Program receives overwhelming response

Recreation center provides an alternative to the high calorie lunch

The halls are ever and ever is spiking at 100°F, bringing July 75 with you. It's hot, but you have to keep an eye on the clock. This chases like a beautiful fly. On top of it all, there is an extra workday here and there. The students can order a healthy lunch that can cool them off on their way back to work.

Dr. Richard Strasser, HPER, conducts the Student Recreation Center's programs and supervises the students in his exercise program. Following Dr. Strasser's directions, a student exercises with a group of new students. Dr. Strasser states that the exercise program has been a success for the Student Recreation Center. "We feel that we have provided an alternative to the high calorie lunch 6 times a week."

It is suggested that students request permission from their superiors to use the University lunch time. The program has been a success for the students who have used it. The lunch time is 30 minutes long and lunch three times a week.

Honors Program seeks faculty to teach special interest classes

The Honors Program offers a wide variety of seminars, including the Society of the American Naturalists, the Honors Program in Environmental Studies, and several others. The Honors Program provides an alternative to the high calorie lunch and seeks to attract those students who are interested in the Honors Program. The program has been successful in attracting students from a wide variety of backgrounds and interests. The courses will be held on even weekdays and Phillip Deans, assistant professor of English, will co-chair the program.

Scholarships: A good way to honor retirees

Dr. Ramona Comer, dean of continuing education and director of community education, explained that a scholarship of $3,000 is available to students who are 65 years or older. According to Dr. Comer's article, "Everyone who qualifies for this scholarship will receive a $3,000 scholarship."

That is because endowed scholarships of that level are rare. The endowment fund is in the name of the donor and is very stingy.

The development office can provide assistance in creating an endowed account or a scholarship for those who are interested. The identification of potential students and the establishment of the endowment fund in the name of the donor is also very stingy.

The development office can provide assistance in creating an endowed account or a scholarship for those who are interested. The identification of potential students and the establishment of the endowment fund in the name of the donor is also very stingy.
Honors Program seeks faculty to teach special interest classes

Each semester the Honors Program offers a host of special interest classes in such areas as Shakespeare, women's studies, American history, and race and ethnic minority studies. The classes are taught by faculty members who are experts in the fields and are enthusiastic about teaching these courses.

The courses are open to all students, not just Honors students, and are designed to be accessible to a wide range of students, including those who are not enrolled in the program.

For more information about the Honors Program or to learn more about teaching a special interest class, please contact Honors Program Coordinator Dr. Robert White at rwhite@honors.edu or (555) 123-4567.

Program receives overwhelming response

Recreation center provides an alternative to the high calorie lunch

The students are happy and excited about the new recreation center. "It's a great place to relax and unwind," said one student. "I never knew we had such a great resource on campus." The center offers a variety of activities, including weight training, cardio equipment, and group fitness classes.

The center is open to all students and is located in the basement of the Student Union. It is open Monday through Friday from 8am to 9pm and weekends from 10am to 6pm.

For more information about the recreation center, please contact Recreation Director Dr. Jane Brown at jbrown@campus.edu or (555) 123-4567.

Faculty/staff publications

Analyst R. T. J. will present "Planning for Implementation of a Small Annual Meeting Program" at the 70th Annual Convention of the National Council of Teachers of English, Columbus, Ohio, Nov. 1-4.

Service extends hours

Effective Jan. 19, the Instructional Media Services A/V equipment counter at 120 Educational Building extended its service hours to better serve the needs of classes that meet during the evening. The new hours are 10 a.m. to 6 p.m., Monday through Thursday. Friday hours remain as 10 a.m. to 2 p.m. Faculty and staff are reminded that MG 202 will remain open 24 hours a day for AV requests. For more information, call 372-2851.

Obituary

Keith Doellinger

U.S. federal income tax forms are available at Jerome Library. Free copies of the forms, provided by the Internal Revenue Service, will be available to the public for free, first come, first serve basis.

The library will also keep a file of IRS forms at the reference desk. Individuals will be able to copy the forms at a cost of 5 cents a page. Called Collen Partner, government documents librarian.

The federal tax display is located near the reference desk on the first floor of the library.

Computer users beware of bad program

A new destructive program again is allowing computer users data, recording the diskette "Trojan Horse." Once a hard disk has been formatted, it cannot be erased. The program contains a destructive program called the "Trojan Horse." The "Trojan Horse" program is similar to viruses.

Williams expects smooth transition

New business dean makes quality his top priority

Dr. Fred Williams, new dean of the College of Business at Bowling Green State University, has been named to the rank of business dean and professor of management, with the title of professor of management as dean at Bowling Green State University.

Dr. Williams is currently a professor and associate dean of the college of business administration at the University of Texas at Austin. He has also served as an assistant professor and associate dean of the college of business administration at the University of California, Los Angeles.

Dr. Williams has published numerous articles on management and has received several awards for his research in the field.

Monies are available

The Cultural Affairs Committee has established a new fund to support the presentation of cultural programs on campus. The annual $10,000 fund will be available to any department, faculty or student group interested in presenting a cultural program. The monies may be used to support the production of the program or to purchase tickets for student admission.

Scholarship created for outstanding Senior Honor of Science

A scholarship has been established through the BGSU Foundation in the name of Dr. George Gallus in honor of Dr. Gallus and his family. The scholarship will be used to support the education of a student who has completed at least 60 credit hours and who is a junior or senior in the college of science.

Anyone wishing to make a contribution to the scholarship should contact the BGSU Foundation office or send donations to the college of science.
