## Macalester College President To Give Commencement Talk

### 2nd Summer Session Enrollment Is Again New Record High

Summer enrollment for the second session has again broken all previous records as figures released by Glenn Van Wormer, registrar, indicate that 1,677 students are attending classes this session. This total tops last year's second Summer Session peak of 1,437 by 240. First session enrollment also hit an all-time high as 2,421 students enrolled for classes, including 172 students in the new extended session for incoming freshmen.

Of the 1,677 total, 887 students are men and 790 are women. There are 206 in the College of Business Administration, 744 in the College of Education, 250 in the College of Liberal Arts, and 333 in Graduate School. Ninety-six are transient students and 66 special and unclassified. Eighteen students are enrolled in two colleges. Two students are from foreign countries, 78 from other states, and 1,597 from Ohio.

Twenty-nine per cent of the students enrolled are living on campus this session. This compares with 36 per cent last session. There are 166 women in the Summer Residence Center, 105 women in Shatzel, and 226 men in Rodgers. At the present time 253 students are registered for Second Session workshops.

### Schmeltz, Broudy Visit ROTC Summer Camp

William F. Schmeltz, dean of the College of Business Administration, and Col. Harold Broudy, chairman of the department of military science, were among the representatives from 27 colleges who last week visited the 1,270 cadets from their institutions who were attending ROTC Camp at Fort Knox, Ky.

The cadets were in their fifth week of their six weeks of intensive field training and practical work at summer camp in preparation for their commissions as second lieutenants in the Army upon graduation from their respective colleges and universities.

The educators who visited the camp had a chance to watch how their own students reacted to the intensive training and also had a chance to operate some of the equipment.

"I was greatly impressed with the showing of the 33 boys from Bowling Green and saw that they were getting very good training," Dean Schmeltz said. "Even though the men had been awake for many hours their spirits were still high and they were ranked right at the top in all the competition with the other schools."

Dr. Harvey Mitchell Rice, president of Macalester College, Saint Paul, Minn., will give the main address at the University summer commencement in the ballroom at 10:30 a.m. Thursday, Aug. 24.

More than 330 persons will receive bachelor's and master's degrees from President Ralph W. McDonald.

Dr. Rice, former president of the American Association of Colleges for Teacher Education, and president of the Minnesota Private College Fund, will consider "Horizons Unlimited."

Starting as a high school teacher in his native state, West Virginia, he has served education for more than 30 years as a teacher and administrator in secondary schools, and as a professor, scholarship supervisor, department chairman and president at the college level.

Dr. Rice, a frequent contributor to various educational magazines and the author of three books, is active in civic, professional, and church organizations in his community. He is a member of the American Association of University Professors, American Association of School Administrators, American Historical Association, American Legion, Rotary Club of Saint Paul, Elks and the University Club of Saint Paul. He is the past president of State Teachers College, Oswego, N.Y., and State University College for Teachers, Buffalo, N.Y.

Dr. Rice

A graduate of Concord College, Dr. Rice earned his master of arts degree from West Virginia University, and his doctor of philosophy degree from The Ohio State University.

## 'Jeep Around World' Here Aug. 7

A colorful trip, "By Jeep Around the World," featuring the adventurous year-long solo journey of Ted Bumiller, will be presented at 8 p.m., Monday, Aug. 7 in Hanna Hall.

Mr. Bumiller, young Cincinnati architect, is the first person to encircle the world in a jeep. He has pictures to show what he did

and saw as he traveled across the highways of the world from the day he set sail from New York until he returned one year later at the port of San Francisco.

Traveling through 30 countries, he took pictures of familiar landmarks, the unusual in the life of the people, ancient handicrafts, marvels of architecture, and strange animal life.

"BY JEEP AROUND THE WORLD"—Will be presented by Ted Bumiller, Cincinnati architect, who indicates the nature of his world encircling tour in the above picture. The film will be presented by Mr. Bumiller at 8 p.m., Monday, Aug. 7 in Hanna Hall.

EMERGENCY VEHICLE—Patrolman Harold Ackerman poses with the University's new emergency station wagon, which is equipped with the latest in life-saving devices. The car will be on call 24 hours a day at extension 311 or 256.

## University Gets Emergency Car

"It will be a great service to the University," said Major Brooks D. Anderson, director of University security, in referring to the new emergency station wagon.

He continued by telling of how the acquisition of such a vehicle has long been the desire of President Ralph W. McDonald.

"The car, a 1958 Ford, will be equipped with the latest life-saving devices. It will contain a wheel stretcher that fastens into the rear of the station wagon, and a portable stretcher that can be transformed into a chair to carry ill and injured victims down flights of stairs."

The car will be equipped with a fire axe and four fire extinguishers, that will be able to cope with any type of fire that might occur. In addition there will be four gas masks and an all-purpose first aid kit.

Also among the list of equipment, that was priced at about \$1,000, will be a resuscitator-inhalator-aspirator that will be used to revive people that have been overcome by smoke, a heat stroke, or suffered a heart attack. There will be two resuscitators—one for adults and one for children.

Another piece of equipment in the radio-equipped car, will be the five-in-one tool, the Huxbar.

The Huxbar can break down any door, unscrew any fire plug connection and also be used as an axe.

"This car will be on call 24 hours a day. Each of our patrolmen has been trained in the use of the new equipment. In case of emergency, the car can be obtained by calling the University police station at 311 or 256."

## 2 Former Members Of University Die

Two former members of the University died during the past month. The first, Edward Wade Anzalone, died in Cleveland Lakeside Hospital July 8 after a long illness. He was 22 years old.

Anzalone's attendance at the University had been irregular because of illness. He was a member of Theta Chi fraternity.

The second death occurred last Saturday when Dr. Bernard Frederick Nordmann, 74, professor emeritus at the University, committed suicide by hanging. He had been despondent over recent ill health, caused by heart trouble.

Dr. Nordmann had been a professor of history at the University from 1929 until he retired in 1958.

WHAT IS IT?—No, it isn't a cage for freshmen or a home for a baby gorilla. This thought-provoking fence has been constructed to protect the new meteorological equipment for the geography department. The fence is located behind Hayes Hall within easy access of the geographers. Delicate instruments for predicting and analyzing weather conditions will be installed soon.

# Summer Construction, Remodeling In Progress

By Ann Jett

Signs of the extensive building and repair program at the University are evident in many areas of the campus this summer.

Construction work on the women's residence center located on Ridge Street and the addition to the Fine Arts Bldg. are progressing.

Gate Theatre is nearly razed. Next to go will be Ivy Hall and the residences on Thurstin Street, between Gate and Ivy. In the space now occupied by Ivy, a new Founder's parking lot will be constructed this summer. Gate will be replaced temporarily by a storage lot for the contractors working on the new Administration Bldg. between Shatzel and the Music Bldg. Actual construction work on the Ad Building is expected to begin soon. A fence to protect the area already has been erected and excavation for utilities began this week.

**REMNANTS OF THE PAST**—This dedication plaque seemed to hang on to the past as it bravely withstood for a few hours the demolition crew which worked on Gate Theatre this week. Gate was razed to make room temporarily for a storage lot to be used by the contractors about to begin construction on the new ad building across the street.

### Williams Renovated

Williams has been completely renovated and now is being occupied by participants in the National Science Foundation Institute. The interior of the building was painted throughout, built-in wardrobes were constructed, new

carpeting installed in the main lounges, and all student rooms equipped with new beds, study tables, dressers, and chairs.

Remodeling of Kohl Hall is now in progress. The interior of the building will be painted, bathroom facilities modernized, communica-

tions system improved, new floors installed in the dining room, and new beds, refinished dressers, study desks, and chairs placed in the student rooms.

The residences on Fraternity Row also are being remodeled and redecorated this summer. The interior of each building will be painted, and new doors, closets, kitchen equipment, telephone booths, light fixtures, and new acoustical ceilings in the dining rooms and lounges installed.

### Campus Gets Benches

Fifteen park benches given by the classes of 1962, 1963, and 1964 have been ordered and will be placed in suitable spots about the campus.

A sundeck on the roof of Treadway Hall is now under construction. The deck will be surrounded by a high fence of sprayed-on fiber glass decking.

Founders also is receiving a 50-ton air-conditioning unit which is being installed in the dining room.

Three large, illuminated outdoor bulletin boards will be placed at strategic locations on campus in the near future. The following heavy-traffic areas have been chosen for the bulletin boards: north of the University Commons along the walk running to the men's housing area; at the junction of Founders Quadrangle and the Home Economics Bldg.; and the area near Williams Hall and the Union.

**Sound System Installed**  
A new and improved sound sys-

**THAT'S SHOW BIZ**—The curtain came down in Gate Theatre for the final time during last semester. Now it is being followed by the walls. Future plays of the speech department will be presented in the Joe E. Brown Theatre in the Ad Bldg.

Photos by Joe Ryan

## Recreation Site Chosen

Ten thousand square yards of play area—that's what students can look forward to this fall upon completion of a recreation area north of the Men's Residence Center and east of the Fine Arts Bldg.

"Once the contracts are let (near the end of August), we'll exercise all power to see that the recreation area is completed by the time the students return to classes," said Dr. Donnal V. Smith, dean of students.

Dean Smith said the area will be 100 yards wide by 100 yards long, all blacktop surface except for an area 85 feet by 185 feet in one corner. This rectangle will contain an ice-skating rink for winter use, and an area for danc-

ing and roller-skating in warmer weather. This area will have a cement surface.

Included in the blacktop area will be six basketball courts, with four baskets per court; six volleyball courts; eight single-wall handball courts, which can be used to bat tennis balls against; and four paddle tennis courts.

Though the recreation area is on the "men's" side of campus, Dean Smith emphasized that women will be permitted to participate in activities there. They just will have to get a little walking exercise before they can use the recreation facilities.

### Monday Movie

"On The Town" starring Gene Kelly, Frank Sinatra, Betty Garrett, Ann Miller, and Vera-Ellen will be the last offering of the Monday Movie series for this summer. The musical, which features dance numbers staged by Gene Kelly, is scheduled for 6:30 p.m. Monday, July 31 in Hanna Hall.

## Day Around Town

# Movies, County Fair, And Jazz Highlight Summer Activities

By Terry Day

As the summer weeks go by, summer students, so eager to learn, find a favorite pasttime. It is a game of discussion called "gripping," and the main topic is that there is nothing to do on week ends. It is a justifiable gripe, however, for after spending five hard days and nights in the quest for knowledge, who wouldn't be frustrated with the thought of spending two nights and days doing BLAH?

Do not despair, there is a cure. The cure is this column, written to give you a factual (?), up to date account of what is happening and where to go, around town and the area.

### New Bowling Arena

A new place for the students of BG to flock on week ends has just opened. It's the Varsity Lanes, a new concept in bowling, on Route 25 (south) and is open 24 hours a day. There are 16 lanes and a modern snack bar to boot. The interior is modern and the ceiling is built to keep the sound of the bowling down. This is the ideal spot to take a date and a variety of beverages are served.

Student rates are 35c (plus ID card) per frame in the afternoon until 6 p.m.

On campus July 31, Gene Kelly and Frank Sinatra star in the musical comedy "On The Town," the story of three sailors that go out for a week end on the town in New York City. Kelly's dance routines have never been equalled since this movie, so the critics say, and Frank, well, he's always good. ID card will be needed for the movie in Hanna Hall.

### Jeep Traveler Here

Ted Bumiller will be on campus Aug. 7. He's the Cincinnati architect that traveled around the world by jeep. He will show films of his 61,000 mile journey.

The second watermelon cutting will be held at Urschel Pond. This is a time when everyone goes over and stuffs himself at the expense of the school. Watermelon is the only dish but it was good the last time.

Wood County presents its annual fair Aug. 7 through 12, so start to save your coin (dollars).

This year should be one of the best for the county fair which is generally considered one of the "swingiest" fairs in the area.

It starts out with the "Frosty Ice Show," an ice show on wheels. Starring in this ice show will be some of the top skaters in the nation. On Aug. 8 the Elmer Hinkle variety show will be the major attraction. Included in this show will be Miss Sandusky, national junior grand champion baton twirler. On Aug. 9 Pee Wee King and the Cowboys of the Golden West will be the main attraction. We'll list more of the top performers in the next issue.

### Civil War Featured

Featured during the entire fair is perhaps one of the most interesting displays ever to be shown in this area. It is the Civil War Panorama put on by Showalter's Blue and Gray.

Mr. Showalter, a serious student of Civil War history, has recreated in miniature the important events of the War between the North and South.

The public can be an eye witness to the battles of Fredericksburg, Gettysburg, Harpers Ferry, Sherman in Georgia, and view Ashby's Cavalry in action.

More than 10,000 soldiers, cannons, and horses of the Civil War period are being used in the exhibit. There also will be a few men and women dressed in the uniforms of clothes of the period.

### Contests Open

There will be many contests like baking, photography, and art which students may enter. For information stop in the B-G News office and ask for the Fair Book.

In Detroit they are meeting, all the greats in JAZZ will be there Aug. 5 and 6. The Cobo Con-

**DUAL WINNERS**—Dave Reklitke, left, and George Rager, right, walked away with all four trophies in the first session bowling tournaments. Reklitke placed first in the head pin tournament with a total score of 606 and second in the regular tournament with a score of 1,094. Rager won the regular tournament with his score of 1,181 and placed second in the head pin tournament with 591. They are receiving their trophies and congratulations from Bob Benjamin, chairman of the UAO bowling committee. Second session tournaments are set to get under way at 6 p.m., Tuesday, Aug. 1 when the preliminary will be held for the regular tournament. Preliminaries in the head pin tournament will be at 6 p.m., Tuesday, Aug. 8. Finals for both tournaments will be the evening of Tuesday, August 15. Registration for either tournament may be completed through tomorrow in the UAO office, third floor of the Union.

tion Arena will be the setting for the third annual American Festival of Music, formerly the American Jazz Festival (it's gettin' high class maybe?). The Arena holds 14,000, but if you plan to go you'd better order tickets. (Order blanks can be obtained in the journalism office.) The tickets start at two bills and run to six. The Arena has stereo sound so do not feel that you will miss anything if you don't buy front seat tickets.

### Jazz Artists Listed

The greats that I speak of will appear as follows: On Saturday night, Tony Bennett (the latest dope is that Julie London will take his place instead), the Dave Brubeck Quartet, the Pete Fountain Quartet, and the Wes Montgomery Quartet. On Sunday night all the wild ones appear—Count Basie and Orchestra, Jonah Jones Quartet, Cannon Ball Adderley and Quintet, Miss Nina Simone, and Lambert, Hendricks, and Ross. It has been suggested to me by the Festival's publicity director that the students will find the Hen Rose Hotel their best bet. The prices are low and the living quar-

## OFFICIAL ANNOUNCEMENTS

Faculty members needing academic regalia for the August commencement are advised to place their orders at this time at the University Book Store.

August graduation announcements are on sale at the University Book Store.

Students who expect to complete requirements for degrees to be conferred in August should have their measurements taken for cap and gown at the University Book Store in the Union. No deposit is required at the time of order.

## Activities Office Moves To Moseley

The office of student activities has been moved to the north end of the ground floor of Moseley Hall from Gate Theatre, which is being demolished.

Located in this suite of newly decorated offices are headquarters for Richard A. Weaver, coordinator of student activities, his assistant, Mary Rudd, and the officers of student council, Association of Women Students, Panhellenic Council, Student Court, and Student Cabinet. A new courtroom is also under construction in the same location as well as a student lounge.

ters are nice. (From five and up). It is also within walking distance of the Cobo Arena so if you think you are going to go write for a reservation.

So no longer can you gripe, (not too much that is) and we'll be seeing you around town or Detroit town. Have fun and if you go, go safely, like watch your speed man.

## Huron Crew On Campus Aug. 14

No Huron Playhouse productions are slated for campus until Aug. 14 when "Down In the Valley" and "My Heart's in the Highlands" will appear but that doesn't mean Huroners aren't busy at the present time.

"Oklahoma" is the current presentation in the vacation city on Lake Erie through Saturday.

A play which was received well on campus last year, "You Can't Take It With You," opens next Tuesday for five performances. Written by George S. Kaufman and Moss Hart, the Pulitzer prize-winning play has become recognized as one of the most successful comedies of modern times.

Directing the production is Lawrence Selka, who previously directed "Tall Story," which opened Huron's thirteenth season of summer stock July 11 through 15. A member of the Playhouse staff, Mr. Selka has worked with theater companies in Washington, D.C., and Palm Beach, Fla., in addition

to producing several prize-winning films for the United States Air Force.

The one-room set is being designed by John Hepler, technical director, who holds the same position at the University. Mr. Hepler has designed a total of some 130 productions in his professional career and is serving at the Playhouse for his tenth year.

Reservations for "You Can't Take It With You" are now available. Regular admission prices are \$1.50 for adults and \$.50 for children. Curtain time is 8 p.m. EST. For information and reservations, write the Huron Playhouse, Box 124, Huron, or call 437-2171.

### Thursday Topics

"Some Odd Fish," a discussion of tropical fish as a hobby rather than a science will be featured at Thursday Topics at 3:30 p.m., today in the Dogwood Suite. Dr. George Herman, associate professor of speech, who has been raising tropical fish for more than a year and describes himself as an "ardent hobbyist," will lead the discussion.

## Richard Miller Presents Concert Here Thursday

Richard Miller, a leading tenor with the San Francisco, San Antonio, and Zurich Opera Houses, will present a concert at 7:30 p.m., Thursday, Aug. 3 in the Recital Hall, Music Bldg.

Mr. Miller is a frequent symphony, oratorio, and concert soloist known throughout the United States and Europe. He spent five years in Europe where he was heard in more than 250 performances of 30 major roles.

He holds bachelor's and master's degrees of music from the University of Michigan, and a diploma in voice from the St. Cecilia Academy of Music, Rome.

He also has pursued private vocal study in Marseilles, Rome, and Milan. He is presently an associate professor of voice at the University of Michigan.

Mr. Miller will be accompanied by Charles Fisher, assistant professor of piano, at the University of Michigan.

The program will include "Let the Deep Bowl" and "The Princes Applaud" by Handel; Italian numbers by Bellini, Puccini, Scarlatti, and Fedeli; German numbers by Wolf; and French songs by Duparc.

## Second Melon Cutting Planned For Aug. 9

Urschel Pond will be the scene of the second watermelon cutting at 3:30 p.m., Aug. 9 rather than Aug. 2 as previously scheduled.

All employees as well as students on campus are invited to join in the fun and eat plenty of free watermelon, according to Richard Lenhart, program director of the University Union.

At the first watermelon cutting this summer, July 12, 500 people consumed 45 watermelons.

## Ohio House Resolution Praises McDonald's Work At University

Ed. Note—The following resolution, written and introduced in the Ohio House of Representatives by Rep. Charles F. Kurfess, Perrysburg Township and a graduate of the University, was passed by the House June 30. It recognizes the accomplishments and contributions of Dr. Ralph W. McDonald to the University and the state in his 10-year term as University President.

WHEREAS, The members of the House of Representatives of the 104th General Assembly have learned of the resignation of Dr. Ralph W. McDonald after 10 years of meritorious service as President of Bowling Green State University; and

WHEREAS, The members of the House of Representatives take great pride in the growth of Bowling Green State University under the leadership of Dr. McDonald during which time the University's academic standing has been developed to a position of prominence in the nation; and

WHEREAS, The aforesaid growth and development have been due to the dedicated service of an outstanding, well qualified faculty, which has been drawn to the University and the work of a fine administrative staff under the leadership of Dr. McDonald; and

WHEREAS, During the past 10 years Bowling Green State Univer-

sity has not only developed greatly on its local campus but has established University branches and extension courses throughout northwestern Ohio, thereby bringing the availability of higher education to many additional citizens of Ohio; and

WHEREAS, In these times of world tension when the inculcation into our youth of the principles of the American way of life and the precepts of living on a high moral plane become important in order that our citizens of tomorrow may be able to meet the challenge of their times, we note with great satisfaction the contribution of Bowling Green State University to the lives of many of our young people; now, therefore be it

RESOLVED, That in tribute to and recognition of his service as an educator, scholar and administrator whose achievements are best evidenced by observing the accomplishments and character of those young men and women who have had the benefit of his guiding wisdom and dynamic outlook, we the members of the House of Representatives of the 104th General Assembly of Ohio in adopting this resolution and causing a copy thereof to be spread upon the pages of the Journal sincerely wish Dr. Ralph W. McDonald and Mrs. McDonald much happiness, health, and success in all future endeavors; and be it further

RESOLVED, That the Clerk of the House of Representatives transmit a duly authenticated copy of this resolution to Dr. and Mrs. Ralph W. McDonald and to Mr. E. T. Rodgers, President of the Board of Trustees of Bowling Green State University.

## '57 BG Graduate Joins News Service Staff

Evan P. Urhammer has joined the University News Service as assistant news director. He is a 1957 graduate of the University.

As an undergraduate student Mr. Urhammer was active in Sigma Chi fraternity, Alpha Phi Omega service fraternity, Delta Sigma, men's journalism honorary, and in many other activities including various student publications. He also did additional work in education at Ohio Northern University.

Prior to accepting this position, Mr. Urhammer taught English and Business English for two years at Memorial High School, St. Marys.

## Photo Service Starts New Price System

James R. Gordon, director of the University News and Photography Service, has announced that the photo service has expanded to the point where it has become necessary to institute a cost recovery plan.

Mr. Gordon said the new system of charges is to help insure that more thought goes into the ordering of photographs by University personnel. The charges will cover less than half the expense of the photo service.

Anyone who wishes a list of the prices may contact Mr. Gordon at 104 Hanna Hall.
