Bowling Green State University
In brief
Faculty invited to attend openhouse

On Friday afternoon, after classes, Faculty and their families were invited to attend an openhouse in the Lounge of the Center for Academic Development. Food and refreshments were served. A brief address was given by President Halford. The lounge is the new home of the Career Services Office. Faculty members were also invited to tour the new offices and to meet with the staff. The openhouse was well-attended, with many faculty members and their families in attendance.

Positions are filled
Six employees have joined the administrative staff of the University. They are:
- John M. Costello, director of the Office of Academic Life.
- Brian Sullivan, administrative assistant to the Provost.
- Scott McConville, administrative assistant to the Director of the Center for Academic Development.
- Carolyn B. Williams, administrative assistant to the Dean of Liberal Arts.
- James Brady, media production specialist.
- Mary Taylor, administrative assistant to the Director of the Center for Academic Development.

The following people also joined the University:
- John D. Brown, administrative assistant to the Dean of Liberal Arts.
- Elizabeth A. Williams, administrative assistant to the Director of the Center for Academic Development.
- Susan M. Johnson, administrative assistant to the Dean of Liberal Arts.
- James Brady, media production specialist.
- Mary Taylor, administrative assistant to the Dean of Liberal Arts.

The following people left the University:
- John M. Costello, director of the Office of Academic Life.
- Brian Sullivan, administrative assistant to the Provost.
- Scott McConville, administrative assistant to the Director of the Center for Academic Development.
- Carolyn B. Williams, administrative assistant to the Dean of Liberal Arts.
- James Brady, media production specialist.
- Mary Taylor, administrative assistant to the Director of the Center for Academic Development.

Submit fee waivers
Submit fee waivers and/ or requests for appointment to the Office of the Student who is eligible to receive a fee waiver. The deadline for submitting these applications is Friday, April 22.

Classified Employment Opportunities
The University is seeking qualified candidates for the following positions:

- Faculty positions in various departments
- Staff positions in various departments

The application process is open to all qualified candidates. The deadline for submitting applications is Friday, April 22.

Faculty/staff positions

The following faculty positions are available:

- Mathematics and Statistics (visiting assistant professor): Contact: Mary Ann H. A. Anderson (7435).
- Computer Science Department (assistant professor): Contact: Diane D. Porter (2878).

The following administrative positions are available:

- Research Assistant: Contact: David J. Anderson (2946).
- Research Associate: Contact: John G. Anderson (2946).
- Research Assistant: Contact: David J. Anderson (2946).

The following graduate assistantship positions are available:

- Graduate Assistant in Mathematics: Contact: Mary Ann H. A. Anderson (7435).
- Graduate Assistant in Computer Science: Contact: Diane D. Porter (2878).

The following positions are available in the Office of the University Communications:

- Media Relations Coordinator: Contact: Diane D. Porter (2878).
- Office Manager: Contact: John G. Anderson (2946).

CSC passes proposal on hazardous waste

The CSC has passed a proposal to manage hazardous waste more effectively. The proposal was presented to the CSC by the Environment and Safety Committee. The proposal calls for the establishment of a hazardous waste committee to oversee the handling and disposal of hazardous waste. The committee will be responsible for developing and implementing a comprehensive hazardous waste management plan. The CSC has approved the proposal and will begin implementing the plan immediately.

Senior citizen passes time off to attend class

A senior citizen, Mr. James Smith, has been attending classes at the University of Hawaii for over 10 years. He has taken a variety of classes, including history, mathematics, and literature. Smith is a retir...
AIDS: The key to prevention is to promote education

AIDS has become the single largest cause of death in the United States among people in the 15-44 age group. The epidemic is not only a medical problem but also a social, economic, and psychological disaster. According to the Surgeon General's report on AIDS, there are an estimated 3,000,000 AIDS cases worldwide, with 500,000 new cases each year. The disease is caused by the human immunodeficiency virus (HIV), which is transmitted through sexual contact, needle sharing, and other means.

The key to prevention is to promote education. This is because the spread of AIDS is largely preventable through simple, effective measures. These include abstaining from sex, using condoms consistently and correctly, and avoiding risky sexual behaviors. Educating the public about the risks of AIDS is crucial in order to promote healthy behaviors and reduce the spread of the disease.

The Center for Disease Control (CDC) has developed guidelines for promoting AIDS education. These guidelines recommend that educational programs be tailored to specific audiences, such as schools, workplaces, and community organizations. They also recommend that programs be based on the principles of effective communication, such as using clear, simple language and addressing different learning styles.

In conclusion, education is the key to prevention. By promoting healthy behaviors and reducing the spread of AIDS, we can save countless lives and prevent this devastating disease from claiming more victims.

Telefund pledges exceed the goal

Outstanding response from alumni made telefund an overwhelming success. When pledges were counted, the goal of $50,000 had been topped by a healthy margin.

"We really appreciate the support," said Dr. Dwight Kreienkamp, director of development. "It's a great way to get into the spirit of giving back to the community."

The campaign raised $55,000,000 in pledges. The funds will be used to support the university's academic programs and scholarships.

Alligies

Alligies is a disease that affects the skin and can be caused by a variety of factors. It is characterized by itchy, red, and raised areas on the skin. Alligies can be difficult to treat and can cause discomfort and embarrassment. However, there are several treatments available that can help manage and control the symptoms of alligies. These include topical creams, oral medications, and lifestyle changes.

CSC seeks self-nominations for three separate positions for 1988-89

Closed Staff Committee is soliciting for candidates for two separate positions for 1988-89. The Committee is seeking candidates for the position of President of the Faculty Senate and for the position of President of the Student Senate. The Committee is also seeking candidates for the position of Vice-President of the Faculty Senate.

Those interested in nominating themselves should send their nominations to the Chair of the Closed Staff Committee by the deadline of March 1, 1988. Nominations should be submitted in writing and should include a brief statement of the candidate's qualifications and experience.

---

For all inquiries, please contact the Office of the President and Provost.
AIDS: The key to prevention is to promote education

University establishes protective guidelines

AIDS: The key to prevention is to promote education

AIDS, the most critical public health crisis of our time. Dr. Joseph Kapper, director of Student Health Services, says the problem is even more serious at Bowling Green State University because of the size of the student body. "The numbers are much higher at BG than there are on many other campuses," Kapper said. "The problem is much more serious at BG."

Kapper, who chairs the university's AIDS task force, says that the task force is working on a number of projects to educate students about AIDS. One project is to develop a brochure that will be distributed to all students at the beginning of the fall semester. The brochure will contain information about AIDS and how to prevent it. Another project is to develop a lecture series on AIDS that will be offered to all students.

Kapper also says that the task force is working on a number of other projects to educate students about AIDS. One project is to develop a video that will be shown to all students at the beginning of the fall semester. The video will contain information about AIDS and how to prevent it. Another project is to develop a course on AIDS that will be offered to all students.

Kapper also says that the task force is working on a number of other projects to educate students about AIDS. One project is to develop a video that will be shown to all students at the beginning of the fall semester. The video will contain information about AIDS and how to prevent it. Another project is to develop a course on AIDS that will be offered to all students.

Banked TV: Teleiovision Information Assistant (grant-funded/part-time). Contact: Annmarie Heldt

Donate for scholarships

Classified Staff Council's Scholarship Committee is conducting a fund-raising effort with donations going toward larger academic scholarships for students. The drive is led by President Edward Jennings, who has pledged a personal contribution to be matched by OSU's Carle Foundation. Each classified staff member will be asked to send in a donation to the Classified Staff Council's Scholarship Fund.

For more information, contact your OSU classified representative or employees who wish to make donations can send it to the Alums Center, clearly marked for the Classified Staff Council's Scholarship Fund.
