"NOW IS THERE anything you don't understand?" Register John Bunn, in a series of discussion meetings with male students Wednesday and Thursday of this week, clarified the latest directive to selective service boards, concern over the deferment of college men on the draft. At the same time Mr. Bunn gave the administration's recommendations based on the latest draft proposals.

Deferring college men according to ability test and class rank is only a directive to local draft boards, explained the Registrar, and is not a law of Congress. If the student opposes this, the student in question is to appear before the board and tell the recruiter why he feels he should not be deferred. It is possible to be deferred anyway.

Censorship Of Press Seen As Threat To Democracy

The cycle of history seems to be repeating itself. It was just some 15 years ago that several European countries were testing the limits of democracy. Freedom of the press was an ideal of the post and the civil liberties of men became thus or by force.

Today in the Western Hemisphere, much closer to homes, we see the same thing taking place. Freedom is threatened by the growing power of the mass media, the reproduction of the official face of the continent. Dickson Perrier of Arkansas recently talked of the need for a stronger educational program on the ideals of the press.

Perrier's concern is that we fail to use our force for appropriate freedom, for a truer role of the press. Freedom of the press is in part under the guise of public welfare or defense measures.

We should be very careful in seeing that all restrictive acts are truly made in the best interest of the public welfare. It is too easy to get into believing that a step is being taken only in the best interests of the country to have it subsequently removed. It is our duty, our responsibility, to see that these are made for the benefit of the public welfare.

The press is an instrument of democracy. To use it as a weapon against democracy is folly. A free press serves as a check on government, as a means of informing the people. It is a key to the enforcement of fair play and of the maintenance of a healthy society.

We must be doubly watchful to see that all restrictive acts have not been made under the guise of public welfare or defense measures. We need to be doubly watchful to see that all restrictive acts have not been made under the guise of public welfare or defense measures.

BG’s Lack Of Adequate Physical Education Facilities Creates Crowded Gym Situation

One of Bowling Green’s biggest problems is created by the lack of adequate facilities and space in which to carry out the necessary physical education programs. The crowded conditions in gymnasium and in 6 d extracurricular activities have become a problem. Although the enrollment has remained in line with enrolment and distress in the past year, the present number of men students. From the increase in enrollment, still remains.

Phi Mu Holds Dance

Defying superstition, the Phi Mu will start the social season for this week end with their "Book Shelf" in the Women’s Gym tonight from 8 to 12 p.m. This is the day to beware, but dancers will ignore all superstition by entering under a ladder and placing a black cat. Also, shoes are to be checked at the door before going onto the dance floor.

A design of dinner patterns, shoes and necks will decorate the walls. There will be steps from the walls to the soda and on the back drop a huge angelic sock will be placed.

Chairman of the dance is Nancy Hoffman, and helping her are Cora- lin Haus, Helen Ann Noftsger, and Adeline Reed.

Saturday night is the "Dance of the 80’s" sponsored by the Social Club Committee to the Women’s Gym from 6 to 12 p.m.

Dave Dassin is in charge of the dance and assisting him are Pat Clark, Ber Gruemel, Carol Schelber, and Nancy Brucke.

Dancing will be to the music of Bob Wolf and his orchestra, and decorated with a series of white, silver, and blue streamers surrounding the half of the gym and ceiling. The other half will be a garden scene with paper lanterns, benches and a parfait stand.

PLUS NO UNPLEASANT AFTER-TASTE

Over 1500 prominent tobacco growers say: "When I apply the standard tobacco growers’ test to cigarettes I find Chesterfield is the one that smokes milder and smokes milder.

A WELL-KNOWN INDUSTRIAL RESEARCH ORGANIZATION REPORTS:

"Chesterfield is the only cigarette in which members of our taste panel found no unpleasant after-taste."
