suggested in the areas of contract concerns, renewals, and salary adjustments.

ASC submitted the approved recommendations to the president and trustees for review. The president and trustees will consider the recommendations at their next meeting.

Commentary

In the last decade there has been an explosion of "writing across the curriculum" at high school and college campuses throughout the country. Close to half of our colleges and universities (47 percent) now have some form of program to train every faculty member at all levels to write in their classes.

Our goal is to provide a national listing of the colleges and universities that have written across the curriculum program in place. If any of our readers are interested in the role of writing in the classroom, please write to us and we will add your name to this list.

The effect of this new emphasis on writing means that faculty are not only being asked to design courses that require students to learn to write, but also to write their own philosophical ideas about how writing should be taught and what it means. Some of this writing will be for publication. We will publish the best of this writing next year.

Commentary Policy

Editor, the Monitor:

Our goal is to provide a national listing of the colleges and universities that have written across the curriculum program in place. If any of our readers are interested in the role of writing in the classroom, please write to us and we will add your name to this list.

The effect of this new emphasis on writing means that faculty are not only being asked to design courses that require students to learn to write, but also to write their own philosophical ideas about how writing should be taught and what it means. Some of this writing will be for publication. We will publish the best of this writing next year.

Bowers aids in updating successful book

When Dr. Richard Bowers, Student Development and Advising, received a call from the University of Miami's College of Education last year, he was not sure what to expect. The call was to help update a successful book project and not only meant updating and correcting errors but also writing the material in the same style as before.

"I thought the job would have been impossible," said Bowers. "But I was able to do it. I was able to do it in a way that was very successful."

The book was first published in 1977 and enjoyed immediate success in graduate education. The text has been updated and corrected and will be reissued in 1986.

Bowers is a member of the University of Miami's College of Education and holds a master's degree in education. He is also a member of the American Psychological Association and the American Educational Research Association.

Arrell discusses healthy lives

Eating a health personal lifestyle will be the keynote at this year's Arborea Wellness Movement in this Thursday's assembly at the Student Union.

Arrell, whose talks are heard with enthusiastic applause at Grand Slam of the University of Toledo (1986), will speak in the Student Union at 12:30 p.m. on the topic of "Living a Healthy Lifestyle." He will urge students to eat well, listen to music, exercise, and use their senses to enjoy life.

Arrell will also discuss how eating a health personal lifestyle can help students to live longer, healthier lives.

Parrish helps rekindle in Valley Forge fires

Jay Parrish, geology, is trying to put off the brush that he'll have to face in the near future. Parrish is looking to take a break from the academic world and enjoy a vacation in the mountains of Pennsylvania.

"I'm looking to take a break from the academic world and enjoy a vacation in the mountains of Pennsylvania," said Parrish. "I'm looking to take a break from the academic world and enjoy a vacation in the mountains of Pennsylvania."
Four departments receive Academic Challenge grants

The Ohio Board of Regents has announced nearly $1 million in Academic Challenge grants for Bowling Green. The grants will fund programs on four departments, including musical arts, computer science, psychology and biological sciences.

In all, the grants announced Bowling Green toward a total of $240,000 to the university. The department's priorities for the grants are to improve faculty retention, to enhance the quality of education, and to provide opportunities for research and scholarly activities.

Selection, motivation and retention are the primary objectives that the Academic Challenge grants will help achieve. The grants will benefit all organizations that have these goals, but the university will also benefit from the grants.

The Academic Challenge grants program is designed to encourage institutions to develop programs in areas that are important to the state's economic development.

Four departments receive Academic Challenge grants

And we also know that writing is a powerful tool for students. By improving our writing skills, we can achieve better grades, communicate more effectively, and think critically. Writing is a skill that we use throughout our lives, whether it's for work, school, or personal reasons. It's important to develop these skills early on and continue to practice them regularly.

The Academic Challenge grants program is designed to provide resources and support for students to improve their writing skills. By receiving these grants, our university can provide additional writing resources, such as workshops, tutoring, and writing centers.

These grants will also allow us to hire additional writing tutors and faculty members who specialize in writing. This will provide students with more opportunities to get feedback on their writing and receive personalized guidance.

In addition, the funds will support programs for improving writing among faculty. This will help ensure that our instructors are well-equipped to teach writing effectively.

The Academic Challenge grants program is designed to encourage institutions to develop programs in areas that are important to the state's economic development.

Four departments receive Academic Challenge grants

We are excited to see how these grants will impact our students and our university. By improving our writing skills, we can achieve better grades, communicate more effectively, and think critically. Writing is a skill that we use throughout our lives, whether it's for work, school, or personal reasons. It's important to develop these skills early on and continue to practice them regularly.

Obituary

Schott Patricia

Memorial services will be held for Patricia Schott, 50, who died Jan. 15. Services will be held at 11 a.m. at the University Center in the Chapel of the Presidents. The family is asking that people give to the American Heart Association, to which she was a member.

Four environmental colloquiums scheduled

The first in a series of four environmental health management colloquiums scheduled at the University will be held Friday. The colloquium will be held at 10 a.m. in the University Center in the Chapel of the Presidents. The scheduled topics include: "The Role of Environmental Health Management in a Comprehensive Health Care Services Program," "The Role of Environmental Health Management in a Comprehensive Health Care Services Program," and "The Role of Environmental Health Management in a Comprehensive Health Care Services Program." The scheduled topics will be presented by Dr. John A. Todd, a public health consultant, and Dr. Todd's assistant, Dr. John G. Todd, who will address environmental health management and environmental health management and environmental health management.

Some budget woes traced to enrollment

Changes in the level of state funding for some students at the state university were found to be due to enrollment. Enrollment also created a problem for the university, which said that the amount of money the university receives from the state for enrollment is the amount of money the university receives from the state for enrollment and the amount of money the university receives from the state for enrollment. The university also said that the amount of money the university receives from the state for enrollment is the amount of money the university receives from the state for enrollment. Black history is the focus of two-month celebration

The university is participating in a "Black History Month" celebration that will take place throughout the month of February. The celebration is sponsored by the African American Student Affairs and the Center for African American Studies.

The celebration will feature a variety of events, including a lecture series, a film series, and a reading series. The lecture series will feature speakers from a variety of academic and professional backgrounds, including social workers, educators, and community leaders.

For sale

The Center for African American Student Affairs is offering a selection of items for sale to help support the celebration. The items include a variety of books, posters, and other materials.
