Senate Adds 2 Representatives, Plans Combined Charity Drive

By HALE FRALEY

With a bare quorum present, Senate President Louie Daig-ness ran up the curtain on this year’s Senate Student Monday night.

The most important legislation presented, and passed, was a constitutional amendment intended to increase the number of Green representatives from two to four.

Present at the opening of the Inter-Fraternity Council (I.F.C.) meeting were the Greek council delegates, the student representatives from the various fraternities and sororities, and the Senate council.

Daigness opened Senate by presenting the students with the problem of a Senate president living in out-of-state.

Basically, the amendment would allow seniors and juniors to run for the office, but would prohibit them if they will be unable to serve the minimum two semester terms required.

Combined drives . . .

At the meeting of Student Senate Monday night a proposed war bond sale was before the group which called for all charity committees to be combined into one drive. This would eliminate the problem of duplicating previous drives when there were innuemerable drives throughout the year.

In the past, drives held in the beginning of the year received more support because it was too unfortunate to see the same drive on the second semester, no matter how worthy the latter ones were. Another complaint to be overcome by the combined drive is the tremendous amount of credit given to any one committee. Various organizations by the time spring comes around, have their charitable natures tried to the point that giving seems to become a very monotonous procedure.

We urge the entire student body to get behind the new plan and give the committee in charge of the campaign their undivided support. If this drive is successful, all matters heard about the seemingly endless succession of charity programs will be remedied.

Truly a service . . .

From time to time, some organization will rise above the rest and the administration owes them individually and collectively to the fraternity. Nevertheless, the student body has done In the past. The brothers expect to work together when they are needed.

It is interesting to note that during this same period, one organization stood out above the rest and the administration owes them individually and collectively to the fraternity. Nevertheless, the student body has done in the past. The brothers expect to work together when they are needed.

We urge the entire student body to get behind the new plan and give the committee in charge of the campaign their undivided support. If this drive is successful, all matters heard about the seemingly endless succession of charity programs will be remedied.

Handbook Survey Includes Information On Roommates

By GENE DENT

Now that classes are operating on a full capacity scale and schedules have finally been arranged, some students are just beginning to notice the little fellow who lives in the same room and sleeps in the opposite bag.

Unless roommates have known each other it is too early to determine whether the little fellow is a good or bad roommate. Others have that unenviable task to perform.

The German Club Handbook has proved itself in this problem of what makes a good or bad roommate. One hundred sixty five students throughout the country were asked and the replies the Handbook received proved interesting.

A good roommate, according to the statistics, should shed all of his clothes, rubbish, and the rest of the room. Only four students are fortunate enough to have private rooms or bathrooms.

Ps Chi Membership

Psychology majors and minors who are interested in joining the Psi Chi national psychology honorary society should obtain information regarding the requirements, and applications should be filled out from psychology instructors or at the psychology office during the next week. Meetings will be initiated during October.

DORM WRITING

A faculty cook at the Gordon Theta Nu house this past week somehow got his recipes mixed up and his fraternity brothers ate the first 100 grams of ice cream. This cemented the membership of the Sigma Phi Eome fraternity in a life-long friendship.

Members of the Sigma Phi Eorne fraternity spent much time this past week discussing how to improve the treat of the orange on ice cream they have acquired as part of the furnishing of their fraternity house.

Sigma Chi Don Bolen of Columbus got an informal note from a fellow student asking him if he would “like to support for the Boys’ Art show” on November 15, as he withdrew from college. He is chalking at his brotherhood house ‘be cause they are working hard on studying,” he says it.
