Summer School Enrollment Reaches Record Postwar Low

G.I. Enrollment Falls To Increase

Summer session enrollment reached an all time postwar low this year with 1,044 students registered in the three colleges and the graduate school, according to figures released from the registrar's office.

The tabulation shows this year's enrollment is far below last year's 1,430 and the record high of 1,513 in 1946. It was expected that the expiration of the Veteran's Benefit Bill (G.I. Bill) on July 25, would boost the veteran enrollment considerably. However, figures for the veteran Administration, Office show that only 299 veterans enrolled this summer. This figure as compared to last year's 677, and 766 in 1946, indicate that expectations simply did not materialize. The veterans attending are considered to be those who are continuing directly from undergraduate school.

Greatest increase was expected in the graduate school, but Dr. Emerson Seck, dean of the graduate school, said to apparent increase has been noted.

Most of the summer attendance is at the Huron Playhouse, and teachers registered in the workshops are included in the tally.

Summer Job Openings Listed

The local Unemployment Com- pensation Bureau has announced that it now has 230 full time job openings. There is little part time work available at the present time, however.

The full time jobs consist mainly of construction work. Although part time work is scarce at present, seasonal labor has been provided in the summer. Workers on windows, unloading moving vans as they exist in the city, raking lawns, trimming shrubbery, and general house work will be available for the type of jobs that will be filled as the occasion arises.

Mr. Orville Essinger, head of the Ohio State Employment Dept., stated that quite a few students have been placed in similar positions, and that interested students should stop in at the Bureau's office, 10th West Wooster, and place their names on the calling list. They will be contacted when a job comes up.

Future Freshmen Visit B.G. Campus

The first group of freshmen who will enter the University this fall arrived yesterday to spend a day on campus in order to get a taste of college life.

Ralph E. Geer, new student counselor, said the plan was de- signed to give freshmen and transfer students the opportunity to become better acquainted with the University and to select in advance the course of study they prefer to follow.

The program provides the opportu- nity for freshmen to visit the campus and buildings, have individual conferences with the deans, select courses, take the required academic aptitude test, arrange for housing, and to pay fees.

Earl B. Caudill, dean of students, will hold conferences with parents to discuss and answer questions pertaining to student ad- justment to college life.

Each summer the NEWS staff finds itself in something of a quandary. It has to design and publish a paper that appeals to two different types of students. During the hot and arid Bowling Green summer sessions teachers come from the surrounding territory to mingle with the younger group of students who are here during the regular school year. The NEWS is in the peculiar position where it must produce a publication that does not appear too facetious to the older person and yet not be too stuffy for the young person’s tastes. At times this situation can cause the staff a few trying moments. To make the matter even worse the summer paper is usually understaffed.

This summer the NEWS will try to remedy the situation by attempting to strike a medium between the two age groups. In the past it has been unsuccessful. Again this year the NEWS wishes to extend a welcome to old students and new students for the 1951 summer session.

In the past the NEWS has advocated the use of the suggestion box. In the past it has been unsuccessful. Again this year the suggestion box will be at the disposal of students. We welcome any suggestions or criticisms that will help improve the quality of the publication.

The NEWS wishes to extend a welcome to old students and new students for the 1951 summer session.

In review the NEWS would like to explain its policy to any student who has the right to submit letters to the editor. Any position or stand taken by the paper is decided upon by the policy board consisting of the Editor-in-Chief, Managing editor, and the Sports editor. In cases of highly controversial issues the Faculty Advisor has the right of final decision. This decision may be appealed to the Publication Committee. Any student has the right to submit letters to the editor. But before these letters are published they must be signed by the writer and meet the approval of the policy board.

Kennedy Organizes
'51 Summer Chorus
Students, faculty, townpeople and air force men make up the sixth annual summer chorus under the direction of Dr James Paul Kennedy.
The chorus had its first meeting last Thursday night, and will rehearse for six weeks before its concert on Friday, Aug. 3.
The only prerequisite for the group, which has had from 60 to 120 members in previous years, is an active interest in music.
According to Dr. Kennedy, the group is a "recreation in music" chorus. Music to be sung will be selected to please various musical tastes.
Margaret Weppler and Joan Duke will be accompanists for the group.

Summer Activities Include
Weekly Orchestra Dances
For the summer session the Social Committee has planned a disc dance every Friday night and every Saturday an orchestra dance.
John Christian has been contracted to play for all the Saturday dances. His seven piece orchestra has played several dances here in the past year. John gauges the music to meet what colleges like and he was chosen for the summer out of five contractors.

Heading the Social Committee for the summer months is Jack Taylor, whose office is in the Dean of Women's Office. He is in charge of scheduling all the dances, movies, and the events planned by the campus organizations.
Since Jack is working on the committee alone, none of the dances will be decorated. However he wished it to be announced that if any group or organization wishes to decorate for any dance the committee funds will furnish the materials.

If any person has any suggestions for improving or adding to the weekend social activities they will be gladly accepted by the committee. Office hours are 9:30 to 11 a.m. Monday through Friday.

Thanks of appreciation are extended to the faculty by the Social Committee for its cooperation in helping to make this a successful social season on campus.

Starting off this weekend is a disc dance in the Women's Gym from 9 to 11:30 p.m. Vendor services will follow.

Interested persons are asked to sign up in the Chapel.

Jim Whittaker Goes To Canton

James W. Whitaker resigned from the university health and physical education and coaching staff on June 10 to accept a position in the Canton school system.

Starting in August, Jim will be an assistant in football and basketball at Canton Lincoln High School. He will also handle a spring sport. Canton officials did not disclose his teaching duties.

Mr. Whitaker graduated from Bowling Green in 1949 and has been a member of the athletic staff while working on a master's degree. He expects to complete his graduate work this summer.

The former Sandusky football and track star has worked as assistant football and freshman basketball coach for two years. In football he was chief scout and coach of the backfield.

After five years' army service with duty in the Philippines, Mr. Whitaker entered Bowling Green but recurring malaria attacks restricted his athletic competition to track.
