Senate proposes rank of lecturer for temporary, full-time faculty

Faculty Senate approves a new faculty rank of 'lecturer,' which is intended to fill the full-time temporary faculty position that has been previously vacant in many departments.

The resolution, which will require Board of Trustee approval, describes the position of lecturer as a full-time, non-tenure faculty position for which there is no stipend in the number of years required for completion of the degree. The position is intended to be used in those academic units that do not have a comparable tenured position. The lecturer position will be funded by the division or department that has been approved by the Board of Trustees.

The lecturer position is intended to provide an opportunity for experienced faculty members to continue to contribute to the academic mission of the University. The lecturer position is also intended to provide an opportunity for experienced faculty members to continue to contribute to the academic mission of the University.

Heldt named executive director

Annmarie Heldt, director of administrative services at the University, has been named executive director of personnel at the University.

The University's Omi Delta Kappa society tapped O. G. Herbert Heidt, a member of the Board of Trustees since 1987, to head the national honor society.

"I am very pleased to welcome O. G. Herbert Heidt to our University," said O. G. Herbert Heidt. "He brings a wealth of experience and knowledge to our University, and I am confident that he will serve as an effective executive director."
Hyslop

The term is 1978-1980. If the votes are close, the chair of Faculty Senate, he will try to do everything possible to bring both sides to an agreement. If there is a majority vote, the recommendation will be sent to the administration of employee benefits.

When issues affect the entire University, we should have a working council dedicated to resolving issues. Prior to Dr. Hyslop's involvement, there have been several who have tried to resolve the problem of the council as a whole, and have been unsuccessful. Some university members lack council leadership, representation, and the number of people involved to make the council effective.

When staff members feel there are problems with the current elected officer and the Board of Directors, they have approached the council for assistance. The president of the organization is what brings the council to work for the benefit of dedicated staff as a whole, the members of the council, and the number of people involved to make the council effective.

When some staff members feel they are not sure if we ever have a recommendation to the Board of Directors. They have raised the issue of the non-renewal of contracts in the last few years. They have said that when they have heard the charges that were raised, they have been told that they must be met before the non-renewal of contracts is unique to our organization. They have said that the non-renewal of contracts is unique to our organization.

Hyslop

Dr. Hyslop's main goal in his short time as chair of Faculty Senate is to get the body back on course and functioning again. In total, it will have presented over four meetings by the term's end. This academic year concludes, but already the senate has felt a lack of leadership in the development of a new officer and the strengthening of a new leader. The president of the organization is what brings the council to work for the benefit of the administration of employee benefits.

Campus leaders focus on issues important to their constituencies

Jill Carr
Administrative Staff Council

Each year Administrative Staff Council considers a variety of issues that affect its constituency, but Jill Carr, chair of ASC, thinks it is about to face one of the most important. "We've had a good year so far in terms of employee benefits," Carr said, "but now the issues confronting us are significant in number and cost component measures. "We want to make sure we can handle them, and that the challenges are passed on to us," Carr said.

"We can show there is a need for the request and it's possible," the administrative staff council said. "We've had a good year so far in terms of employee benefits," Carr said, "but now the issues confronting us are significant in number and cost component measures. "We want to make sure we can handle them, and that the challenges are passed on to us," Carr said.
