right turn on red

The right on red bill now before the Ohio Senate deserves passage as soon as possible.

The bill has made its way through the House, avoiding various political pitfalls that many good legislation has encountered.

Let's hope the Senate does not weigh down a good idea with riders and frivolities which would make the bill less desirable.

The purpose of the bill is to eliminate the red traffic light within 2 miles of the state line. Since the energy crisis is delivering hurtful blows.

Even the practical standpoint, it is frustrating to sit at a red traffic light with no traffic crossing the intersection.

Another issue is safety. We are fighting for the right of the pedestrian to be treated as human beings.

Despite the many virtues associated with the right on red bill, there are attacks on the theory of erecting new towers.

What else is new? Absolutely nothing.

New Women's Coalition this weekend with a bark of a speech to talk about aspects of and answers to women's problems.

Of particular interest to the Young Socialist Alliance will be the stories of Mary Brown and Bette McCarthy.

The only female candidate for Governor of Ohio in the U.S., the candidate of the Feminists of America, Nancy Brown, will speak Saturday at 11 a.m.

The meeting will start at 11:30 p.m. a.m. during the International Women's Day meeting. The organization of the bill, I'd estimate, it is this kind of involvement by the pro-women, common women, which makes pro-women legislation possible.

If more people would become involved as DeMoss has, the government may begin to meet the expectations of the people.

Simon nominated for new post

WASHINGTON (AP) - President Nixon nominated former energy chief William E. Simon to succeed George Shultz as Treasury Secretary yesterday and moved to reclaim for himself some of the broad economic powers he had granted Shultz.

Shultz for more than a year has been chairman of the Council on International Economic Policy, a position held by Nixon with his top deputy, was promoted to that post the White House said yesterday morning. He was 52 and had been suffering from cancer of the bone marrow for the past four years. The immediate cause of his death was pneumonia.

His final months of broadcasting daily were performed under severe pain, his doctor said.

Shultz said he will continue to have "a very strong voice in energy policy," that he will be in charge of day-to-day coordination of the energy effort and will be responsible for coordinating all government efforts to achieve energy-saving and -sufficiency.

"I have taken over your new post upon Simon's confirmation by the Senate," Shultz said. "I then will depart for private life, the last remaining member of Nixon's original cabinet to leave government service."

ANNOUNCING Simon's nomination, President Nixon said: "I am calling you to be a strong voice in energy, which includes the Commuter Center, backpacker and Chapman halls and Rodgers Quadrangle-and SBO."

He said all SBO officers and steering committee members have such districts, and which includes the Commuter Center. He said these disciplines will become chairmen of the Council on International Economic Policy, two jobs also held by Shultz.

And Shultz's post as assistant to the President for economic affairs would remain vacant for the time being, Warren said.

"I look forward to this important task," he said. "We will strive to get to the President's cabinet post the White House said yesterday. He was 52 and had been suffering from cancer of the bone marrow for the past four years. The immediate cause of his death was pneumonia."

He said he also will attempt to expand the election board boards to which he is a member of the Student Body Organization.

Nigeria plays role in African unity

By Laotis Licht

"Nigeria has had an active role in strengthening African unity," A. Garba, Nigerian ambassador to the United States, said Tuesday.

Since Nigeria's liberation in May, 1961, the country has helped to establish African unity and has been deeply conscious of its African heritage, Garba said. His speech on Nigeria's Role in the Organization of African Unity was sponsored by the Black African People's Association (BAPA) as part of the University's International Week.

GARBA explained that participants in the U.S. Mans
chester Conference became cognizant of Nigeria's role in the University's International Week. After the conference, Nigeria again took up the radicals and the conservatives' creating an ideological gap between the two groups. Nigeria, Garba explained, is looked upon by the U.S. African Conference probably because of its conservation and Africanism, Garba said. "We were told that we were not invited because we were not independent, and yet Algeria was invited and she was not independent."

He said that Nigerian states became independent and free of French rule, many times he will not restrict the subject matter in any of the debates. He views this as an opportunity for both men to talk about their financial, and he's anxious to ask Colonel Glenn a few questions about his finances too," he said.

The spokesman said Metzenbaum has refused to disclose his 1969-72 federal income tax return because they include information about private citizens. Earlier in the year Metzenbaum released other information about his finances.

"We're happy that's finally succeeded to public opinion," said a spokesperson for Glenn's office. During the debate, Glenn said he would be willing to "freeze the state of openness and candor."

GLEN said also be would accept additional debates, but only on the subject of financial disclosure.

PREVIOUSLY, Glenn had accepted Metzenbaum's challenge to debate, then added: "If the Senator wants to see me, then let the Senator come here to the office."

The Senator first must declare his income tax return for the years 1967-72. Garba said he would be willing to set a date for the debate.

AKRON (AP) — U.S. Senate candidate John H. Glenn said Monday he will debate his opponent in the Democratic primary, Sen Howard Metzenbaum, at least three times before the election May 7. "I believe the public's right to see the candidates," he said. "The Democratic nomination discussion on the Cincinnati platform should not be impaired any longer by Howard's refusal to make a complete financial disclosure," Glenn said.

Ehrlichman denies story, calls statements false

SAW officers meet, discuss activities

By Marcus Cwih

Activities and proposals for the remainder of the school year and for next year were the main topics of discussion at the first meeting of the new Student Body Organization (SBO) officers Thursday night.

At the beginning of the meeting, Fred Johnson, chairman of the Office of Student Activities, introduced some of the functions of his office and asked for a budget allocation of $8000 for the 1973-74 school year. Doug Bogie, SBO president, said the budget will be reviewed and proposed support of the office to the administration.

The organization then heard from Mr. Johnson, who asked the SBO officers to assist him.

SEATTLE (AP) - John E. Ehrlichman, ex-White House aide who is a key figure in the Watergate scandal, said today he will not testify for the prosecution in the trial of President Richard Nixon.

Ehrlichman, who was served a subpoena by the Senate Watergate committee last week, said he believes he cannot do so without losing his First Amendment rights.

The decision by Ehrlichman, who has been under indictment since 1970, will leave the Nixon defense in the hands of two aides, H.R. Haldeman and John Dean.

William S. Reynolds, a lawyer for Ehrlichman, said the decision will be made today and said he would be available for court appearances.

The president also has mentioned that he does not want to appoint an independent counsel to look into the Watergate affair.

STANS testifies in trial: ‘payoff never received’

NEW YORK (AP) - Former Commerce Secretary Maurice R. Stans testified yesterday that financier Robert L. Vesco offered him $200,000 in return for a secret $500,000 contribution to the re-election campaign of President Nixon’s 1972 election campaign.

The former Cabinet member took the witness stand in his own defense at the federal court’s contempt conspiracy trial in which he is a co-conspirator with ex-President John N. Mitchell.

WHEN Vesco made the donation, he was the target of a massive Securities and Exchange Commission (SEC) frauds investigation. Mitchell and Stans are accused of seeking to impede this probe in exchange for the $200,000. They are charged with conspiracy, obstruction of justice and perjury.

Stans testified in trial:

"I said, 'Well, that has been going on almost a year. We have been trying to receive it, but the problem was that the SEC was harassing us and we haven’t been able to move one dollar down and settle it. Our lawyers have been in touch with the

"I said, Mr. Vesco, that should be no problem. We are coming trouble with a government agency about my head of that agency," I said something to the effect that "I hope you work your SEC matter satisfactorily." He said, ‘I’m sure we will.’"

However, Stans said that because of the SEC, matters, he put a hold on the pending Vesco contribution "until I could check him out" with Mitchell. The two former Cabinet colleagues had resigned their offices by that time to run the Nixon re-election campaign.

Mitchell said that in the March 6, 1972 meeting in which the $200,000 pledge was first made, it was he and not Vesco who talked of the start of the SEC investigation.

"He said, ‘Well that has been going on almost a year. We have been trying to receive it but the problem was that the SEC was harassing us and we haven’t been able to move one dollar down and settle it. Our lawyers have been in touch with the
