Avise to speak on molecular evolution Feb. 15

Dr. John G. Avise, a research professor of marine biology at the University of Georgia, will speak on "Molecular-phylogenetic analysis and conservation of macro- and macro-evolution," at 7:30 p.m. in McPharlin Union.

The seminar will be held in SAA-1007 Building, 8 p.m., for students in the College of Biological Sciences.

Avise is one of the world's leading experts on molecular evolution. He is on the editorial board of the International Journal of Evolutionary Biology.

In addition, he is a co-founder of the University of Georgia's Center for Comparative Genomics. He is also a professor of anthropology at the University of Georgia.

Avise is the author of more than 300 scientific articles and 15 books, including "Molecular Evolutionary Genetics," which was published in 1998.

He is also the author of "The Biology of the Sea," which was published in 1996.

Avise is a member of the National Academy of Sciences, the American Academy of Arts and Sciences, and the American Philosophical Society.

Avise's research focuses on the genetic diversity of marine organisms, and he has conducted field studies in the Caribbean, the Mediterranean, and the Pacific Ocean.

He is currently working on a project to develop a new method for estimating the age of marine populations, which could have important implications for conservation efforts.

Avise's talk will be free and open to the public.

As a Distinguished Visiting Writer in the creative writing program, Theodore Enslin offers a unique angle to poetry by blending it with his love of music. He teaches a class in the music of poetry.

Dr. Elizabeth Rinjne, anthropologist, and Dr. Richard A. Zoller, sociologist, have been selected to lead an international workshop on sexual behavior. In a statement released this week, the two researchers were encouraged to prepare their students to study the effects of sexual behavior research on the world, including the developing nations. They will design and implement an international AIDS research policy. Since AIDS is regarded as the most important public health issue of our time, the workshop is designed to help researchers determine how to conduct effective research in the developing world.

**The show must go on--unless the performers are stung by bad luck**

In celebration of its 10th anniversary, a show was unveiled at the Student Recreation Center to honor the people who help make the show a reality, including the students, faculty and staff. The show is to be called "The Show Must Go On." The show will be performed on April 16 at 8 p.m. in the Student Recreation Center.

The show is to be directed by Dr. Thomas Wading, a co-producer of the show. The show will be performed by the theater arts program and the theater arts department.

Renowned jazz guitarist to perform

Jazz guitarist Joe Pass will appear in concert at 8 p.m. Feb. 27 at Bryan Hall at the Moore Musical Arts Center. Known as one of the most influential and respected jazz musicians of his generation, Pass has played with many of the greats, including Ella Fitzgerald, Louis Armstrong, Duke Ellington, Miles Davis, Dizzy Gillespie, and others. A special guest for the performance will be Chris Fleming, a local musician with a passion for jazz and a long history of collaboration with Pass. The event promises to be a memorable experience for jazz fans and music lovers alike.

Interested in campus concerns? Run for CSC

The Campus Senate is currently accepting applications for the 2023-2024 Senate. This is a fantastic opportunity to represent your fellow students and have a say in campus decisions. Applications can be submitted through the Campus Senate website or at the campus union. The Senate meets regularly throughout the year and provides a platform for student voices to be heard. Don't miss out on this chance to make a difference on campus.

 Classified Employment Opportunities

The University is seeking qualified candidates for these positions. To apply, please visit the University's career website and submit your resume.

New Vacancies

- Assistant Professor, Department of Psychology
- Administrator, Office of Student Life
- Director of Athletics

Closing Dates

- January 31, 2023
- February 15, 2023
- March 1, 2023

Faculty/Staff Positions

The following positions are available:

- Accounting Clerk: A great opportunity for those interested in finance and administration.
- Computer Engineer: A chance to work on cutting-edge technology.
- Librarian: A position to help students discover new ideas and cultures.

Closing Dates

- February 1, 2023
- March 1, 2023
- April 1, 2023

CSC approves proposal to ban smoking

The Campus Senate has approved a proposal to ban smoking on university property. This decision comes after months of discussion and consultation with students, faculty, and staff. The ban will go into effect on all BGSU-controlled buildings and grounds, with a few exceptions to accommodate visitors and those with special needs. The Senate believes that this move is necessary to protect the health of the BGSU community and create a healthy environment for all. The proposal will need to be approved by the Board of Trustees before it can take effect.

Different campus, different strategies

The Firelands admissions office does it all

Firelands College has a unique admissions process that sets it apart from other institutions. Unlike many colleges, Firelands does not rely on standardized test scores or GPA to evaluate applicants. Instead, the admissions team conducts a comprehensive interview to assess each applicant's potential for success. This approach has proven effective, with students who have been accepted at Firelands showing a higher rate of graduation and success in their careers.
