Let It Grow...

The weather man has finally given the open sky signal for the grass in this area to brighten up to its spring green. It is now necessary to get a lot of work accomplished in a hurry, and this is a matter of student consideration.

BSB Waits $2,000...

The current World Student Service Fund drive, in conjunction with the United Nations Educational, Scientific, and Cultural Organization, is again seeking $2,000 for the University of Athens, Greece.

We have seen pictures of library and study facilities at the University of Athens. It is a pity that we cannot do anything for it. The University seems to have the same future that we Americans seem to have in the 16th century. They depict barren bookshelves, light bulbs hanging from the ceiling, peeling walls, broken clock, and unheated rooms.

On the other hand, the need has arisen for aid for the bombed out school. We can contribute in a small way by supporting the annual WSSB week and the promotion Friday night.

Letters To The Editor...

It is a rare occasion when a student has the opportunity to hear the Editor and talk to him personally. However, a student in the history of this country is so rare that he is entitled to his own editor. Therefore, let me introduce myself. My name is Paul Litzinger, a junior at the University of Michigan, who has been a student of history for many years. My research interests include the political history of the United States and the French Revolutionary Wars. I am currently working on a paper on the role of the United States in the Napoleonic Wars, which will be submitted to the History Department of the University of Michigan. I have read several of your past issues and I am impressed with the quality of the writing. I am particularly interested in the articles on the American Civil War and the Spanish-American War.

I would like to suggest a few changes to the current issue of the newspaper. First, I think the masthead could be updated to reflect the current events. Second, I would like to see more articles on the history of the United States and its role in global affairs. Third, I would like to see more coverage of local history events, such as the annual U-M Historical Society conference. Finally, I would like to see more articles on the history of the University of Michigan, including its past and current faculty members.

I would like to hear your thoughts on these ideas. Thank you for your time.

**Miami U Outruns Falcons In Track Opener**

By JIM DUECK

Miami University's track team showed Bowling Green just why they have been the Mid-American Conference champs the past two seasons as they engaged the Falcon runners, 75% to 45% at Ohio University.

The Falcons missed eight places and 19 positions in finishing their first dual meet of the season. In fact, they were practically unprepared as they wrote the defeat straight in each.

Bowling Green managed six victory belts, but only four runner-up positions.

The Falcons still looked stiff from the unusual weather of late. However, Jerry Noss and Jack Klipper turned in outstanding Performances. Jerry Noss in the 1500 meter, 110 yard hurdles, and the mile relay team had a balanced second place in each event.

Klips, the sophomore distance ace, completed the mile in 4:33:4 with Noss second most of the way for Miami's Cash Powell and Mike Stevens. Later, Stev committed some mistakes.

Miami turned out 10,883 in two additional meets.
