CSC proposes a 7.8% salary increase for staff

Staff Council approved a 7.8% salary increase for the staff in Feb. 20 meeting. The proposal to the Board of Trustees last week breaks down to a 6.3% increase across the board, with another 1.5 percent for stops and lànhhips. Bill Blevin, a member of the CSC, said, "The major reason is that the union was prepared for the proposal, so the commis­sioner has only a number of justifications for the salary request. Across the board, CSC staff council has been approved at an average of 7.1 percent over the financial year of 1989.

According to the committee's report, the board made the salary increases to be comparable with other employees. CSC's staff have been the lowest in the area, with some employees receiving 6% raises last year. CSC's staff have been the lowest in the area, with some employees receiving 6% raises last year.

The increases are not reheard at an annual meeting. The increases are reheard at an annual meeting. The increases are reheard at an annual meeting. The increases are reheard at an annual meeting. The increases are reheard at an annual meeting. The increases are reheard at an annual meeting.

Faculty members have been successful in obtaining Fulbright grants through the Fulbright Research Board. The Fulbright recipients during the past 20 years have included many who have brought to our University a variety of skills and perspectives. The Fulbright program is designed to promote international understanding and cooperation among nations. It is administered by the United States Department of State, Bureau of Educational and Cultural Affairs.

Several members of the University community have worked with the Fulbright program in various capacities. They have been instrumental in drafting the Fulbright legislation and in administering the program. Some of these members have received Fulbright fellowships themselves, while others have served as Fulbright judges.

Dr. Lester Barber, a professor of educational psychology, has received a Fulbright grant to study the effectiveness of educational programs in the Middle East. He is currently in the Middle East, where he is conducting research on the effectiveness of educational programs in the region.

Dr. David B. Johnston, a professor of political science, has received a Fulbright grant to study the political systems of several countries in Europe. He is currently in Europe, where he is conducting research on the political systems of the region.

Dr. Linda Green, a professor of economics, has received a Fulbright grant to study the economic systems of several countries in Asia. She is currently in Asia, where she is conducting research on the economic systems of the region.

Dr. John M. Smith, a professor of history, has received a Fulbright grant to study the history of several countries in Africa. He is currently in Africa, where he is conducting research on the history of the region.

Dr. Robert Martin, a professor of mathematics, has received a Fulbright grant to study the mathematical systems of several countries in South America. He is currently in South America, where he is conducting research on the mathematical systems of the region.

Dr. Linda Green, a professor of history, has received a Fulbright grant to study the history of several countries in Asia. She is currently in Asia, where she is conducting research on the history of the region.

Dr. John M. Smith, a professor of history, has received a Fulbright grant to study the history of several countries in Africa. He is currently in Africa, where he is conducting research on the history of the region.

Dr. Robert Martin, a professor of mathematics, has received a Fulbright grant to study the mathematical systems of several countries in South America. He is currently in South America, where he is conducting research on the mathematical systems of the region.

Help provide fullbright list

Faculty members have been successful in earning Fulbright grants through the Research Centers. The Fulbright recipients during the past 20 years, however, have not been listed here as only four of the recipients in this list are not part of the academic community. For several years, members of the University community have worked with a selected number of graduate students to develop a plan for improving the working conditions of a non-traditional and professional graduate student who, for example, has to work full-time to support a family and academic research. It is imperative that these students be able to make the best use of their time while doing this important work. Undergraduate students are encouraged to do similar research in African universities. The Senate chair and vice chair at the University of San Francisco, San Francisco, have contributed to a Fulbright grant for a Year of the Nation in Turkey. 

1962 - Dr. David G. Freeman, education, received a Fulbright Fellowship for a year's study of public education in Japan. 
1965 - Dr. David W. Meyer, education, received a Fulbright Fellowship on a study of the education supervision preparation program at the University of Tokyo, Japan. 
1967 - Dr. S. R. Johnson, political science, received a Fulbright Scholarship for a study trip in Latin America in 1967.
1968 - Dr. George S. Joiner, education, received a Fulbright Fellowship for a year's study of the Mexican educational system in Mexico. 
1969 - Dr. Linda G. Green, education, received a Fulbright Fellowship in 1969 for a year's study of village schools in Mexico. 
1970 - Dr. Ronald Sterlin, physics, received a Fulbright Award to lecture in theoretical physics at the University of California, Berkeley. 
1971 - Dr. Howard E. Short, education, received a Fulbright Fellowship in 1971 for a year's study of Japanese educational systems. 
1972 - Dr. Edward W. Thomas, education, received a Fulbright Fellowship in 1972 for a year's study of the Israeli educational system. 
1973 - Dr. Edward Z. Harm, graduate student, earned a Fulbright Grant to conduct research on the psychological and social aspects of living in a small group. 
1974 - Dr. Fujiko Fujiko, research, earned a Fulbright Scholarship for a study of the psychology of scientific thinking at the University of Tokyo, Japan. 
1975 - Dr. Harold A. Smith, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison. 
1976 - Dr. Martin G. Neff, education, received a Fulbright Fund for study in the field of education at the University of Wisconsin, Madison. 
1977 - Dr. William G. Grant, American literature, received a Fulbright Scholarship for study in the field of American literature at the University of Wisconsin, Madison. 
1978 - Dr. Gary H. Harvey, history, received a Fulbright Scholarship for study in the field of European history at the University of Wisconsin, Madison. 
1979 - Sorge ingfelder, graduate student, College of Arts and Sciences, received a Fulbright Scholarship in the field of music at the University of Missouri in St. Louis.
1980 - Dr. Casper Duke, international relations, received a Fulbright Scholarship for study in the field of international relations at the University of Illinois, Urbana-Champaign, Illinois.
1981 - Dr. Leslie Baker, English, named Fulbright Scholar to teach English at the University of the Americas, at the University of Panama.

1982 - Dr. Robert J. Wallace, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
1983 - Dr. Jeanne D. Maury, psychology, received a Fulbright Scholarship for study in the field of psychology at the University of Wisconsin, Madison.
1984 - Richard A. Seley, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
1985 - Dr. James E. Miller, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
1986 - Dr. John M. Smith, psychology, received a Fulbright Scholarship for study in the field of psychology at the University of Wisconsin, Madison.
1987 - Dr. John H. Anderson, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
1988 - Dr. James E. Miller, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
1989 - Dr. John H. Anderson, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
1990 - Dr. James E. Miller, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
1991 - Dr. John H. Anderson, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
1992 - Dr. James E. Miller, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
1993 - Dr. John H. Anderson, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
1994 - Dr. James E. Miller, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
1995 - Dr. John H. Anderson, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
1996 - Dr. James E. Miller, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
1997 - Dr. John H. Anderson, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
1998 - Dr. James E. Miller, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
1999 - Dr. John H. Anderson, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
2000 - Dr. James E. Miller, education, received a Fulbright Scholarship for study in the field of education at the University of Wisconsin, Madison.
**Vietnam remembered: 25 years pass, but the debate continues on the anniversary of invasion**

On Thursday (March 25) the United States will mark the 25th year since the last U.S. troops left Vietnam. The anniversary is a reminder of the proxy war that America fought in Southeast Asia for a quarter-century until a United Nations-sponsored cease-fire was signed in November 1972.

The debate over what began as a quagmire of local conflict eventually escalated into a global war. It is hard to gauge its age in years and how many years. The Hanoi regime, which has been defrocked or defrocked by the U.S. for its U.S.-first military defeat at failure to execute classic strategic operations, has seen its leaders and underlings has seen several conclusions.

One of the conclusions is that the great disparity between American and Vietnamese achievements has been decided by Hanoi's capacity to draw support from the Soviet Union and China, by its ability to construct a sense of self-sufficiency, from a sense of national purpose, and by the superior leadership of the North Vietnamese regime. As for the "nearly inevitable" on use of military might, it is said that the U.S. had not enough time, people, and financial resources to win, while the U.S. did not have the power to win.

The Vietnamese American Experience in the Korean War was due to the superior leadership of the North Vietnamese regime. The Vietnamese American Experience in the Korean War was due to the superior leadership of the North Vietnamese regime. The Vietnamese American Experience in the Korean War was due to the superior leadership of the North Vietnamese regime. The Vietnamese American Experience in the Korean War was due to the superior leadership of the North Vietnamese regime.

The American experience in the Korean War was due to the superior leadership of the North Vietnamese regime. The Vietnamese American Experience in the Korean War was due to the superior leadership of the North Vietnamese regime. The Vietnamese American Experience in the Korean War was due to the superior leadership of the North Vietnamese regime. The Vietnamese American Experience in the Korean War was due to the superior leadership of the North Vietnamese regime.

**The bowling Green campus was no exception to Hilliard and war demonstrations.**

For more information on the Vietnam war, please visit the Vietnam War Memorial in Washington, D.C. or the Vietnam Veterans Memorial in Dallas, Texas. You can also learn more about the war by visiting the Vietnam Veterans Memorial in Washington, D.C. or the Vietnam Veterans Memorial in Dallas, Texas.

When it comes to royal flushes, Union room is fit for a queen.

Hotel baronne Lina Helmsky will be at the hotel's bar to sign copies of her new book, "The Union Room is Fit for a Queen." The book details the history of the Union Room, which was originally opened in 1928 as a private club for women. The Union Room has been a popular spot for women's social and cultural events over the years.

The Union Room is located on Campus Drive, off of Massachusetts Avenue, near the intersection of Massachusetts Avenue and New Hampshire Street. The event is free and open to the public.
