RUSH COMES TO AN END, AS NEW PLEDGES ARE GREETED BY ACTIVES

274 Men Accept Fraternity Bids

Formal fraternity rush ended Saturday morning with 274 men accepting bids to join social fraternities.

Delta Tau Delta received the largest pledge class. The Delts pledge 39 men.

Kappa Sigma received the second largest pledge class, pledging 32 men.

"This is the largest number of men that have ever joined the fraternity system at one time. It is certainly reassuring to know that there is so much interest in the fraternity system at the University," said Christopher C. Seeger, president of Interfraternity Council.

Men who have become pledges and the fraternities they are pledging follow.

Student Court To Ask Council For Greater Discipline Powers

The action that will take place at this week's Student Council meeting may be the first of a series of moves that will have a direct effect on the students of the University. At this meeting, Student Court will recommend to Council that the Court's powers be expanded to cover major student discipline.

Richard E. Coleman, chief justice of Student Court, will recommend to Council that the Court be given the powers to try cases involving student theft, disorderly conduct, drinking violations, gambling, bad checks, housing regulations, and destruction of property. If Council accepts this recommendation, it will further recommend to University President William T. Jerome III that the Court be given these powers which are presently in the hands of the personnel deans.

The recommendation that Court increase its powers is a result of a motion passed by Student Council last fall. The motion suggested that a committee made up of the members of Student Court study the possibilities of expanding the Court's powers.

For almost six months, the committee studied the issue. It checked the discipline cases that had come before the personnel deans in the last six years. It studied the extensive powers of the student courts at Miami University and Western Michigan University.

Coleman said that he hopes the students will "either contact their Council representatives or come to the meeting itself and give their opinions on this important issue." Student Council meeting will be held at 7 p.m. Thursday in the Taft Room.

Trustees Discuss New Library, Residence Hall Construction

Dr. Kenneth H. McFall, vice president of the University, explained to the Board of Trustees at a meeting Friday, three building site recommendations for the establishment of a library, a science complex and a residence hall.

The recommendations made by Caudill, Rowlett & Scott, a Houston consulting firm engaged for planning by the University suggested:

- The library be constructed at the east end of the football stadium where the parking lot now is.
- The first unit of a science complex be constructed in the field directly east of the Men's Clinic (Health Service).
- A new residence hall accommodating 1,400 students be constructed at the corner of Ridge Street and Yount Road.

The Board adopted an operating budget of \$11,205,304 for the 1964-65 academic year. This is about \$1.3 million more than the budget for the current year.

The budget allocated all but \$125,514 of the \$11,330,818 income expected for next year. About \$5.1 million of this income will come from the state and \$6.2 million chiefly from student fees.

Most of the income is budgeted for salaries, and of this \$800,000 has been set aside for additions to the faculty and \$220,000 for salary increases.

Reports on RAD

University President William T. Jerome III told the Board that Washington sources had informed him that the former Rossford Army Depot would be transferred from the Health, Education and Welfare Department to the General Services Administration March 20. He added that after the transfer the RAD probably will be disposed of by the Federal Government for purposes other than education, so that it does not now look like the facility will be used as a technical institute.

However, President Jerome said the University has not withdrawn its application to acquire RAD for use as a technical institute. He said the project had floundered because of the lack of operating funds. He added that Governor Rhodes was apprehensive about releasing operating money since then there is no certainty that the Federal Government would approve the research institute.

President Jerome said the Board of Regents had encumbered the universities with a good deal of paperwork and asked that it be completed in a short time for the

Regents' development of a master plan for higher education. He added that if such demands continue he would have to ask the Board of Trustees for more administrative help. He also said he had informed the Regents that he believed that body was infringing upon the powers of the Board of Trustees.

Adopts Resolution

The Board adopted a resolution approving a new University charter, as revised with the recommendations of last year's faculty study report. The report was an outgrowth of the three-year-old dispute between the faculty and the former administration, and redefined the relationship of the two groups.

The Board also acknowledged receipt from the Faculty Senate a report on faculty leaves and research. The report recommended the appointment of a director of research and a faculty leaves and research committee with a budget for semester and summer leaves for teachers doing research. The report also recommended consideration be given to the establishment of a university press and the appointment of research professors.

In other action the Board set next Sept. 15 and 16 for the inauguration ceremonies for President Jerome.

AWS To Choose Officers Thursday

The annual elections for Association of Women Students Executive Board and class representatives will be held Thursday.

Voting booths will be located in the lobby of Founders Quadrangle, the Union, and North Hall of Women's Residence Center from 8 a.m. until 4:30 p.m.

Women students unable to vote on Thursday may vote from 7 to 9 p.m. tomorrow in the AWS Office on the ground floor of Moseley Hall.

Identification cards must be presented at the polls to vote.

Following is a list of the AWS candidates and their activities.

President

The runner-up for president automatically will become first vice president.

Joyce J. Bednar, a junior in the College of Liberal Arts and Education, has an accumulative grade point average of 3.3. She is second

vice president of AWS, a member of AWS Executive, Legislative and Judicial Board and AWS Rules Revision Committee, past corresponding secretary of AWS, secretary of Leadership and Service Board, past president of Treadway Hall, and a student orientation leader.

Cristina S. Carfrey, a junior in the College of Liberal Arts, has an accumulative grade point average of 3.0. She was secretary of her sophomore and junior classes, a student orientation leader, a member of Sociology Club, and a member of AWS Legislative Board.

Judith L. Gunn, a junior in the College of Liberal Arts, has an accumulative grade point average of 3.7. She is a member of AWS Legislative and Judicial Boards; junior class representative to AWS; secretary-treasurer of Gamma Epsilon, German honor society; a member of Beta Beta Beta, biology honor society; Book and Motor Honor Society; and Chemical Journal Club.

Second Vice President

Sally A. Althoff, a sophomore in the College of Education, has an accumulative grade point average of 4.0. She is AWS corresponding secretary, residence hall counselor, and past president of Moon-e-y Hall.

Linda J. Peiblow, a sophomore in the College of Education, has an accumulative grade point average of 3.8. She is a sophomore class representative to Student

Council, a past member of AWS Legislative and Judicial Boards, past president of Treadway Hall, and a residence hall counselor.

Carol A. Croissant, a sophomore in the College of Education, has an accumulative grade point average of 3.9 and is a residence hall counselor.

Treasurer

Roberta A. Gibson, a sophomore in the College of Education, has an accumulative grade point average of 3.1. She is a member of AWS Legislative Board, AWS Constitutional Revisions Committee, Student Charities Board, and sophomore house chairman to AWS.

Peggy K. Conrad, a sophomore in the College of Education, has an accumulative grade point average of 3.1. She is a residence hall counselor, a freshman residence hall corridor representative, and a Panhellenic representative.

Ann L. Wohler, a sophomore in the College of Business Administration, has an accumulative grade point average of 3.0.

Corresponding Secretary

Susan N. Dickey, a freshman in the College of Education, has an accumulative grade point average of 3.8. She is an AWS freshman representative, and a member of the Union Activities Organization.

Cheryl L. Myers, a freshman in the College of Education, has an accumulative grade point average of 3.2. She is secretary of the Freshman Class.

Linda A. DeLong, a freshman in the College of Education, has an accumulative grade point average of 3.0. She is secretary of Lowry Hall, and a member of the honors program.

Nancy E. Lukey, a freshman in the College of Business Administration, has an accumulative grade point average of 3.7. She is secretary of Harmon Hall.

Recording Secretary

Judy S. Ringer, a freshman in the College of Education, has an accumulative grade point average of 3.0. She is a member of UAO.

Kay M. Gibson, a freshman in the College of Education, has an accumulative grade point average of 3.4. She is president of Lowry Hall, a member of AWS Legislative and Judicial Boards and Founders Interform Council.

Martha A. Rogers, a freshman in the College of Education, has an accumulative grade point average of 3.2. She is a residence hall corridor representative.

Jacquelin S. Murray, a freshman in the College of Liberal Arts, has an accumulative grade point average of 2.8. She is a member of the honors program.

Senior Representative

Kathleen A. Ivey, a junior in the College of Education, has an accumulative grade point average of 3.5. She is junior class representative to AWS, a residence hall

MILITARY BALL QUEEN AND HER COURT were presented at intermission of the Military Ball Saturday night as more than 1,000 persons watched. The queen and her court were escorted through a crossed-saber-archway to the stage by Reserve Officer Training Corps Cadets. The Richard Matby Orchestra provided the entertainment and James E. Hof, University director of Alumni affairs, acted

as master of ceremonies. Shown above are: (from left) Darlene Wade, AFROT attendant, John A. Hern, Jan G. Allis (partly hidden), Barbara Wazara, Military Ball Queen, Ralph G. Spencer, William H. Wohler (presenting flowers), Brenda R. Blackman, Army ROTC attendant, Larry J. Weiss, and James E. Hof.

Editorially Speaking . . .

From Pledging: Oblivion?

Pledging is a beginning into fraternity life—but it may also spell the end of fraternity life.

As we have commented before, fraternities are being criticized nationwide for many of their actions. We think much of this criticism stems directly from the pledging period. Many of the charges of immaturity and destructive activities are a direct result of a poor pledge program.

Critics generalize when they attack the Greek system. It only takes one fraternity to have a pledge program which harms the grades of their pledges, allows their pledges to pull destructive raids, or continues to hold childish lineups to create a bad image for the entire fraternity system. This one fraternity represents the ideals and actions of all fraternities to the persons outside the system.

However it is more than one fraternity that has been guilty of pledging activities which are harmful or less than constructive and mature.

A major step toward the goal of a more constructive pledge program would be the elimination of the raid. A raid consists of the pledge class sneaking into a fraternity house late at night and doing a number of intelligent (?) things to the house which are intended to be a source of revenge against the active members for harassment that goes on during pledging. A successful raid, one in which the pledges are not caught, is supposed to build unity among the pledgebrothers and display their ingenuity (?) and resourcefulness. (See the story in the next column for more specific examples.)

This type of activity is far from constructive. It not only damages fraternity property, but also the fraternity image.

We are encouraged to see the large number and the high quality of men that have pledged. Perhaps this group of men can change the picture and turn the pledging period into one of the bright spots of fraternity life. Perhaps unity could be built in a constructive manner such as through community and University good-will projects. The talents and energy of these new pledges should not be wasted on such ridiculous activities as the pledge raid.

Through such organizations as the Inter-fraternity Pledge Council or the Antaeon Society, a constructive pledge program could be planned. Fraternity men who still believe in keeping the same pledge program year after year without improvements are living in the past. The raid belongs in the goldfish-swallowing era.

It is time fraternities stopped giving lip service to a constructive pledge program and put their words into action. How well a pledge is doing with his studies should be stressed, not how well he can shine an active's shoes.

This is a changing society and a changing University. Oblivion awaits an unchanging fraternity system.

—Bob Buzogany

Letters To The Editor

To the Editor:

It has come to my attention that your articles of Feb. 28 regarding the AWS Rules Committee action on demerits has given rise to some misunderstanding. The articles stated that our project, i.e., the revision of the regulations system, will be completed by April 1. It seems that some women have interpreted this to mean that as of April 1, we will be living under new regulations. This is not the case.

The Rules Committee has been gathering data all year, and as of March 1, had completed the research stage. The Committee is now turning to processing the data it has accumulated, and formulating a system of regulations which will be most suitable to the women and to the University. When the Committee has arrived at the best system, it will present it to AWS Legislative Board, which will then make the decision on whether or not to adopt it. The new system will then be presented to the Dean of Women and the President of the University for final approval.

Although all the above may be completed by April 1, no changes will be put into practice until September, 1964. It is highly impractical to switch to new regulations in the middle of a semester because 1) it would involve the publication of a new handbook or

some substitute; 2) it would be difficult to familiarize the counselors and head residents with the enforcement of a new system in such a short time; and 3) it would be virtually impossible to orient the women students to a new system by April 1.

After the change is approved, the remainder of this semester will be spent familiarizing the women with it, so that it can go into effect in September with a minimum of confusion.

Sincerely,
Barbara Hursh, President
Association of Women
Students

To the Editor:

In looking over the B-G News this past week, I noticed an error which I feel should be corrected. This error concerns the actors in the production "The Red Shoes." In both Tuesday's and Friday's edition, Susan Kay, the lead actress was not mentioned at all. This is a serious overstep of this newspaper.

I realize that no one can be perfect and that this play is not a top University performance, but I feel that the people who perform in the play should be given credit.

I think the paper should make a correction of this error immediately. Everyone deserves credit!

Thank you
Peg Fogt

Pledging: A Training Period Aimed To Mold Fraternity Men

By Carl Weigle
News Staff Writer

Pledging began Saturday for 18 fraternities on campus. From the time the freshman arrives on campus he hears stories of pledging and pledge activities.

These stories usually have to do with extreme physical harassment, which, in the earlier days of fraternities, hospitalized, and even killed, some pledges.

The nation-wide trend is away from physical punishment of any type. The Inter-Fraternity Council at the University has fallen in line with this general trend. IFC advises against lineups of any but a constructive nature. It is joined by the University, the federal and state governments, and the constitutions and by-laws of many of the fraternities, in advising against kidnapping active members and taking them for "rides" and leaving them stranded miles from campus.

Soon after the pledge accepts a bid from a fraternity his duties, and privileges, begin. Most fraternities hold a brunch for the pledges and actives the day the bids are out. A party usually follows that evening.

During a week-long grace period the pledge has a chance to better his acquaintance with the active members of the fraternity. This is his last chance, until activation, to associate with the active without "feeling like a pledge."

Requirements Differ

After the grace period ends, the pledge must fulfill requirements that differ widely from fraternity to fraternity. Most pledge programs require that a certain length of time be spent at the house each day. This time is usually spent in cleaning the house, cleaning members' rooms, or doing menial tasks such as shining shoes, washing cars, and other favors for the active members.

A pledge tradition that is almost universal is the pledge notebook. In this book are listed actives' names, hometowns, majors and minors, offices held, girls' names, and favorable or unfavorable comments about the pledge's actions and/or attitude. Some fraternities use these notebooks to record merits and demerits which can be earned by doing personal favors for the actives and lost for almost anything.

Pledgeship is a training period for the individual pledge, the pledge class, and the entire fraternity. It is during this time that the pledge learns the history and ideals of the fraternity. He also becomes acquainted with the actives to a degree that cannot be attained in the brief time allotted for rush. It is at the end of this training period that the pledge must review the history, ideals, and members of the fraternity and either reject them or accept them for life.

Members Decide

During this pledgeship the active members take a final look at the pledge, his character, his grades, his personality, and decide if they want to accept this particular man into their fraternity.

The pledge has certain rules by which he must abide. Some houses do not allow pledges to sit on the furniture unless they are dressed up or are with guests. Most programs require pledges to carry change and matches.

Because the pledge's grades can impair the inter-fraternity academic standing of the fraternity, education is at least given lip service in every fraternity. Some stress grades much more than others.

Pledge classes often sponsor their own social functions to which actives are not invited. At the same time, the pledges are usually invited to all functions of the ac-

tive chapter. The pledges have their own Inter-Fraternity Pledge Council, and they compete with actives for slots on the interfraternity athletic teams. They hold their meetings (from which actives are barred), and they hold offices within their pledge class.

Desire Unity

The pledge class is supposed to have and display unity. This characteristic is desirable in that it will help the class work together as active members. Unity is exemplified in three functions of the pledge class: raids, pledge projects, and the pledge trip. Raids usually consist of messing up the house, putting shoe polish on toilet seats, stretching Saran Wrap over the toilet bowls, swiping the television set, and presenting the fraternity with "gifts" such as horses (supplied with plenty of hay) and ducks (500 at a time).

The object of the raid is not to get caught. If caught, the pledges usually have to clean up the mess they made, and usually a little extra that the actives throw in.

One result of the raid that is fairly common, though frowned upon by the IFC, is the lineup. The lineup usually consists of physical harassment and general hazing. Constructive lineups are rapidly replacing the hazing lineups. In these, pledges are called on the carpet for not knowing their pledge lessons or for poor attitudes, and occasionally for poor conduct.

Choose Big Brothers

To help the pledge during the pledgeship the fraternity assigns, or in some cases allows the pledge to pick, a big brother. The big brother acts as liaison between his little brother and the chapter in general.

One tradition of the pledgeship that is rapidly losing favor, both nationally and on this campus, is the "Hell Week." For one week the pledge used to spend every minute he was not in class at the house. There he worked, did physical exercise to the commands of the actives, studied, ate and slept, all without talking. During this time he was constantly hazed.

Today, "Hell Week" has been replaced by "Help Week." During "Help Week" the pledges do good deeds for alumni, for the university, or for the community.

Finally, three weeks before final examinations, by IFC decree, all pledging activity stops. This usually means that activation is near. With activation, the pledge embarks on another phase of his Greek association.

Debaters Compete In Two Tournaments

Eight University debaters competed in two debate tournaments Friday and Saturday.

Debating at Georgetown College, Georgetown, Ky., were Don C. Splittorf, Dave J. Brunner, Larry N. Wilder and Kevin J. Swick.

Patsy J. Owens, Ronald E. Pejisa, George O. Braatz, and Robert DeBard attended the Greater Cleveland Forensic Association Novice Tournament held Saturday at Baldwin-Wallace College, Berea.

It Stands To Reason

Astronaut To Senator?

By John Love
News Associate Editor

John Glenn's announcement to run for a United States Senate seat has created much controversy. Many voices have risen to oppose the move to a seemingly distant and different field from the one in which he acquired his popularity.

One newspaper editorial stated that Glenn "has about as much right to run for the Senate as Young (Glenn's opponent in the primary) does to become an astronaut." Democrat Charles Vanik, representative from the 21st Ohio Congressional District, said that the high office which Glenn seeks "should not be a hero's pawn."

Such critical reactions to the astronaut's announcement are only natural and are to be expected. Glenn is entering a field in which he has relatively little experience. The argument that the job of pilot and astronaut in no way prepares a man for a legislative position in the federal governments seems automatically valid.

These arguments, however, can be arrived at with very little deep thought or intensive research involved. It is often considered beneficial that a person have extensive knowledge of and experience in law and government before he takes on the responsibilities of senatorial duty. But these abilities, however beneficial, are not a necessary requirement for a person whose main job is to determine and enact into law the will of his constituents. In short, it is general understanding, intelligence, and leadership and not specific talents in law that form the fundamental requirements of a legislator.

It was Glenn's intelligence, ability to make decisions, qualities as a

leader, and devotion to duty that made him a successful pilot and astronaut. Could not these same qualities be put to good use in different and even unrelated positions? Furthermore, to limit Congress to men with knowledge of and experience in specific and limited areas would be to destroy its representative element. If all Congressmen were a distinct brand of individual we would indeed have a truly unrepresentative Congress.

A second criticism levied against the astronaut's appearance on the political scene is that he is exploiting his popularity gained in the space program. This is true, but why must it be criticized? Many people have paved their way to Washington with popularity gained in other fields. Seldom is an obscure person elected to such a high post. If Glenn thinks he has the ability, then he also has the "right" to use his fame to win a political election.

Campus movies for Friday and Saturday have been cancelled.

Wrestlers 3rd In MAC Tourney; Palmer Captures 157-Pound Title

Coach Bruce Bellard's Falcon wrestlers climaxed an impressive late season comeback Friday and Saturday with a surprisingly strong third place finish in the Mid-American Conference championships held at Ohio University.

Broncos Beat Tankers, 66-29

Bowling Green's swim team finished its dual meet season with a disappointing 5-8 record, falling to defending Mid-American Conference champion, Western Michigan, 66-29, in the Natatorium.

Coach Tom Stubbs' tankers could manage only two first place finishes against the powerful Western opposition.

Dan Weller won the 100-yard freestyle in 52.3 and the 400-yard freestyle relay team of Roger Southworth, Mike Zinn, Mike Bennett, and Weller captured its event in 3:32.4.

Paul Schreiber, winner in 11 of the Falcons' 12 dual meets entering the clash with the Broncos, finished second to Western's Dan Evenson who recorded a 2:10.2 time in the 200-yard backstroke. Schreiber recently set a varsity record of 2:09.7.

The Broncos' ace freestylist, Mike Pohlonski, was the meet's individual standout, setting Natatorium pool records in the 200-yard freestyle (1:55.8) and the 500-yard freestyle (5:21.9). His effort in the 500 shattered the old mark of 5:28.7.

Intramurals

The all-campus intramural championship game between the independent and fraternity titlists will be played at 7:30 p.m. tomorrow in the Men's Gym. The independent runnerup will meet the fraternity "B" champion in the preliminary game.

can Conference championships held at Ohio University.

Compiling 45 points, the Falcons topped defending champion Toledo, 43, Marshall, 24, Western Michigan, 12, and Kent State, 6. During regular season action, the Falcons suffered dual meet losses to both Toledo and Kent.

Miami took the MAC title amassing 63 points while Ohio grabbed runnerup honors with 53 points.

The Falcon grapplers placed in seven of the eight weight divisions, snaring one individual title, one second, three thirds, and two fourths. The 123-pound class was the only division in which the Falcons failed to score in.

Sophomore Dennis Palmer copped the 157-pound crown, the first individual title for the Falcons since 1961, by decisioning Western Michigan's Bill Dane, 5-2. Palmer was 10-3 in dual meet competition. Dick Lee, also a sophomore, was runnerup in the 177-pound class, dropping a 3-0

Bobcats Win MAC Crown In Overtime

Ohio nipped Toledo, 82-76, in overtime Saturday at Athens to clinch the Mid-American Conference championship. The Bobcats power-packed Don Hilt meshed his second of two foul shots with just four seconds remaining to deadlock the score at 67-67.

Toledo's reinstated Larry Jones failed to become the all-time high Rocket career scorer, missing by five. Jones hit for 24 but needed 29. Teammate Ray Wolford also fell short of the elusive mark, collecting just 16 of the 48 points he needed.

FINAL MAC STANDINGS

Ohio	10-2
Miami	9-3
Bowling Green	7-5
Western Michigan	6-6
Kent State	5-7
Toledo	4-8
Marshall	1-11

decision to Toledo's Bruce Alexander.

Ray Steely and Floyd Wombold bounced back from losses to Western Michigan a week ago to snare important third place finishes for the Falcons. Steely eked out a 2-1 overtime decision over Toledo's Bob Capetinni in the 130-pound class consolation round. Capetinni defeated Steely in dual meet competition during the regular season, 9-7. Wombold took the consolation clash in the 137-pound division, 2-1.

Bill Regnier added the other Falcon third, downing Marshall's Busbee, 6-2, in the 147-pound consolation round.

Wrestling in the 167-pound class instead of his usual 157-pound division, sophomore Jim Moore reached the consolation match but was bested, 2-1, to finish fourth. Heavyweight Mel Foels also placed fourth, falling 3-2 in the consolation round. Foels lost to Toledo's much-publicized Merrel Solowin on riding time earlier.

Solowin was defeated by Ohio's great all-American heavyweight, Larry Houska, 6-4. Houska handed Solowin his first and only collegiate dual meet loss when the Toledo 250-pound ace was injured and defaulted. Houska now has won titles in three different divisions. He captured the 167-pound crown as a sophomore, moved up to 177 at a junior and climaxed his career with his heavyweight win. He was undefeated in dual meet competition as a collegian.

The Falcons third place finish was their best showing since 1960 when they won the title. They were a disappointing fifth last year.

Miami and Ohio were expected to battle it down to the wire for Toledo's crown. The Redskins breezed through all six MAC foes undefeated and lost only to non-conference Southern Illinois in 11 matches.

Ohio lost only to the Redskins in six league matches, winning four other dual clashes, and adding the Wilkes Open and Hiram Invitational team titles. The Redskins bumped Ohio 18-8 during the regular season.

SENIORS HONORED AT FINAL HOME GAME

The Falcons' four departing seniors and their parents were introduced prior to last Thursday's final home game against DePaul. From left to right are: all-American Howard

Komives and his mother, Dan Knepper and parents, Bill Gast and parents, Tom Baker and parents, and senior cheerleader Jan Fritz. (Photo by Joe Szabo)

Komives Sets NCAA Record; Falcons Top Marshall, 106-72

Bowling Green clinched third place in the Mid-American Conference Saturday, trouncing lowly Marshall, 106-72, in the season finale at Huntington. It was the third straight time the Falcons have cracked the century mark against the Big Green.

The Falcons dumped Marshall, 101-81, in the initial clash this season and rolled up a record-shattering 114-86 score last year.

Howard Komives concluded his brilliant collegiate career with 45 points to become the third highest scorer in the history of major-college basketball. His 36.7 average, easily the best in the nation, ranks behind only those of Frank Selvy and Bill (The Hill) McGill in all-time point-making.

The 6-1 all-American also set an NCAA record for consecutive free throws with 50, besting the old record of 47 held by Arkansas' Tommy Boyer. He entered the contest with 42 straight and made eight in a row before missing. He made 21 of 22 for the night, setting both personal and school highs.

In addition, Komives finally captured the MAC scoring crown after finishing runnerup to Western Michigan's Manny Newsome the two previous seasons. Butch averaged 35.6 to edge Newsome's 34.2. His 429 points in the MAC this season enabled him to surpass the league career mark held by Jimmy Darrow.

Senior Tom Baker, perhaps the nation's most-improved player, netted nine of 13 shots to wrap up the MAC field goal percentage title with a record-breaking .587 mark. Baker connected on 64 of 109 attempts to shatter the former mark of .558 held by Marshall's Bob Burgess.

Baker also broke the University percentage record of .493 set by

Darrow in 1959-60, finishing with a .549 mark with 150 of 273 attempts.

He ended his collegiate career with 23 points, his sixth consecutive game over the 20-point mark, to hike his average to 15.8. He also grabbed 13 rebounds.

Marshall took an almost unbelievable 102 field goal attempts (the Falcons only fired 74 times and outrebounded the Big Green, 64-57) and managed to find the range just 29 times, a poor 28 per cent. The Falcons were 48 per cent from the floor.

The win gave coach Warren Scholler a 14-9 record overall and 7-5 in the conference in what was supposed to be a rebuilding season. Last year's NCAA squad posted a 19-7 record and captured its second straight Mid-Am title.

Banquet time is here once again and the triumphant Falcon basketball squad, 14-9 for the season, has a pair of the eat-pause-and-reflect celebrations on tap. Coach Warren Scholler and his squad will be guests of a group of downtown followers Sunday at the Wagon Wheel, followed by the annual AllSports banquet March 24 in the Dogwood Suite.

counselor; and a member of Book and Motor honor society.

Karen Szamrej, a junior in the College of Liberal Arts, has an accumulative grade point average of 3.2. She is vice president of North Hall, a member of AWS Judicial Board, and a residence hall counselor.

WBGU To Premiere Metropolis Series

"Metropolis: Creator or Destroyer?" is a television examination of one of the nation's most pressing problems—the character and directions of its cities and its suburbs.

The eight-program series, which premieres at 8 p.m. tomorrow on WBGU-TV, Channel 70, studies today's cities, analyzes their usefulness, questions how they can be made better, and studies the needs and wants of their people.

To produce the series, National Educational Television's cameras went to New York City, Los Angeles, San Francisco, the Sacramento Valley, Philadelphia, a Chicago suburb, Washington, D.C., and the tri-city area of Troy-Albany-Schenectady, New York.

Each of the half-hour programs of "Metropolis: Creator or Destroyer?" is a separate and complete unit. In the first program entitled, "How to Look at a Large City," NET's cameras examine New York City's dweller and his surroundings and measure them against such concepts as population density, variety and human scale.

Other parts of the series deal with a one-woman fight for a middle-income housing project; a sprawling California suburb being built from the ground up; an urban renewal project in upper New York State and what occurs when an old neighborhood is uprooted; suburban conformity in Wheeling—a Chicago suburb; racial relations in Philadelphia; and three different attacks on blight as the camera catches the action in Washington, D.C.

Carolyn A. Rolf, a junior in the College of Liberal Arts, has an accumulative grade point average of 3.7. She is a member of Book and Motor honor society, AWS freshman orientation committee, and a student orientation leader.

Glee M. Rowe, a junior in the College of Education, has an accumulative grade point average of 2.8. She is a residence hall counselor.

Junior Representative

Darby C. Strand, a sophomore in the College of Liberal Arts, has an accumulative grade point average of 3.6. She is sophomore class representative of AWS, and a member of AWS Executive and Legislative Boards.

Melissa M. Bland, a sophomore in the College of Education, has an accumulative grade point average of 3.8. She is secretary of West Hall.

Kathleen M. Cwik, a sophomore in the College of Education, has an accumulative grade point average of 3.4. She is a member of UAO.

Sophomore Representative

Ira J. Sigle, a freshman in the College of Liberal Arts, has an accumulative grade point average of 3.0. She is a member of Lowry Hall scholarship committee.

Carol M. Cianfarani, a freshman in the College of Education, has an accumulative grade point average of 2.8. She is a freshman class representative to AWS, and a residence hall corridor representative.

Leslie E. Gail, a freshman in the College of Education, has an accumulative grade point average of 3.2. She is a residence hall corridor representative.

Janice L. Constantine, a freshman in the College of Education, has an accumulative grade point average of 3.6. She is a residence hall corridor representative.

DR. WALTER H. JUDD spoke on "The Christian Religion and Free Society" last night and today in the Dogwood Suite. Dr. Judd is a former Congressman and medical missionary and a recognized authority on United States foreign policy. Judd was sponsored by the Religious Activities Committee.

BG Briefs . . .

Dr. Sterling B. Hendricks, chief scientist, Mineral Nutrition Laboratory, Soil and Water Conservation Research Division, U.S. Department of Agriculture, will speak twice before the University's honorary scientific research organization, Sigma Xi, tomorrow.

He will discuss "A Chemical Investigation of the Pigment That Controls Timing in Plants" at 4 p.m. in 140 Overman Hall and "Biological Timing" in 105 Hanna Hall at 8 p.m. Both meetings are free and open to the public.

"Erie: From Cashel of the Kings to Joyce's Dublin," a travelogue of Ireland, by Dr. Virginia B. Platt, professor of history, will be given at 7:30 p.m. tomorrow in the Alumni Room. It is the fourth of a series of illustrated travel lectures sponsored by the Union. She will discuss the changes that have taken place in Ireland during the last 25 years.

"Tom Jones: Book and Film," will be the topic of discussion when Books and Coffee meets at 3:30 p.m. today in the Dogwood Suite.

A four-member panel will present the discussion. Panel members are Edgar F. Daniels, assistant professor of English; Peter V. LePage, teaching fellow in English; Dr. Paul E. Parnell, assistant professor of English; and Harry A. Ebeling, instructor in English.

A faculty recital featuring trumpeter Edwin R. Betts, associate professor of music, trombonist David S. Glasmyre, assistant professor of music, and pianist David J. Pope, instructor of music, will

Harmon To Honor Leading Scholars

A dinner and recognition ceremony honoring the women of Harmon Hall with grades of 3.0 and above will be tonight in Founders Quadrangle.

Red carnations will be presented to 43 women for grades of 3.0 to 3.5. Pink carnations will be awarded to 14 women for grades of 3.5 to 3.79 and six red roses will be presented to those with a 3.8 or better. A rotating plaque will be awarded to fifth floor Harmon for the highest floor average of 2.45.

The six women who will receive red roses are Patricia L. Best, Sherwin L. Davidson, Cheryl L. Davies, Susan N. Dickey, Martha A. Grodhaus, and Nancy E. Lukey.

The scholarship committee in charge of the dinner and program include Patricia L. Best, Mary J. Zethner, Alice J. McGowen, Linda K. Nurmi, and Nancy S. Tapken.

be held at 8:15 p.m. tomorrow in the Recital Auditorium.

Journalism faculty members Tuesday discussed with the Northwest Ohio District Journalism Association the NODJA Day, which will be held April 24 on campus.

Faculty members who attended were Jesse J. Currier, director of the School of Journalism; Dr. Jeff Clark, associate professor of journalism; Dr. Raymond W. Derr, professor of journalism; and Keith P. Sanders, assistant instructor in journalism.

BG Coeds Compete For Miss Toledo

Twelve Bowling Green women were selected to compete as finalists in the Miss Toledo Pageant at a preliminary screening held Saturday in the Dogwood Suite of the University Union.

Finals for the title, sponsored by the Toledo Jaycees, will be April 25, with the winner going on to competition for the Miss Ohio contest.

In the Saturday screening, contestants modeled bathing suits, displayed their respective talents and had five-minute interviews with judges.

BGSU qualifiers are: Joan K. Batey, Linda J. Estrate, Nancy E. Lukey, Mary S. Martin, Sharon A. Martin, Sandra K. Moore, Linda J. Myers, Linda K. Nurmi, Kathleen J. Pierini, Kenda L. Pyle, Sandra P. Sharp, and Kathryn A. Tabler.

Second screening of candidates is March 21 in Toledo. Winner of the Miss Toledo title will receive a \$500 wardrobe and a college scholarship.

Fred Haase, entries chairman, and Hadley A. Miller, publicity director, said the calibre of the applicants was "unusually high," and noted that the BGSU turnout for the event was the largest in history for this campus.

The Toledo and Ohio titles are preliminary to the Miss America contest, won in 1963 by Jacqueline Mayer, Sandusky, who will be mistress of ceremonies at the Toledo final.
