Babe Born In Near East Town Proclaimed King Of Men

Ed. Note—The following story describing the birth of Christ is written to show the reader how the event might have appeared if newspaper had existed during that time.

by JOHN RADAUROUGH

BETHLEHEM, N.J., Dec. 24, 4 B.C.—The miracle of the ages occurred here tonight when, with the sound of a loud trumpet, the three kings from a far distant eastern country saw the star in the east shining directly into the manger where the Holy Child lay, and the Treasurer’s licenses give birth to a child, proclaimed the “King of Men.”

The phenomenon occurred near midnight and has caused great wonderment in this town, which is overflowed with people desiring to see the child at the birthplace of the Holy Child.

Shepherds, who were on the hills tending their sheep, reported the star appeared like a spotlight from heaven. They said that “Angels of the Lord” appeared before them telling them they had nothing to fear, that Christ, the Son of God, had come.

Magnificent music, which officials are at a loss to explain, has been heard throughout the town since the birth of Christ, and many observers believe the long awaited King has come.

In an interview with Joseph of Nazareth, he said he and his brothers had heard a loud noise, but could not understand it. Joseph made his inquiry.

Already predictions have been made about the effect this event will have in the future of the world. Some believe it is a sign that the philosophy of kindness and love will prevail in the world of tomorrow, once the young King is ready to take His throne.

Prof. Walsh Deems Unification Unwise
by Jim Anderson

How does the Navy view at unification? If we can take Fred, Frederick G. Walsh of the speech department as an example, the answer would have to be "not by rose-colored glasses.

Commenting on the most recent transfer of Admiral Denfield and the resignations of General Hoge, Walsh held in parallel the services, when there was a need to maintain discipline.

"Operation cannot be legislated," he said. "One can "tie up" the operations, but there is no guarantee that they will be followed.

Believing, however, that in certain instances, the total system of uniformation can be applied well, Prof. Walsh pointed to the possibility of single procurement divisions for government organizations using common supplies.

If television should come to Bowling Green, I dread the changes that would be made. For certain needs to hold a style show in hope that the women would catch them in their instant standing. Instead of men strolling about campus, television would catch them in the cameras would catch them in their instant standing.

"No, not when it comes to women," Mr. Anderson replied. "But boys, you're on the same road. The female will be the last to change."
