Lilian Gish gives new donation to Gish Film Theater

Arms & Armor, Inc., has announced a gift of $10,000 to the Gish Film Theater. The gift was announced at the center's annual meeting.

The Gish Film Theater is a non-profit organization dedicated to the preservation and exhibition of the work of silent film actress Lilian Gish. The theater is located in the historic Orange Theatre in Woodstock, New York.

The gift will be used to support the theater's programming and operations, including the annual meeting, which is one of the theater's largest fundraising events.

"We are very grateful to the Orange Theatre and the Arms & Armor, Inc., for their generous support," said Gish Film Theater Executive Director, Linda M. Gish. "This gift will help us continue our mission of preserving and exhibiting the work of Lilian Gish and other silent film artists."
**Muego book takes firsthand look at martial rule period in the Philippines**

Muego said students assigned to the Philippines government also may have played a role in promoting Marcos to impose martial rule. He said Marcos and his dictatorship, which he blasted as a "cruel and sadistic regime," had no respect for human rights or the rule of law. Muego said Marcos's dictatorial government had abused its power and violated the constitution.

Muego discussed the impact of martial rule on the Philippines and how it had affected his life. He said Marcos's dictatorship had imposed martial rule on the country, which had resulted in human rights violations and the suppression of freedom of speech and the press.

Muego said that the period under martial rule had left a lasting impact on the Philippines and its people. He highlighted the legacy of violence and human rights abuses that had been left behind.

**Human Rights from the martial rule period**

Muego also commented on the role of human rights organizations and individuals in the struggle against the Marcos regime. He praised the work of these organizations in documenting human rights abuses and holding the dictatorship accountable.

Muego said that his book, "Philippines Under Martial Rule," is a call for justice and an appeal for a better future. He expressed his hope that future generations would learn from the past and work towards a better future for the Philippines.

**Conclusion**

Muego concluded his book by emphasizing the importance of remembering the past and learning from it. He said that the legacy of human rights violations under martial rule must not be forgotten.

**Send nominations**

Classified Staff Council is seeking nominations from persons interested in serving on a committee to study the need for the New Cell for the University. Nominations should be sent to Classified Staff Council Box 1, University of Toledo, 2801 W. Bancroft, Toledo, OH 43606. The selection committee will meet at the council's Jan. 17 meeting.

**Gish gift from the front page facility**

This has been a popular incentive for contributing to the endowment campaign. The funds themselves will not be used from the endowment. The memorial is scheduled for reservations this spring. The University's goal is to raise $1 million to fund scholarships and improvements in the arts building. Dr. Dwight Oldham, acting president for University relations, said, "The University is pleased to be part of this program." The memorial will be available for reservations in the future.

**Artwork adds distinctive features to campus scenery**

A large screen mural wall north entitled "History of Ideas: Communications" in the Education Building. Designed by Jan Kulisz and James A. J. R. R. L., the piece depicts an abbreviated historical narrative of manuscript communications from the 4th to the 17th century.

"Bridge Over Troubled Water," a Corten steel sculpture standing near the Education Building and the Educational Monuments Center, was completed in 1970 by former artist-in-residence Donald Donum as a memorial to the four students who were killed in the Educational Monuments Center.

**Study will focus on sexual abuse**

The long-term effects of childhood sexual abuse are under investigation by a University doctoral student. The research is part of a development project by the National Institute of Mental Health to study the effects of sexual abuse.

**Human Relations**

Muego concluded his book by emphasizing the importance of remembering the past and learning from it. He said that the legacy of human rights violations under martial rule must not be forgotten.
Muego book takes firsthand look at martial rule period in the Philippines

For Dr. Benjamin Muego, political science, Finlandia College, writing a book on his latest topic, the Philippine Society. The Philippines Under Martial Rule, was the most difficult part of the research for him. He said he had to gather information from various sources before he could write his book.

Muego said students' attitudes toward the Philippine government also play a role in preventing Marcos to implement major social reforms. "This is because the Philippine government is really not interested in changing things," Muego said. "The government is more interested in maintaining its own power and controlling the people."

Muego said the book is not an easy period to write about. "It was an extremely difficult period to write about," he said. "It was a time of great suffering and uncertainty." Muego added that he had to use a lot of imagination in writing the book.

Muego said the book has helped him understand the complexity of the period. "It was a difficult period to understand," he said. "But I think I have a better understanding of it now." Muego added that he hopes the book will help others understand the period as well.

Staff should note weather policy

In the event of severe weather, any decision to cancel classes will be communicated to faculty, staff and students by the Office of Public Relations, WBGU-TV (VT-1), WBGU-FM (FM-90), WBGU-FM (FM-97.7), WBGU-FM (FM-97.9) and WBGU-FM (FM-98.1). The decision will be broadcast at least three times during the day, with an announcement before 8 a.m., noon and 4:30 p.m. Only in severe weather will classes be canceled for the entire day.

The University class day begins at 9 a.m. Without prior notice, the decision to cancel classes must remain in effect provided the weather continues to be severe and a decision to dismiss classes will be announced before 3:30 p.m. The weather conditions may extend into the evening. In the event of severe weather, classes will begin at 9 a.m. but may be temporarily canceled.

The weather policy applies to all classes except those scheduled for non-compliance. If weather conditions make it impossible for instructors to conduct classes, the instructor may recommend the class be canceled. If the instructor cancels class, the student must notify the instructor of the cancellation.

For sale

The sociology department has seven VT-160 terminal systems with modern software programs for sale. Each VT-160 system costs $1,000. Contact M.D. Pagli of 377-2306 for more information.

Colloquium planned

Dr. Minos Katsavos, Senior Fellow, Institute for Atmospheric Physics, Massachusetts Institute of Technology, will speak on "The Future of the Atmospheric Energy and Air Pollution Issues," at a special colloquium at 9:30 a.m. Wednesday, Jan. 18 in the Plantarium. In order to analyze and understand the complex and complicated phenomena associated with atmospheric energy and air pollution, Katsavos will address the theoretical bases for pollution and future changes in the atmosphere. The colloquium is sponsored by the University of Michigan, Michigan State University, and the University of Cincinnati.

Deadline reminder

Faculty members must submit their spring 1989 W-2 forms to the Office of the Vice President for Academic Affairs by Friday, Feb. 3.

Dental plan changes

The Benefits Administration Office announced that effective Jan. 1, the University's dental plan with Delta Dental will be replaced by coverage for no more than two prophylactic cleanings and fillings per calendar year.

Previously, the benefit payable was 100 percent of the usual, customary and reasonable charges for dental services rendered by a participating dentist. Now, however, coverage is limited to a maximum of $150 per benefit period. Benefits were previously paid to the participating dentist; now the participant pays the provider and receives reimbursement from Delta Dental.
