Nominations are taken for award

Nominations currently being sought are for the Paul and Ruth Ossack Research Award. The award is given annually to a member of the faculty for outstanding scholarship or creative accomplishment in the arts and sciences. Such accomplishments include publications (books, monographs, articles, computer software), original compositions/arrangements, dance or theatrical productions, symposia, art shows, conference papers, exhibits at regional or international meetings or exhibitions, and other presentations in areas of major significance. Nominations are due by the end of April. A committee chaired by the vice president for research will consider the nominations received for the Fall 1989 award.

Conservationist to speak Feb. 16

Dr. Augusto Medrano, Caribbean project officer of the World Wildlife Fund, will speak on campus Friday, Feb. 16. In addition to being director of the World Wildlife Fund's Caribbean project office, Medrano has worked in national parks in Bolivia and Central America.

The public is invited to the presentation of "The Politics of Conservation: \[...\]"

Employment

on the Lester scholarship of the Creative Arts and Humanities is available:

Deadline: March 1.

For sale

The Department of German, Russian and East Asian Languages has for sale in the Foreign Language Office:

Applications deadline approaches

High school students wanting to attend the University the summer or next fall must apply for admission before April 15. The University has admitted more than 10,000 applications for 2,850 positions for the 1989-90 fall semester and for 435 positions in the summer terms.

The 10,000 applications are the most Bowling Green has ever received. Of these, 70 percent of the applications were from prospective students wanting to go to Bowling Green as a fall entering class. Of the remaining 30 percent, the last 15 percent of the applications were submitted after April 1. Of the total applications submitted, students will be admitted on a first-come, first-served basis.

The Feb. 19 admission deadline does not affect transfer students seeking admission to Bowling Green. They may enroll in summer classes if they complete all admission and registration procedures. Prospective students are encouraged to complete the necessary procedures prior to the Jan. 15 deadline.

Bowling Green is limiting the number of students in each fall entering class so that an excellent academic standard can be maintained. A limited number of students will be admitted to the summer session starting in June and can continue in the fall semester if space permits. In addition, students may apply to Bowling Green for the 1989-90 or fall semester of Finlandia College.

Members of the Ngurra community were invited to participate in the council meeting on February 10. The council called for a vote to be taken on the issue at hand. The decision made by the council is binding and cannot be overturned by any other government body. The decision will be communicated to all concerned parties accordingly.

With regard to the issue of education, the council has decided to extend its efforts to improve the quality of education in the region. The council has approved a new educational program that will be implemented in the upcoming academic year. The program will focus on providing better resources and support to students to enhance their academic performance. The council has also decided to increase the budget allocation for education to ensure that the new program can be implemented successfully.

The council also discussed the issue of health care. The council has decided to establish a new health care center in the region to provide better access to medical services. The council has allocated a significant amount of funds to this project and has directed the relevant authorities to ensure its timely completion.

In conclusion, the council has decided to take several important decisions to improve the quality of life in the region. These decisions will be implemented in the coming years and will ensure the well-being of all citizens. The council has directed the relevant authorities to ensure the timely implementation of these decisions and to ensure that all citizens are aware of their rights and responsibilities.

Textual content: Deans' voting privileges are given support in council vote

CSC proposes wage increase and benefits for 1988-89

Text: Text is cut off.
Deans' voting privileges are given support in council vote

Members of the University Senate uncovered today that a majority of the college deans opposed a resolution that would grant college deans special privileges in voting on council issues. The resolution, which had been proposed by the college administration, was defeated by a vote of 16-1.

The resolution sought to give college deans the right to vote on certain Senate issues, including matters affecting their schools, without being present at meetings where those issues are discussed. The proposal was met with opposition from the college deans, who argued that such privileges could lead to a conflict of interest.

However, the faculty Senate voted to reject this resolution, citing concerns about the potential for bias and the need for transparency in decision-making. The college administration had proposed the resolution in an effort to streamline the Senate's procedures and increase efficiency.

Text's focus is sensory deprived children

Two faculty members are co-authors of a new book on sensory deprivation, teaching methods and developing motor skills in sensory deprived children. "Deprived Black Men, White Women: A Comprehensive Approach to Sensory Deprivation, Teaching Methods and Motor Skills Development" by Dr. Laura Kratz and Dr. John Brown, is the first book of its kind to address the issue of sensory deprivation in children.

The book examines the effects of sensory deprivation on children's development and provides practical strategies for teachers and parents on how to create an environment that promotes sensory exploration and learning. The book is aimed at educators, parents, and anyone interested in children's development.

Funding for the book was provided by the University Senate's Committee on Faculty Research and Development. The book is available for purchase at most online retailers and bookstores.

Faculty Senate looks toward 309 proposal election

CSC proposes wage increase and benefits for 1988-89

Wage survey conducted last fall. Benefits

- Increased payment of accrued sick leave (2.5 percent to 3 percent)
- Significant reduction in the cost of health care
- New retirement plan

The following proposals will be on the ballot during the next meeting:

The council has not yet voted on the proposed benefits package, which will be considered by the Senate in its next meeting.

Posters to depict current research

Posters of research from the College of Education and Allied Sciences, Department of Psychology, are being displayed throughout the academic year. The posters are part of a program to highlight current research and encourage cooperation among researchers.

The posters are available for viewing in the Psychology Department's offices and can be viewed on weekdays from 8 a.m. to 5 p.m. The program is funded by a grant from the National Science Foundation.
Annual Tuition Raffle being held

The University chooses Student Association A.I. to sponsor this annual Tuition Raffle from Feb. 29 through March 15. Proceeds from the raffle will be used to fund scholarships at the University. Tickets are available from an HSA and the Student Association Office, 216 Administration Building, for $1 per ticket or by calling Dr. Paul Hase or Susan Darve at 372-5801.

Auditions scheduled

The theatre department will hold open auditions in the Wesley Chapel, 212 and 213 in the University Union, at 7:30 p.m. on Feb. 22 and 23 in 404 University Union. For information, contact Dr. Peter Hatfield or Susan Darve at 372-5801.

Positions are filled

Several employees have recently joined the University. They are: Mary Ann Smith, secretary to the chairman of the Faculty, 371 Administration Building; Shirley Reingruber, secretary to the Dean of Admissions; and Vida Klimek, assistant director of the Women's and Gender Studies Center.

Staff are added

Two new employees have joined the University. They are: Mark Hogenson, head of the Public Service Department, and Susan Speltz, director of Residential Services.

- 12 p.m. - 4:30 p.m.: Acting assistant to the dean of the College of Fine and Applied Arts, 400 Administration Building.
- 12 p.m. - 4:30 p.m.: Acting assistant to the dean of the College of Fine and Applied Arts, 400 Administration Building.
- 12 p.m. - 4:30 p.m.: Acting assistant to the dean of the College of Fine and Applied Arts, 400 Administration Building.

New Fiorelands program turns Lake Erie into a classroom

Welsh said that he also expects other universities to be interested in the program. Many other universities currently supply researchers to Lake Erie for studies, and Welsh said other institutions in the Lake Erie region may be interested in participating in the research program. The workshops have been scheduled for this summer. Hoping to attract biologists, the program has been set up in the Lake Erie region to educate people about Lake Erie and the environment.

Andrew Bolin, assistant professor of environmental science, said that the program has been set up in the Lake Erie region to educate people about Lake Erie and the environment.

The first workshop, which is scheduled for June 12-13, will focus on the topic "Development and the Environment: Challenges for the Future." Welsh said that the program has been set up in the Lake Erie region to educate people about Lake Erie and the environment.

The second workshop, which is scheduled for June 19-20, will focus on the topic "Economic Development and the Environment: Challenges for the Future." Welsh said that the program has been set up in the Lake Erie region to educate people about Lake Erie and the environment.

The final workshop, which is scheduled for June 24-25, will focus on the topic "Sustainable Development and the Environment: Challenges for the Future." Welsh said that the program has been set up in the Lake Erie region to educate people about Lake Erie and the environment.

Welsh also said that he is planning to offer future workshops in the Lake Erie region to educate people about Lake Erie and the environment.
