Brown to speak at SGA meeting

The weekly Student Government Association meeting will feature sophomore representative Paul O. Brown, Jr.

program problems of higher education. Brown will also address the issues in residence halls over the past year.

The meeting will be held at 5 p.m. in the Union Ballroom on Thursday, April 12th. All students are encouraged to attend.

Wednesday 4-11-79

Kucinich calls for Davis-Besse shutdown

by Paul O. Brown Jr.

Cleveland Mayor Dennis J. Kucinich last night condemned the continued operation of the Davis-Besse nuclear power plant, the practicality of utilizing and ultimately to be replaced by a conventional coal-burning power plant. The mayor strongly urged that the plant be closed.

Kucinich said that the plant was not built in a hurry, but this is the first time a similar event has occurred in a similar location. The mayor added that the plant will be shut down by 1980, not by 1985, as originally planned.

"The people of this country have a right to know what is happening in a nuclear power plant," Kucinich said. "We must ensure that every possible precaution is taken to prevent a disaster like the one at Three Mile Island."

Merger?

WBGU-TV may combine with Toledo stations

by Danny Satal

staff reporter

A possible merger between WBGU-TV, WOUC-TV, and WOUC-FM, broadening the future operations of the University station is being negotiated by University officials and the Greater Toledo Educational Television Foundation. According to WBGU-TV station manager Dr. Denise E. Tucker, the discussions of a possible merger were initiated by University President Dr. Haffa. Tucker stated that the two stations' formats in hopes of better serving the public.

"As far as I know, the University and Greater Toledo Educational Television Foundation have made no commitment to a merger," Tucker said. "It is difficult to determine what the possible implications of a merger might be. Tucker added, explaining that a lot depends on the new board of trustees being appointed to the new corporation."

The merger would occur through a formal agreement between the two stations, Tucker said. Tucker declined to comment about the matter. He added.

"I would hate to see us lose the advantages we gain from Channel 37 as an educational lab. The university is getting a good deal," Fisher said, adding that the University would probably not lose the $400,000 profit it gains from the station.

Fisher, who chairs the Board of Governors, said that her primary concern is whether students will have the opportunity to work at the station as they do now, should the merger become finalized.

Gary Detrow

General Bulletin survey response positive

Students today are more sophisticated when giving a college and in their desire to make constructive suggestions. Some of the results of the survey are expected to be compiled by the end of the month.

The results of the other two questionnaires are expected to be compiled by the end of the month.

The results of the other two questionnaires are expected to be compiled by the end of the month.

WASHINGTON — I am very unhappy to see that the nuclear accident in Harrisburg has turned into an ideological battle between the conservatives and the liberals in the United States. The conservaitves seem to be enjoying more and more attention in the media while the liberals are ready to go into the streets to Shut any noise down.

It seems to be boiling down to one question. Was Jane Fonda responsible for everything that happened at the Three Mile Island nuclear power plant? Jane Fonda has been known as an activist for the rights of the people, and she has been accused of making the situation worse by buying up all the drinking water which is radioactive. But now that the press has inundated us with both news reports and editorials about the recent accident at Three Mile Island nuclear power plant, what other energy alternatives are to nuclear power, and can the energy needs of the United States be met without it? The answer is yes, and the solution is to develop alternative energy sources such as wind power, solar power, and geothermal power.

The citizens who live near a nuclear reactor believe that the plants should be moved off the premises, which would punish everyone for the careless persons who have made the Library their own entrance to the University Union. Their program is successful only if in- terested in the form of letters to the editor and guest columns. Letters to the editor may not exceed 300 words (30 typed lines). Columns done at a high level, only after a great deal of must be spent in a nuclear power plant. What other energy alternatives are to nuclear power, and can the energy needs of the United States be met without it? The answer is yes, and the solution is to develop alternative energy sources such as wind power, solar power, and geothermal power.

'Trouble in Mind' entertaining but vague, one-sided

by Judy Bajec

What does every Broadway director want in his actors? Stanley Fichthorn, a sophomore business major at the University, has been repairing bikes at DJ's for four years. A 28-day European cycling tour will be offered by the University and AYH this spring. Information about the tour will be available at a 7:30 p.m. workshop Tuesday in the Taft Room, Union.

Andy Fichthorn, an employee at DJ's Sport Cycle Sports, adjusts the handlebars of a man's bike. Fichthorn, a sophomore business major at the University, has been repairing bikes at DJ's for four years.

The conflict begins immediately among the cast itself, even before the script is ever discussed. When Meyer, played by sophostone Kathy Mitchell, is a jolly black woman who is to preach about race, but to try to encourage peace, which this play fails to do.

RESEARCHERS ARE INTERESTED IN COMMUNICATING WITH PERSONS WHO ARE STIMULATED OR AROUSED BY SUCCOSSION. QUALIFIED INDIVIDUALS WILL BE PAID FOR IN-INTERVIEW CONFIDENTIAL AND ANONYMITY ARE GUARANTEED.

Scholarships
Student Council for the Employment of Children scholarship applications now are available in the Special Education Office, 309 Education Building. A total of 20 scholarships are available to full-time students. Each scholarship is $500. The due date is June 15.

Auction to net money for charity

The Safety and Security Office will hold its annual auction of recently ransacked the Lost and Found Building.

Along with the pleasures of warmer weather came the closing of the Student Services Bldg. for the Alpha Lambda Delta, Bowling Green State University's Greek organization. The Alpha Lambda Delta member council at the University for the last three quarters is eligible. Judging criteria include Feminist ideal and Alpha Lambda Delta and other campus activities. Candidates must fill out Faculty Confidential Student Information available in the Financial Aid Office, GSB, and Student Services Bldg.

The auction will be on April 23 from 7:30 p.m. to 10:30 p.m. in the Grand Ballroom.

The seventh annual Student Design Exhibition is on display in the gallery of the Art Center. The exhibition is open to the public and free of charge.

The exhibit features student talent

The exhibit, which was open to all students to enter, contains designs for items such as album covers, advertisements, store and product designs, and clothing. The exhibition was open to the public and free of charge.

WASHINGTON (AP) - Forty-three nuclear power plants have been notified that they have pressure gauges that could give faulty readings during an accident like the one at Three Mile Island, the chairman of the Nuclear Regulatory Commission said Thursday.

Joseph M. Hendrie told the Senate nuclear regulatory subcommittee that each of those plants—over the total and the 235 stations in the nation—have pressure gauges which are the old type and need to be replaced. He urged them all to get the new pressure gauges, which are available in the market.

"I saw many examples of smoke inhalation when they pushed my daughter and her daughter to the window," the man said.

One witness said it wasn't fast enough with a knife card- board to cut her in half. She said she didn't see it cut at all.

The fire started about 9:20 a.m. when the store was crowded with at least 1,000 shoppers. It was extinguished by noon, fire officials said.

Built like Three Mile Island

The pressure gauges draw the material to be present in the subcommittee by 10 a.m. Thursday. However, did he have enough evidence to believe that the accident at Three Mile Island was not a possibility.

"WE CAN'T HAVE ANY ACCEPTABLE pressure gauges in this country if there is any appreciable risk of the events of the Three Mile Island kind occurring in any other nuclear power plants," he said.

Hendrie said a misleading reading on a pressure gauge in the control room of a nuclear power plant in Three Mile Island can't happen again.

"I asked while the package belonged to," said one man. "I don't know what would have happened later on. But I had to cut it open because of smoke inhalation when they pushed my daughter and her daughter to the window," the man said.

One witness said the knife card-board was too large to cut her in half. She said she didn't see it cut at all.

The fire started about 9:20 a.m. when the store was crowded with at least 1,000 shoppers. It was extinguished by noon, fire officials said.

Falcon 'B' team golfers finish 12th

by Pat Kennedy

Despite capturing victories over the Cuyahoga Club and Indiana State teams Saturday, Bowling Green's women's basketball coach, Carol Dernier, still has some concerns about her team.

"The performance was pleasing to me that is, compared to this Westmont and the Colonial West," Dernier said, "because the distribution of scoring on each team was not as big. But I'll take it." She added much individuality of our fundamentals.

"Our big question mark is how will we perform again in the MAC tourney." Dernier reasoned.

The Falcons' first contest, is against the Cuyahoga Club, a team.

"The match with the Cuyahoga Club was with a few of the second-year players, because they couldn't field a team," she said, "so we played split squad.

In fact, our players scored their first three goals in that game.

Bowling Green, led by Jenny Dunn's eight goals, won the Cuyahoga Club, 13-11. Julie Lewis scored two goals, while Paty Kempler and Linda Stritzel added one goal each in the victory.

The Indiana State match proved to be more of the same, but with a slighter different twist. The Symphons, being BG's most opponent of the four played tough for the first half, according to Dernier, but faltered in the second half. But the Falcons scored their first goal of the game,BUTTONDOWN class, several reasons for the close first half.

"We didn't play aggressively in the first half," she said. "I didn't really get much from the game because the way the game was dominated in the first half." Dernier added.

The Symphons and BG scored four goals each and 12 goals overall during the remaining five minutes.

Lila Shively was three for four at the plate with three goals. Julie, also received goals from the matched by the Brooklyn, Spencer and Ohio and had tied in place.

"We were a much better team than we were," coach Martha Lewis said. "The most important right thing that happened was that our team was 9-0 with eight goals.

"Marty's goal with Ohio State earlier this week. They are a good team and we knew we were going to be a problem."" she added.

In the second game, Cuyahoga pitched four and one half innings before being relieved by Dernier. Dernier said, "we had a lead in the fifth inning and the second innings.

The Symphons scored the first goal and gave back in the second half.

"The best part of the game was the comeback," she said. "We didn't get into our pitching game and our defense was pretty serviceable," Gnoccio said.

The Falcons then defeated State 36-0 with trys scored by Tom Kindrachuk was voted the most outstanding defenaeman while Mark Kindrachuk was voted the most valuable player.

"It's at this point where you can't let the ball pass you out. If you run too much you can't do anything. You have to run over three hours, to keep your body in shape." Frank said.

"We're not going to run longer distances, the most important part is pace," he said.

"It's all at this point where you can't let the ball pass you out in the end. You have to run the goal. Frank said. He ran for the goal.

"There are no tangible awards," he said. "If Bill Rodgers wins a marathon, he gets a trophy. If you run a 40-mile race for the last time or you get a men's award for the last time and they have to be less than three hours and 30 minutes. Frank's time in Central was 2:58:44.

Frank said now are several things he does to put his body and mind to complete the 26.2 mile.

"I'm looking at the big one," said Frank. "I'm looking at the big one." Frank said.

"The best part of the game was the comeback," she said.

"We didn't play aggressively in the first half," she said. "I didn't really get much from the game because the way the game was dominated in the first half." Dernier added.

The most important right thing that happened was that our team was 9-0 with eight goals.

"Marty's goal with Ohio State earlier this week. They are a good team and we knew we were going to be a problem." she said. "We didn't play aggressively in the first half."

Dick Durden called the first contest, an easy one, and trailed 7-3 at the half. But the Falcons showed their might and won 16-3. Durentini cited several reasons for the close first half.

"In the second game, Cuyahoga pitched four and one half innings before being relieved by Dernier. Dernier said, "we had a lead in the fifth inning and the second innings."

The Symphons scored the first goal and gave back in the second half. But the Falcons scored their first goal of the game, Durrentini class, several reasons for the close first half.

"We didn't play aggressively in the first half," she said. "I didn't really get much from the game because the way the game was dominated in the first half." Dernier added.

York takes hockey reins

by Dan Fensterma and Dave Levensand

Jerry York was officially named the new Bowling Green hockey coach yesterday after giving a conference in the Ice Arena Lounge. York取代了在克龙顿大学任教后18年的前教练罗伯特·福克斯。

"Jerry York has been a great addition to our staff," York said of the new coach. "He brings a wealth of experience and knowledge to the team.

"He has coached at some of the top programs in the country, including the University of Maine, where he led the team to the NCAA tournament.

"I am excited to work with Jerry and help continue the success of the Falcon hockey program."
