Concert to feature guitar great Tal Farlow

Legendary jazz guitarist Tal Farlow will present an evening of jazz at 8 p.m. Monday, 22nd in the Recital Hall of the Moore-Moore Arts Center.

Cited as "the swinging guitar jazz guitarist," Farlow is considered a pioneer in Parisian jazz, after hearing records of Django Reinhardt and Stéphane Grappelli, who performed in New York as a young man. After moving to New York, he played with an electric guitar. He is one of the last living jazz guitarists and is known for a $600,000 contract with a London record label. Farlow, who never had any musical training, was 28 when he first felt升起 his guitar. He was born in 1925 in Cleveland, Ohio.

The program will be held at 7:30 p.m. in the Moore-Moore Arts Center.

Fire safety...

No fire alarms have been set off in the last two years. The University has not had any fire alarm problems in the last two years.

Lecture to promote peace

A Soviet woman who has become internationally known for her efforts in promoting peace has been invited to campus. Burova, who is from the city of Moscow, will be on campus March 5. Burova will give a talk about her recent trip to America.

Burova, who is a former Soviet citizen, has been invited to campus by the University's Peace Center. The Peace Center was created to promote peace and understanding among nations. Burova will speak about her experiences in the United States and will answer questions from the audience.

Program helps employees to learn supervisory skills

What qualifications and skills are required to become a supervisor at the University?

Each supervisor at the University has certain qualifications and skills. These include the ability to lead and inspire others, strong communication skills, and the ability to manage budgets.

The University also offers training programs to help employees develop these skills. These programs may include workshops, seminars, and online courses.

What are the benefits of being a supervisor?

Being a supervisor at the University offers many benefits to employees. These include a higher salary, increased job security, and opportunities for advancement.

The University also offers a range of benefits to supervisors, including health insurance, retirement plans, and paid time off.

How can employees interested in supervisory positions apply?

Employees interested in supervisory positions can apply by submitting a cover letter and resume to the Human Resources Department. The University encourages all qualified applicants to apply.

What is the selection process for supervisory positions?

The University's Human Resources Department reviews applications and selects candidates for interviews. Interviews are conducted by a panel of managers and supervisors. The selection process is based on qualifications, experience, and other criteria.

What kind of support is available for new supervisors?

The University offers a range of support for new supervisors, including training programs, mentorship, and access to resources. The University also provides ongoing support and guidance to ensure that new supervisors are successful.

What is the future of supervisory positions at the University?

The University is committed to investing in its supervisory positions and ensuring that they are attractive and rewarding. The University is also looking to the future and planning for the growth of its supervisory ranks.
Environmental programs provide unique career paths

Environmental programs provide unique career paths

Do you know which office is which?

Environmental programs work in such areas as wildlife management, forestry, environmental education, fisheries, and pollution control. Some programs focus on specific issues like wilderness preservation, endangered species protection, or toxic waste disposal. Others address broader environmental problems such as climate change, biodiversity loss, and sustainable development.

Thomas B. Coblentz, director of the Center for Environmental Programs, points to a program in environmental education that would appeal to students interested in learning more about the natural world. "This program combines hands-on experience with classroom instruction to give students the skills they need to succeed in environmental careers," he said. "We offer courses in geography, economics, and politics that are designed to help students understand the complex issues facing our planet."

In addition to these programs, there are also opportunities for students interested in pursuing careers in environmental law or policy. The Center for Environmental Programs offers courses in environmental law, policy, and advocacy that can help students develop the skills needed to influence environmental policy at the local, state, and national levels.

Fulbright Scholar is in Iceland

The University of Iowa has been awarded a Fulbright Scholarship for the 2023-2024 academic year. The Fulbright Scholarship is a competitive program that provides opportunities for international students to study, conduct research, or teach at institutions in different countries.

The Fulbright Scholar is a Fulbright Fellow who will spend the 2023-2024 academic year teaching and conducting research at the University of Iceland. The Fellow will have the opportunity to engage with Icelandic culture and society, as well as to develop their academic and professional skills.

The Fulbright Scholar will be based at the University of Iceland, where they will teach courses in their area of expertise and conduct research in collaboration with Icelandic scholars. They will also participate in cultural and social activities to enhance their understanding of Icelandic culture.

Auditions are set for Playhouse

The University of Iowa's Playhouse has announced the auditions for its upcoming production of "The Glass Menagerie." Auditions will be held on Tuesday, March 15th, at 7:00 p.m. in room 372-301.

The play, written by Tennessee Williams, is a classic of American drama and tells the story of the Glass family—a mother, a father, and their two daughters. The family lives in a run-down apartment in New York City and struggles to make ends meet.

Proposals due

Faculty who want to submit proposals for funding from the University of Iowa's Research Committee must do so by the end of March. The Research Committee provides funding for research projects on campus and supports interdisciplinary collaborations.

To submit a proposal, faculty members must complete an application form and provide a detailed budget. The application form is available online and can be submitted by email to the Research Committee at uowresearch@uiowa.edu.
