New-Look Graduation Readied For Seniors

A "new-look" graduation ceremony will be held this spring for Bowling Green State University's Class of 1965.

Twenty-five graduates will receive degrees this spring, and many will see changes from past ceremonies.

BY WALTER W. TAYLOR, dean of students

Angels Win National Title

The University's Angel Flight Drill Team, in its third year of competition as the National Inter-Collegiate Drill Meet in Washington, D.C., marched its way to a national championship.

Five schools participated in the competition, and the team placed second in all three categories.

Sig Eps Top IFC Sing

Sigma Phi Epsilon social fraternity was the first of the five fraternities to participate in the Friday night in the University Center.

The Sig Eps sang "Farewell to Old Windon" and "Ride On,

Board Of Control Releases Funds For Campus Library

The Board of Control approved the release of $2,500,000 for the construction of the new library.

The library is set for September, 1966, and will be completed by the end of the fiscal year.

May Court Pictures—On Time

The May Court Pictures, which were scheduled for April 13, were delayed due to the weather.

Symphony Band to Present Annual Spring Concert April 25

The University Symphony Band will present its annual spring concert at 8 p.m. on April 25 in the auditorium.

The concert will feature several guest conductors and soloists.

Early Athlete Revisits Campus

Early Athlete Revisits Campus

BY JACE HARTMAN

Bowling Green State University

An early graduate and athlete of the University revisited his alma mater Friday morning for comments on the University.

William E. Roberts, 35, presently living in Owosso, Mich., graduated with a Bachelor of Science in Education degree in 1950. He attended the University from 1945 to 1950.

Roberts was a member of the 1950 football team and the 1950 basketball team.

He plans to return to Owosso and to attend the University's Alumni Banquet on Friday night.

By LARRY FULLERTON

Student Council last week defeated a constitutional amendment that would have eliminated the senior nominating committee in student council elections and replaced it with a primary election.

The amendment was defeated by a vote of 20-16, with 10 abstentions.

The recommendation concerning the University's policy on alcoholic beverages at student events was introduced by the Student Council at the request of the administration.

The recommendation calling for a ban on alcoholic beverages at student events was defeated by a vote of 10-18, with 1 abstention.

The recommendations were approved by the Student Council and forwarded to the Board of Control.
In Our Opinion

Issue 3: Unfair

When a state's legislative districts are apportioned so that each is relatively equal in population, it fulfills the Supreme Court one-man-one-vote ruling.

But, as an article pointed out last week, a party's strength will likely be fairly represented.

The case is a dispute between two congressional districts in Ohio, which are considered by the state constitution to be an actuarial formula based on the ratio of men to women.

The problem is, how do you determine if a party's strength will be fairly represented in the state legislature?

One solution is to have the party in power decide how the districts should be apportioned, but this is not a fair method.

The other solution is to have the party in power decide how the districts should be apportioned, but this is not a fair method.

The case is a dispute between two congressional districts in Ohio, which are considered by the state constitution to be an actuarial formula based on the ratio of men to women.

The problem is, how do you determine if a party's strength will be fairly represented in the state legislature?

One solution is to have the party in power decide how the districts should be apportioned, but this is not a fair method.

The other solution is to have the party in power decide how the districts should be apportioned, but this is not a fair method.

Win a Honda Just for being born

Your own birth date may have already won you a Honda in Parker Pen's Sweepstakes!

For example, if your birth date is December 1st, 1942, your entry is 12-1-42. Just fill in the coupon below, mail it to your Parker Dealer for his signature — and you may win it. Your chances might be as high as you know you have them.

Your birthday is a "must" for dis-...
Committee Predicts Success For Greek Week Program

Plans for Greek Week next fall indicate it should be "one of the best ever," according to Barry Buzogany, a member of the Greek Week steering committee.

Buzogany stressed that next fall's program would be vastly different from last year's Greek Week.

He referred to the 1959 Greek Week which had the theme, "Seven Keys" meaning that each day had a purpose, such as to promote the cultural or athletic phase of the Greek life.

"If a scene we're drawing from that," he said. "We want to show them on the way they'd like to have it next year," he said.

In The Spotlight: Swan Club

Slashing Themselves, creating a ripple reflection in the swimming pool's water, members of this year's Swan Club water show were dedicated to the Olympics.
