Picture I.D. cards approved

by Benjamin Harrison

Fall 1985, University students will have more access to the library, a lower fee for campus renovations, and a greater voice in matters that affect them.

The Graduate Student Senate will be awarding $1,000 for ex-cellence in original research by graduate students through the first annual Charles E. Shanklin Award. The award will be presented to a graduate student for the dissertation that has been completed in any area of the sciences or arts, including humanities.

The Graduate Student Senate is a group of graduate students who serve as an administrative council to the University's trustees and administration, he said. He noted that he has approved the financial aid that the Senate had completed the fiscal year.

The Faculty Senate.

The3 FINALISTS will be named in December on the basis of the number of votes received in the final round of voting. The three finalists will be announced in December, and the winner will be announced in January.

THE SENATE will be awarding $1,000 for excellence in original research by graduate students through the first annual Charles E. Shanklin Award. The award will be presented to a graduate student for the dissertation that has been completed in any area of the sciences or arts, including humanities.

Editorial

Few privileged

Instead of offering a maximum number of students the chance to write with computers next year, the state government proposes to put into effect a program that would enable only a very few to use computers. The proposal is a biased one, and it is a shame that taxpayers should have to foot the bill for it.

The state government has proposed a program to provide computers for only a select few students in the state. This is unfair, as it剥夺s students from other schools the opportunity to learn how to use computers. The state government should consider providing computers for all students, not just a select few.

Home State:

What does Ohio owe depositors after crisis?

by Robert Brown

As state legislatures we are frequently called upon to act as the representatives of the public in matters of public interest. There is one situation a person should be prepared to face: when the savings and loan association that has saved the state and local government is in trouble. The Ohio legislature is faced with the task of determining how much the state should make available to these institutions.

The people hurt in the crisis have been those who have invested their savings and have been deprived of the use of their money.

The state government should take the lead in providing assistance to those who have been hurt.

Letters

Review's headlines may be misleading

A few weeks ago, I was approached by a sales representative from the State University of New York, who was writing an editorial-attempting to persuade me to endorse the program. The representative was very enthusiastic about the program and its potential to improve the lives of students.

However, I have serious reservations about the program. My concern is that the program may not be enough to provide the necessary support for students, and it may not address the root causes of the issues that students face.

In my opinion, the program should be supplemented with additional resources and programs to ensure that students are adequately supported.

Clevelanders just jealous of Rose

It is becoming more and more obvious that Rose is the real star of the show. The Cleveland Indians' domination of the league is a testament to their team's talent and hard work. Even though the team has struggled in recent years, they have never lost sight of their goal of winning another World Series.

As the team approaches the final days of the season, it is clear that Rose's dedication to the game and his commitment to success have inspired the entire team. The Indians' success this year is a result of Rose's leadership and the collective effort of the team members.

As Rose continues to lead the Indians to victory, it is clear that he is the real star of the show. The Indians' success is a testament to their team's talent and hard work, and Rose has played a key role in their success.

The Indians are a great team, but it is clear that Rose is the real star of the show. His dedication to the game and his commitment to success have inspired the entire team, and his leadership has been instrumental in their success.

Conclusion

In conclusion, Rose is the real star of the show. His dedication to the game and his commitment to success have inspired the entire team, and his leadership has been instrumental in their success. The Indians are a great team, but it is clear that Rose is the real star of the show. His dedication to the game and his commitment to success have inspired the entire team, and his leadership has been instrumental in their success.
**Students participate in sales program**

by Janet Perosko

"Free delivery" is the motto of the door-to-door sales programs.

Each year, about 10 to 15 Univer-
sity students participate in summer sales programs which
offer quick money, personal freedom, and provide, in some cases, college profit to those who are successful.

Although door-to-door selling can be an arduous task, it is one of the only summer experiences in selling open to students, according to Richard Buchanan, assis-
tant professor of marketing.

"Good salespeople are price-
less if a student can make $35-
20 a week, they can succeed in
summer. They can succeed in
any type of sales career," Buchanan said. "If they don't suc-
ceed in door-to-door selling, it leaves a question mark as to their future sales potential."

Buchanan said that door-to-
door selling is not easy because a tremendous amount of work is required - students usually work well over the normal summer week.

"Sales people tend to be very
determined people who know
who, like a great deal of them," he said. "Sales people are also very materially-in-
vested and need immediate positive feedback, which is why
brochure selling is appealing."

BUCHANAN said that door-to-
door selling has an appeal which
is limited by income and social class.

"Middle-class and lower-middle-
class families with low in-
come tend to be your best
prospects for door-to-door sell-
ing," he said. "These families
don't go out and shop a lot,
maybe due to lack of a car."

Mark Morris, student sales manager for the Southwestern Company, spe-
cializing in selling books, said that
students who make it through the
summer and make money.

"Our students usually work about 70 hours a week, averag-
ing about 10 hours demonstrating in a week," Morris said. "If they sell two to three sets per day, they can make over $40 a week."

Marvin said that all students from a university are relocated and work in the same area.

"Every summer we meet with student personnel make it through the
summer and make money."

"Sales people are very
determined people who know
who, like a great deal of them."

"Sales people are also very materially-in-
vested and need immediate positive feedback, which is why
brochure selling is appealing."
African festival addresses problems

by Deborah Schmook

Land walls and the sound of bongo drums could be heard as about 80 people waited to eat African cuisine at Saturday's African dinner. The American public needs to know about Africa because they only hear things through the media that are bad, said Mohamed Doumbouya, first secretary of the embassy from the Republic of Guinea. He was the last-minute replacement to speak at the African dinner. "As Africans, we haven't made enough effort to let others know about us."

The atmosphere was more serious when the keynote speaker took the podium. "The problem is for states to come together in unity, to be one of five or six, so that problems can be solved at the national level, rather than the regional level." The United States, who was the last-minute replacement to speak at the African dinner, also thanked the crowd for their interest in his country. "You are here, misters and misses; you are examples of people that care about Africa. We want you to help us make Africa better," he said. "Doumbouya commended the African students who are studying at the University. "They are examples of African students who are trying to make Africa better," by said. Doumbouya had not planned to speak at the African dinner. "It is an unexpected arrangement."

The attire, traditionally worn by young Nigerian women, was shown in the African Week fashion show. Barbara Stevenson dons an evening wear wrap around made of 100 percent cotton goldenhorse material.

Fund changes proposed

By Dan Lee
staff reporter

Although "pleased" with the city's operation in 1964, Mayor
Blinn found several problems. Bowling Green can
be a "mess," he said, and there was a
safety problem. A Bowling Green resident's
I.D. file was stolen over the past weekend.

According to Galen Ash, Bowling Green City Police
Chief, the station received more than 112 calls varying
from disorderly conduct to vandalism.

He said the damage would be
done because it would be difficul
to close the university at this time and that the
disciplinary faculty already at the university would
have to do the job of relieving the problem.

The worst would be to the University and the
"cooped-up" feeling in the University.

Blinn said his proposed changes to
the University will have re-
sulted freedom because of the
restricted freedom because of the
restricted freedom because of the
vicious nature of the call.

Drummer emits energy

J.C. Heard gets 'involved' in his performances

by Don Lee

The bands - seemingly independent of the rest of the body - worked dramatically, the sounds overlapped, and the rhythm was traded. This was the impression created by jazz percussionist J.C. Heard's performance in Kobacker Hall Saturday night.

"I have to get involved (in the music). When I get involved, the audience gets into it," Heard explained.

After such a performance at a high school jazz clinic Saturday afternoon in Kobacker, Heard told his audience of high school jazz musicians, "That was just the beginning. Ten down, a jazz musician may play a slightly different way each time, he said.

While Heard said he "can appreciate some of the things these young cats do," he says the rise of stage spectacles is at the expense of musical skills.

"People ask me about people like Cab Calloway, with whom be recorded an album on stage," whatever feels right, whatever makes the band the best," he said.

Heard began his professional jazz career 55 years ago, singing with the band of pianist J.C. "Dicky" Wells.

"I blend in with whatever piece - I try to get things kind of loosened up a little," he said.

Two Bedroom/Two Bathroom Apartments starting as low as $107.50 per month or $459/semester (4 person)

Why pay more when the best is for less?

- Free cable
- We pay heat, water, trash removal
- Air conditioning
- Swimming pools
- Garbage disposals
- Wall to wall carpet
- On site management
- Full time maintenance
- Laundry facilites

BG sweeps Western, NIU, eyes playoffs

by Neal Smith

The weekend's warm weather brought to life the softball team's offense, outhitting the opposition at a 4-1 ratio on the weekend, according to Coach Greg Nye. "It was just like we knew it would be," Nye said. "The girls really proved they are capable of putting up runs against some decent pitching." The Falcons, who beat NIU 10-0 and 7-1, have scored 20 runs this season, a total that has the Owls and Panthers reeling. "We're hitting the ball and driving in runs," Nye said. "That's the key to winning games." The Falcons' offense was led by blinking Flowers, who went 10-for-16 with two home runs and 17 RBIs. "She's a star," Nye said. "She's the best hitter we have on the team." The team's other standout was pitcher Kent, who allowed just one run in 18 innings and struck out 18 batters. "She's our ace," Nye said. "She's the best pitcher in the MAC." The Falcons' defense was also solid, committing just three errors in 10 innings. "Our defense is improving," Nye said. "We're making less mistakes." The Falcons' next game is against Western, who they beat 4-0 on Friday. "We need to keep our offense going," Nye said. "That's our strength." The team will then play NIU again on Saturday and Western on Sunday. "We're looking forward to a tough weekend," Nye said. "But we're ready for it." The Falcons are currently in third place in the MAC, just half a game behind NIU. "We're fighting for the championship," Nye said. "We're not going to give up."
Cleveland — in a weekend series that had big-name players such as Bert Blyleven, John Franco, Dave Winfield and last year's American League batting champion, Dave McDaniel, the Tribe ended up being the underdog.

"I want no more trouble," said a Tribe vendor who sold calendars at the game. "It's too low."

"Well, I'll tell you what I decided to do. I'm going to use him again."

"What did you say," Ward responded. "This is as loud as I'm going to yell," Taylor responded.

"That's when the vendors took a big step toward gaining some respect," said Ron Frili of the MAC. WMU is now 14-4 and stands at 10-4 overall and 1-1 in the Western Athletic Conference. WMU defeated Western Michigan, 6-3, in tennis team should be included sixth singles champion, pulses at big upset at sixth MAC and man-for-man we for us this season is to get some conference than ever before respect. We want to upset teams They don't get any respect.

"This is as loud as I'm going to yell," Taylor responded.

Softball

Continued from page 7

The confident attitude is a marked change from last year’s squad, a more balanced attack is the reason.

“We’re just playing together, it seems like everyone wants to bat, they feel good about it,” she said. “If someone gets a hit, there will be someone else there to back them up. We’re not relying on one or two girls like last year.”

The young (seven freshmen, five sophomores, five upperclassmen), Falcons squad knows its most important week, which is exactly what happened to the Bowling Green players tonight. The Falcons couldn’t perform admirably but could not keep up with the top guns.

“This was a national class meet,” senior Jay Yuhas said. “There were people there that could not keep up with the leaders.

Yuhas did his best to keep up with the strong field in the triple jump. Running up with Chuck Morgan, Keith Green and Kim Jamison, who finished 3rd in the 3000 meter and Kim Jamison who finished fifth in the 100 meter.

The confident attitude is a reason for third in the MAC today for a Falcons squad and, according to Davenport, the reason.

A very fast track with no wind, combined with the Falcons’ stronger rivals, definitely helped the team perform.

“I’m not going to put any more pressure on him and stick with him and try to get help,” Yuhas answered. “I’m going to try and do my best and try to get points for the Falcons.

The whole Falcons team will have to stay in sync with EMU as they are one of the Falcons’ strongest rivals, deftly.

Tough field too

The Falcons travel to Toledo (tied Tuesday, April 23rd)

For third in the MAC) today for a Falcons squad facing tough field.

The young (seven freshmen, five sophomores, five upperclassmen) Falcon squad faces much for Falcons.

Tough field too

CINCINNATI (AP) - State prosecutors may press as many as 12 additional charges against the husband of the woman who was killed when the couple's 2-year-old son drove his father's car into a wall. The family's attorney said the boy, who is not on trial, was not charged because he couldn't control his own car.

Senators' bill requires profitable firms to pay taxes
WASHINGTON (AP) - Saying it is unfair for some U.S. companies to be paying no taxes, Sen. Howard Metzenbaum, D-Ohio, yesterday announced legislation that would require a minimum tax on the most profitable firms.

HOUSTON (AP) - With a thunderous roar, a huge cloud of dust and the sounds of thousands of spectators,提振're Arendt's old Lamar Hotel was turned into rubble.

Monkeys carry AIDS-like germ
BOSTON (AP) - A virus almost identical to the germ generally thought to cause AIDS has been found in monkeys and only recently spread to people.

Scientists at the New England Regional Primate Center identified the virus in macaque monkeys. The animals were afflicted only recently with monkey AIDS, a disease that is thought to result from a deficiency in their immune systems.

American experts believe that the human AIDS virus called HTLV-I, for human T-cell lymphotropic virus type I, is similar to the monkey virus HTLV-II, for simian.

"Clearly we have, for the first time, a virus that looks and acts like HTLV-I, that clearly can infect and be transmitted from animal to human," said Dr. Norman Letvin of the primate center.

FRENCH RESEARCHERS who discovered the human virus at about the same time as the U.S. discovery call it lymphoepithelioma-associated virus, or LEA.

Many experts believe that the monkey AIDS virus appears to be one among a species called the African green monkey that lives in central Africa.

"We hypothesize that the African green monkey virus is the source of the LEA virus," said Dr. Anthony Fauci of the国立institut.

Scientists from the Harvard School of Public Health have discovered that the monkey AIDS virus appears to be a virus among a species called the African green monkey that lives in central Africa.

"We hypothesize that the African green monkey virus is the source of the LEA virus," said Dr. Anthony Fauci of the National Institute of Allergy.

"We hypothesize that the African green monkey virus is the source of the LEA virus," said Dr. Anthony Fauci of the National Institute of Allergy.

Several African green monkey viruses have been found in the Caribbean, the United States and Africa before spreading to the United States.

Every TI calculator comes with one extra number.
1-800-TI-CARES

When you buy a Texas Instruments calculator you don't just buy a calculator; you buy Texas Instruments commitment to quality.

It's a commitment backed by a fully developed service network that includes the above toll-free number you can call from anywhere in the United States.

If you have any applications, operations, or service questions, call us Monday thru Friday between 9 am and 4 pm CST, and we'll be glad to help you.

If your calculator needs repairing, we'll direct you to one of our 46 conveniently located service centers for an immediate exchange. Under warranty, it's free.

If it's not under warranty, we do it for a small fee.

Of course, there's just one catch. It has to be a Texas Instruments calculator. But then, if you're as smart as we think you are, why wouldn't it be?
TONI IS OFFERING A $100 CASH PRIZE TO SEE YOU THEM!
